2. Contribution Rate Change

I hereby elect to under Section 23(2) of the *Superannuation Act 1988* to vary my contribution rate to the Lump Sum Scheme from the first pay in the next financial year.

Please tick one of the following:

- 0%¹ 6% (standard contribution rate: see Notes)
 3% 7.5%
 4.5% 9%

NOTES

Members are entitled to alter their contribution rate once each year (rate change in July). Elections to vary contribution rates must be received by Super SA before 30 April for the election to be effective for the next financial year. The standard contribution rate is the rate you must average during your period of contributory membership to receive the maximum employer support.

If you elect to reduce your contribution rate below your standard contribution rate, this will reduce your retirement benefit unless you later increase your contribution rate to "catch up" and thereby average your standard contribution rate over the total period of your membership. If you elect to contribute at a rate greater than your standard contribution rate, employer benefits will not be increased unless you have previously elected to pay at a lower rate.

¹ If you reduce your contribution rate to 0% you will not accrue any entitlement during this period. This is called Non-contributory membership and you cannot catch up the entitlement that you have missed. During a period of Non-contributory membership, your employer contribution is contributed into Triple S.

Please note if you elect to reduce your contribution rate to 0% and make after-tax member or salary sacrifice contributions to Triple S, this will result in your Lump Sum Scheme membership being preserved.

3. Member Declaration

I declare that the above statements are true and correct. I understand that the election effective from 1 July will remain in force until I notify Super SA in writing of any further changes.
