

The Hon. Stephen Mullighan MP
Treasurer

Dear Treasurer

On behalf of the Board of Super SA, I am pleased to present the Annual Report for the financial year ended 30 June 2023.

The Report is submitted for your information and presentation to Parliament in accordance with the requirements of *section 21 and schedule 3 (section 10) of the Superannuation Act 1988 and section 16 of the Southern State Superannuation Act 2009* and Premier and Cabinet Circular *PC013 Annual Reporting*.

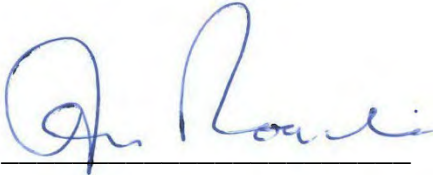

This Report is verified to be accurate for the purposes of annual reporting to the Parliament of South Australia.

Submitted on behalf of the South Australian Superannuation Board by:

June Roache
Presiding Member

Date 27/09/2023

Signature

June Roache

From the Board and Chief Executive

It is our pleasure to present the 2022-23 Super SA Board Annual Report.

Members are at the heart of everything we do

The Annual Report highlights the key accomplishments Super SA has achieved for its members over the last financial year, notably:

- Implemented a state-based choice of fund regime known as “fund selection” and a limited public offer facility (being the ability for private employers to contribute to Super SA Select) for eligible members of the Triple S scheme and Super SA Select
- Investment in technology, cyber security and information management, in line with our commitment to the security of member data
- Commenced the implementation of an industry best practice methodology for calculating superannuation scheme unit prices in line with Australian Securities and Investment Commission Regulatory Guide 94 Unit Pricing: Guide to good practice.

Continuous improvement for best member outcomes

Since the introduction of fund selection in November 2022, Super SA has been focusing its efforts on continually improving and providing quality outcomes to members.

Super SA is proactively mobilising key initiatives to retain members in the competitive superannuation environment in which we now operate, by significantly enhancing our technological capabilities and service offering for members. This strategic approach aligns with community expectations of a modern super fund.

The Board has developed its strategy in the spirit of the Australian Prudential Regulation Authority (APRA) Prudential Standard *SPS 515 Strategic Planning and Member Outcomes*, a standard which requires regulated superannuation funds to deliver demonstrable quality outcomes and act in the best financial interests of its members. Super SA has adopted this important standard, because it is in the best financial interests of our members to do so.

Super SA will deliver on these requirements by:

- Proactively engaging our investment partner Funds SA, to improve on its best practice investment model in consideration of investment strategy, returns, reporting under the Australian Securities and Investments Commission’s (ASIC) *RG97 Disclosing fees and costs in PDSs and periodic statements*, risk and fees
- Designing competitive products to meet the needs of current and future members in accordance with *SPS 515 Strategic Planning and Member Outcomes*
- Enhancing digital member capability and capacity with targeted member engagement, while maintaining stringent cyber security measures that protect the financial interests of members

- Implementing a truly member-centric experience by continuing to grow a culture of members' best financial interests
- Continuing to administer the robust suite of governing legislation and regulatory requirements for which it is responsible.

Investment performance

Despite a challenging market, Super SA delivered a strong 9.6% financial year return for members in its Triple S (untaxed) Balanced option.

Importantly, long-term performance remains positive with members benefitting from returns that generally exceed stated performance objectives for growth-based options, as at 30 June 2023.

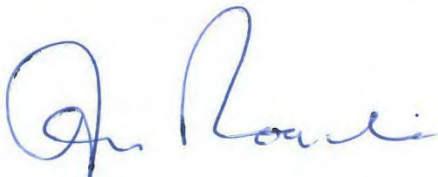

Investment performance was driven by strong growth in equity markets globally, with the performance of the technology sector a key driver. Economic growth has proved relatively resilient with consumer spending holding up well over the year despite a forecasted recession. Positive factors were offset by write-downs in some property assets toward the end of the year.

The rebound in investment performance this year is a significant reminder to focus on consistent long-term performance.

Thank you

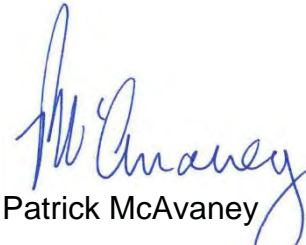

To all our members, thank you for your continued support.

We also thank the Board and all Super SA staff for their continued dedication to members' best interests throughout the past 12 months.

June Roache

Overview: about the agency

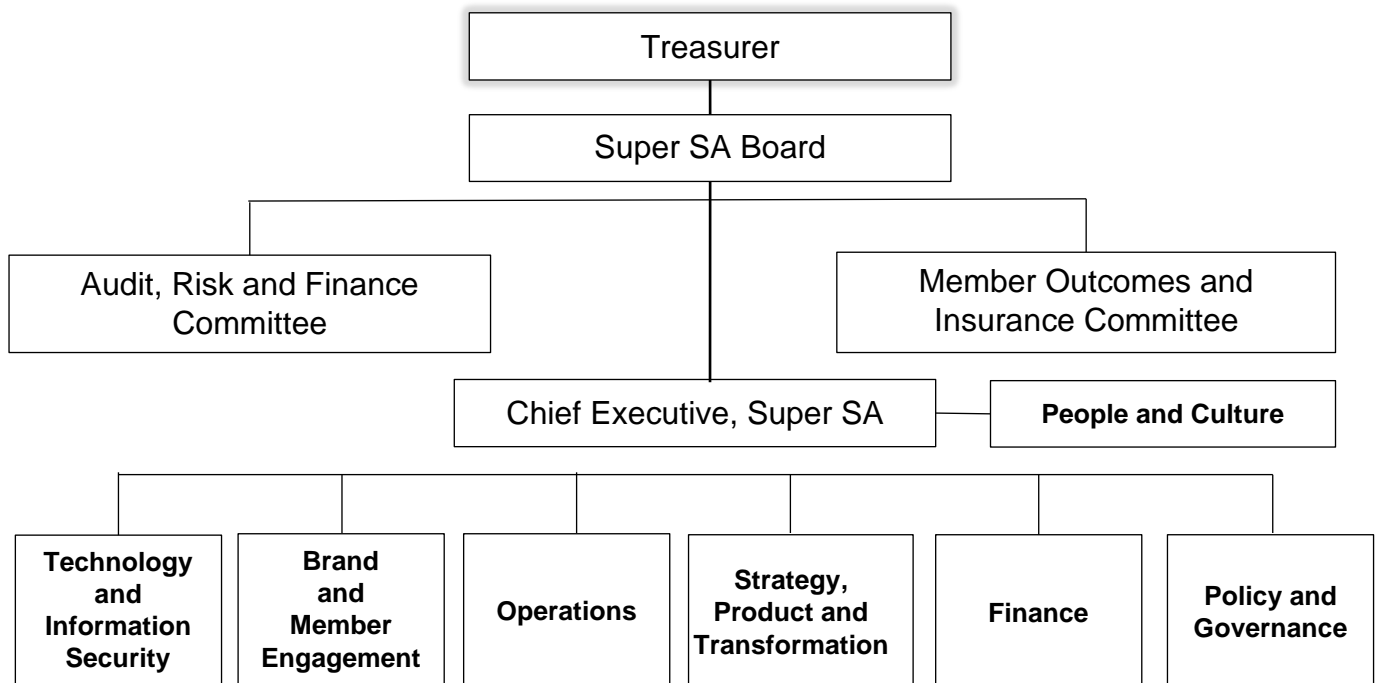

Our strategic focus

<p>Our Purpose</p>	<p>Our purpose is to champion the financial wellbeing of our members.</p> <p>The Board is responsible for¹ the administration of:</p> <ul style="list-style-type: none"> • Triple S • Pension Scheme • Lump Sum Scheme • Income Stream • Flexible Rollover Product • SA Ambulance Service Superannuation Scheme
<p>Our Vision</p>	<p>To be the most respected superannuation fund</p>
<p>Our Values</p>	<p><i>Dedication</i> – we are members serving members, so we go the extra mile and always look for ways to do better</p> <p><i>Insight</i> – our experience means we know our SA members, and we build on this knowledge to deliver the best outcomes</p> <p><i>Integrity</i> – our ethical principles are non-negotiable, and we act in our members’ best interests transparently and consistently</p>
<p>Our Functions, Objectives and Deliverables</p>	<p>Our strategy is to excel and improve the member experience whilst being competitive on fees and returns</p> <p><u>High level strategic objectives:</u></p> <ul style="list-style-type: none"> • Grow the combined funds under management of all Super SA related Schemes to \$43.1 billion by 30 June 2024* • Net investment returns comparative to Super SA’s six key competitors • Fees – to be in the most cost-efficient quartile of funds while delivering additional services to members <p><i>*In conjunction with Funds SA including investments, returns, employer and member contributions</i></p>

¹ The Super SA office also provides administration services to other public sector superannuation funds, which are governed by other Boards and the Treasurer, i.e. Southern Select Super Corporation Board, Parliamentary Superannuation Scheme Board, Governors’ Scheme Pension Fund and Judges’ Scheme Pension Fund.

Our Strategy	<p>Four Strategic Themes</p> <ul style="list-style-type: none"> • Member and Employer Engagement – to enhance the member experience to drive engagement, retention and growth • Future Proofing – to transform the Fund for long-term sustainability • Competitive Products – to design product / investment options that deliver to member expectations in a competitive environment • Member Centric Culture – to engage and develop our people to deliver a continually improving member centric service.
---------------------	---

Our organisational structure

Changes to the agency

During 2022-23 there were no changes to the agency's structure and objectives as a result of internal reviews or machinery of government changes.

Our Minister

The Hon. Stephen Mullighan MP is the Treasurer and the Minister responsible for superannuation.

Our Board (as at 30 June 2023)²

Hon Kevin Foley

Presiding Member (Chairman), appointed by the Governor from 2 December 2022.

With significant experience in economic strategy, financial management, superannuation and strategic advisory, Kevin Foley served as Treasurer and Deputy Premier of South Australia from 2002 to 2011 and was the Chair of the Funds SA Board from 2015 - 2018.

Presiding Member, Southern Select Superannuation Corporation.

Virginia Deegan

Appointed by the Governor from 23 July 2020 - 22 July 2023.

Executive Director Infrastructure, University of Adelaide.

Extensive board and executive management experience across a range of sectors including superannuation, health, and higher education.

A Fellow of CPA Australia (FCPA) and Member of Australian Institute of Company Directors.

Board Member of the Southern Select Super Corporation, Member, SA Health Risk Management and Audit Committee and Director, Stawell Underground Physics Lab Pty Ltd.

Alison Kimber

Member representative elected from 2 October 2021 - 1 October 2024.

Significant board and executive experience in financial markets, superannuation and community service delivery. More than 30 years' experience in the finance, government, and not-for-profit sectors.

Fellow of the Australian Institute of Company Directors and Fellow of the Institute of Actuaries of Australia.

Councillor, Australian Institute of Company Directors SA/NT and Board Member, Southern Select Super Corporation, Member, Cabaret Fringe Association Board, Member, ACT City Renewal Authority Board and Board member Can Do Group.

² Gregory Boulton AM, was Presiding Member of the Super SA Board from 1 July 2022 until the conclusion of his term appointment on 8 September 2022

William Griggs

Member representative elected from 2 October 2021 - 1 October 2024.

Bill Griggs brings to the Board significant leadership and board experience, with expertise in corporate governance, people and culture, superannuation, investment, and insurance. He has a particular interest in managing/coping during times of uncertainty and in evidence-based decision making.

Current Directorships or equivalent - Director, Funds SA, Director, Return to Work SA, Board Member, Southern Select Super Corporation and Board member, St John Ambulance.

Fellow of Australian Institute of Company Directors.

Richard Dennis

Appointed by the Governor from 23 July 2021 - 22 July 2024.

Richard Dennis is a legal practitioner and consultant and held the position of South Australian Parliamentary Counsel 2006-2015.

Governor of the Wyatt Trust, Member, Anglican Diocese of Adelaide Drafting Committee and Board Member, Southern Select Super Corporation.

Attendance at Board and Committee meetings³

All members serve in a part-time capacity.

Board members attend a variety of national conferences and education seminars. During the 2022-23 year, Board members attended the Association of Superannuation Funds of Australia Conference (Brisbane, February 2023) and the Australian Institute of Superannuation Trustees' Conference of Major Super Funds (Melbourne, March 2023).

Alison Kimber	15	15	2	2	3	3

³ Board member participation in out of session decisions made by circular resolution as defined in the Board's regulations have also been included

⁴ Gregory Boulton AM, was Presiding Member from 1 July 2022 until the conclusion of his term appointment on 8 September 2022

Our Executive Team*Dascia Bennett, Chief Executive*

Responsible for leading the organisation and delivering on the Board's strategic agenda whilst ensuring that Super SA meets legislative and reporting requirements for all superannuation funds managed.

In addition to leading the Executive Team, during 2022-23, the delivery of human resources and organisational development was re-aligned to report directly to the Chief Executive.

Patrick McAvaney, Director Policy and Governance

Responsible for the provision of leadership and advice in the areas of legislation, policy, dispute resolution, risk management, compliance and governance practices across Super SA. This role is also responsible for board and committee services.

Lorna Harrison, Director Operations

Responsible for leading the Operations team to ensure the timely and accurate collection of contributions and member data, payment of benefits, administration of post retirement services and the annual review process for the funds administered by Super SA. In addition, the role leads the insurance delivery service.

Karen Raffan, Director Brand and Member Engagement

Responsible for leading the design and implementation of a contemporary brand, marketing and member experience strategy for the Fund. Karen is responsible for the areas of member services, financial planning, marketing and member experience.

The role also develops business solutions that optimise the Board's strategic objectives in relation to maintaining and improving scale through membership retention and growth.

Adrian De Silva, Director Strategy, Product and Transformation

Responsible for providing leadership and management of product and strategic advice across Super SA. This includes accountability for the design and alignment of superannuation product offerings to meet member outcomes. The role's responsibilities also include Super SA's project management office, with oversight of major transformational projects, contemporary change management practices and oversight of the Funds SA operational relationship.

Mike Gulliver, Director Technology and Information Security

Responsible for providing strategic and operational leadership to deliver technology and data services in support of Super SA's strategy and ongoing benefit for members. This includes responsibility for technology roadmap development, Information Communication Technology (ICT) service delivery model, and cyber security practices aligned to government requirements and APRA Prudential Standards.

This role is also accountable for managing contractual ICT service level agreements, budgets, and key relationships with agencies, regulators and external technology partners.

Mark Hordacre, Director Finance

Responsible for leading the Finance, Actuarial and Procurement group in the design and delivery of sound financial management services for the benefit of our members and relevant agencies. This includes responsibility for the provision of financial and management accounting services to the Schemes and the Board, tax and investment operations for the Schemes.

Legislation administered by the agency

The Super SA Board is responsible to the Treasurer for all aspects of the administration of:

- *Southern State Superannuation Act 2009* (Triple S, Flexible Rollover Product and Income Stream); and
- *Superannuation Act 1988* (Lump Sum and Pension Schemes)

except for the management and investment of the funds.

The Board also acts as trustee of the SA Ambulance Service Superannuation Scheme and is responsible for administering the Trust Deed and rules.

The Government of South Australia, other state and territory governments and the Commonwealth Government have entered into a Heads of Government Agreement on superannuation (HOGA) that recognises certain public sector schemes are exempt public sector superannuation schemes and therefore exempt from the Commonwealth's *Superannuation Industry (Supervision) Act 1993* (SIS Act).

Each scheme is, however, deemed to be a complying fund in terms of the SIS Act, for superannuation guarantee purposes under the *Superannuation Guarantee (Administration) Act 1992* and for income tax purposes under the *Income Tax Assessment Act 1936*.

In terms of the HOGA, the state government has made a commitment to use best endeavours to ensure that the exempt public sector schemes conform to the principles of the Commonwealth's retirement income policy objectives.

Other related agencies (within the Minister's area/s of responsibility)

Super SA

On behalf of the Super SA Board, the State Superannuation Office (Super SA) is responsible for managing SA Public Sector superannuation schemes in line with relevant governing legislation and instruments.

This arises from section 10(3) of the *Superannuation Act 1988*, which enables the Board to make use of the staff or facilities of an administrative unit of the SA Public

Sector, with the approval of the Minister of that administrative unit. Super SA, a branch of the Department of Treasury and Finance, provides administrative services to the Board on this basis.

The Board's service level contract with the Under Treasurer sets out specific performance standards. The contract expired on 30 June 2023, with a new contract commencing for a term of three years with effect from 1 July 2023.

The annual budget for the operation of Super SA is presented to the Board for its approval.

The use of consultants, contractors, Work, Health and Safety reporting and executive employment statistics are included in the Department of Treasury and Finance's Annual Report.

Funds SA

Funds are managed by a specialist investment manager, Superannuation Funds Management Corporation of South Australia (Funds SA). Funds SA manages the investments for each scheme in accordance with sections 17 and 19 of the *Superannuation Act 1988*, sections 10 and 11 of the *Southern State Superannuation Act 2009*, and the provisions of the *Superannuation Funds Management Corporation of South Australia Act 1995*.

The current Memorandum of Agreement between Funds SA and Super SA was executed in February 2022. Funds SA provides this service under legislation. The agreement is reviewed on a three yearly basis or when a significant change occurs.

The Agency's Performance

Performance at a glance

Super SA's performance is assessed continuously against key objectives every quarter. This will ensure the projects and initiatives conducted throughout the year are aligned to meet the key objectives.

Over the last financial year, Super SA has delivered on a number of multi-year initiatives that focus on improving the fund's operating model and continue to enhance services to members:

- Operational implementation of fund selection and limited public offer
- Technology roadmap and target operating model review
- Ongoing implementation of the recommendations of the ICAC's *Evaluation of the practices, policies and procedures of Super SA*
- Project management office upgrade - change management
- New modern staff intranet
- Continued low account balance consolidation / transfers to the Australian Taxation Office (ATO).

Super SA has aligned itself with the Australian Prudential Regulatory Authority (APRA) standards, where possible. The Heads of Government Agreement on superannuation requires that Super SA use a best endeavours approach to do so. In striving to achieve this we have undertaken:

- Ongoing development of a *SPS515 Strategic Planning and Member Outcomes* framework for Super SA and implemented changes to budgeting, business planning and business case preparation
- Ongoing delivery of the *Protecting Your Super* program that addresses account erosion due to excessive fees
- SuperStream Rollover upgrade to meet ATO requirements
- Continued development of a cyber security strategy in line with Australian Prudential Regulation Authority's *CPS 234 Information Security* and *CPS 231 Material Outsourcing*.

Agency specific objectives and performance

Agency contribution to whole of Government objectives

Key objective	Agency's contribution
Lower costs	<ul style="list-style-type: none"> Net investment returns comparative to Super SA's key competitors Fees – in the most cost-efficient quartile of funds
Better services	<ul style="list-style-type: none"> Implementation and operational delivery of fund selection and limited public offer providing members with choice since 30 November 2022.

Agency specific objectives and performance

	2022-23 Actual	2022-23 Target	2021-22 Actual	2021-22 Target	2020-21 Actual
Achievement of approved service level standards by 30 June each year	73%	90%	68% ⁵	90%	85%
Benchmarking of administrative costs with industry standards — remain in the most cost efficient quartile of industry standards* while providing additional services to members	In the most cost efficient quartile	In the most cost efficient quartile	In the most cost efficient quartile	In the most cost efficient quartile	In the most cost efficient quartile

*Based on last available Chant West Super Fund Fee Survey (June 2023)

⁵ Service level standards were impacted across the organisation due to additional security measures applied due to the December 2021 SA Government Frontier data breach.

Agency objectives	Indicators	Result
Member and Employer Engagement – to enhance the member experience to drive engagement, activation and retention	Achievement of service level standards target 90%	Not Achieved 73%

Corporate performance summary

In measuring fund sustainability, Super SA monitors the funds under management by scheme.

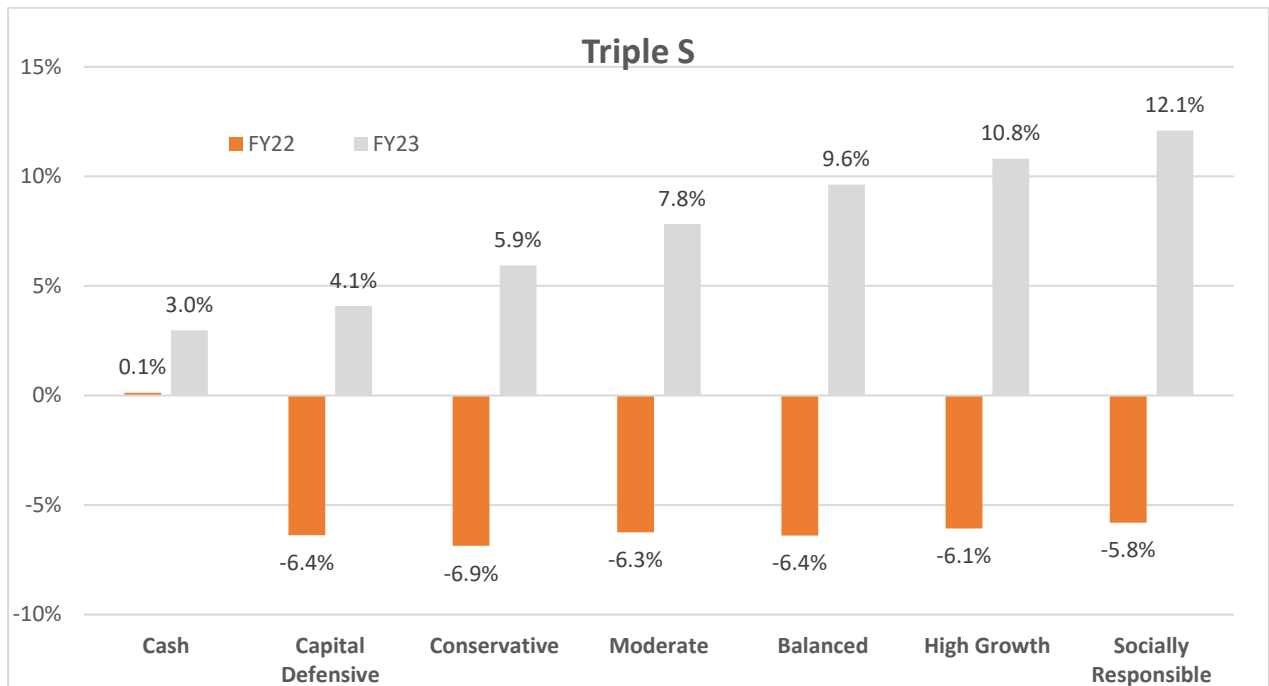

Funds under management

The comparison of the 2023 and 2022 funds under management by scheme is shown in the graph below.

Investment returns for Triple S

The comparison of the 2023 and 2022 investment returns for Triple S over each investment option is shown in the graph below:

Financial performance

Financial performance at a glance

The funds under management was \$35.6 billion as at 30 June 2023.

The total number of members as at 30 June 2023 was 215,318 which represents an increase of 5,188 members from the prior year. This figure comprises the following categories of members:

- Triple S active and preserved
- Pension Scheme superannuant, active and preserved
- Lump Sum Scheme active and preserved
- SA Ambulance Service Superannuation Scheme active and preserved
- Super SA Income Stream active, and
- Flexible Rollover Product active.

No. of contributors/ members in state schemes	2022-23 Forecast	2022-23 Actual	2023-24 Forecast
Members	209,439	215,318	215,751
• Triple S (total)	173,021	177,907	177,907
○ Non-contributors	98,156	96,929	95,723
○ Salary Sacrifice contributors only	20,182	18,735	18,750
○ After Tax contributors only	7,838	8,204	7,916
○ Both After Tax and Salary Sacrifice	3,134	2,693	2,264
○ Preserved > \$6,000 account balance	32,444	35,288	37,197
○ Preserved < \$6,000 account balance ⁶	11,267	16,058	16,058
• Flexible Rollover Product	8,362	8,074	8,576
• Income Stream	12,063	13,381	14,032
• Superannuants	13,282	13,262	12,905

⁶ The Super SA Board has agreed to opt into the Commonwealth's Inactive Low Balance Account regime for Triple S.

No. of contributors/ members in state schemes	2022-23 Forecast	2022-23 Actual	2023-24 Forecast
• Other retirement schemes (Pension, Lump Sum, SA Ambulance) ⁷	2,711	2,694	2,331
○ Pension	203	207	151
○ Lump Sum	1,928	1,920	1,656
○ SA Ambulance	580	567	524

The total Triple S preserved membership rose by 7,635 individuals, reaching a new total of 51,346 members. However, Triple S active members only declined by 2,749 resulting in an increase in total Triple S membership. All open schemes increased in membership. All closed schemes continued to decline in membership.

Below is a summary of the number of preserved members as at 30 June 2023 (preserved membership numbers as at 30 June 2022 is shown for comparison).

No. of preserved members in state schemes:	30 June 2023	30 June 2022	Change
Members	52,248	44,721	7,527
Triple S (total)	51,346	43,711	7,635
Pension	114	143	(29)
Lump Sum	710	786	(76)
SA Ambulance	78	81	(3)

Other financial information

The State Government has a strategy to fund both its accruing and accrued past service superannuation liabilities by 30 June 2034.

South Australian Superannuation Fund

Esther Conway, an actuary with Mercer Consulting (Australia) Pty Ltd, performed the actuarial review of the South Australian Superannuation Fund (Pension and Lump Sum Schemes) as at 30 June 2022, and the results are contained in a report dated 23 June 2023.

The review was performed to meet the requirements of section 21 of the *Superannuation Act 1988*, which stipulate actuarial reviews be undertaken every three years. This section of the Act requires the actuary to provide a report on the following aspects:

⁷ Comprises both active and preserved members

- the cost of the scheme to the State Government at the time of the report and in the foreseeable future
- the proportion of future benefits under Part 5 of the Act that can be met from the Fund.

The next actuarial review of the South Australian Superannuation Fund (Pension and Lump Sum Schemes) will be performed as at 30 June 2025.

Triple S Insurance Pool

A triennial review of the Triple S Insurance Pool as at 30 June 2022 was performed by Nathan Bonarius, an actuary with PricewaterhouseCoopers (PwC).

This report was prepared in accordance with the requirements of section 17 of the *Southern State Superannuation Act 2009*.

The report assesses:

- the cost and funding of insurance benefits provided through the scheme as at 30 June 2022
- the extent to which the premiums paid by members and held by the Board are sufficient to meet the scheme's anticipated liabilities at 30 June 2022 and in the foreseeable future.

The next actuarial review of the Triple S Insurance Pool is due to be performed as at 30 June 2025.

SA Ambulance Service Superannuation Scheme

Esther Conway, an actuary acting on behalf of Mercer Consulting (Australia) Pty Ltd, performed the actuarial review as at 30 June 2020 to meet the requirements of the scheme's governing rules, which stipulate that actuarial reviews are to be undertaken every three years.

The next actuarial review of the SA Ambulance Superannuation Scheme is due to be performed as at 30 June 2023.

Full audited financial statements for 2022-2023 are attached to this report.

Risk management

Risk and audit at a glance

The Super SA Governance and Risk team's responsibilities include oversight of risk management, compliance, the Board's anti-money laundering and counter-terrorism financing program, incident management and business continuity management. The team also manage internal audit reviews conducted by an external provider.

Fraud detected in the agency

Category/Nature of Fraud	Number of instances	Financial Impact to Super SA (\$)
Fraudulent transactions attempted by external parties on member accounts	7	NIL
Applications for unauthorised early release of superannuation on compassionate grounds	10	NIL

NB: Fraud reported includes actual and reasonably suspected incidents of fraud.

Strategies implemented to control and prevent fraud

To ensure a strong control environment exists to prevent the occurrence of fraud, the Super SA office has implemented strong monitoring and validation controls over benefit payments, including verification with members of large benefit payment requests, system-based identification of unusual member account activity, validation of proof of identity prior to payment and independent review and authorisation of all benefit payments.

Regular information is provided to the Super SA Board from internal and external audit, the Audit, Risk and Finance Committee and the Chief Executive.

The Super SA office maintains the Board's Risk Management Strategy and Plan; a Business Continuity Framework and Plan; an Internal Audit Plan; a Compliance Framework and an Anti-Money Laundering and Counter-Terrorism Financing (AML/CTF) Program.

Service improvements

- Implemented the new industry best-practice disputes resolution process on 1 July 2022, which better aligns to the Australian Securities and Investment Commission’s regulatory guide - *RG271 Dispute Resolution*. The new process makes it easier for our members to raise a complaint and imposes more stringent recording and reporting of complaints, including the identification of trends and systemic issues.
- With the implementation of the new disputes resolution process, the Board set a key performance indicator to keep complaint numbers below 250 for the 2022-23 financial year and this was achieved with 249 complaints received.
- New Fund Selection, portability and Limited Public Offer (LPO) arrangements were introduced. The new regime provides eligible members with more options and flexibility in regard to their superannuation.
- Engagement of a new medical advisory service to enhance the claims assessment and insurance process and reduce turnaround times.

- Further revised the Board delegations to allow for a more simplified and streamlined payment process for smaller, or low risk payments, to improve response times.
- Introduced rules and processes to enable the acceptance of electronic or digital signatures on instructions from members in particular (low-risk) circumstances to streamline our processes and make it simpler and easier for members.
- Made further improvements to the member online portal to make it easier for members to register, while maintaining enhanced security measures.
- Revised the communication option to ‘electronic’ as a default for all members who are registered with Member Portal, to provide faster and safer communication.
- Updated the Annual Statements to communicate important information, including details around insurance premiums, the effect of low balance accounts on insurance and the distribution of payments upon death.
- Revised numerous communications, including forms and fact sheets to provide clearer information and instructions.
- Improvements to a number of other communications, including confirmation to members who purchase insurance, or who are claiming insurance benefits, to pre-empt queries and reduce confusion.

Compliance statement

Super SA is compliant with <i>Premier and Cabinet Circular 039 – Complaint Management in the South Australian Public Sector (PC039)</i>	Y
Super SA has communicated the content of <i>PC 039</i> and the agency’s related complaints policies and procedures to employees	Y

The Super SA Board has its own complaints policy, based on the timelines and processes adopted by the superannuation industry.

To the Presiding Member South Australian Superannuation Board

Opinion

I have audited the financial report of the South Australian Superannuation Board for the financial year ended 30 June 2023.

In my opinion, the accompanying financial report gives a true and fair view of the financial position of the South Australian Superannuation Board as at 30 June 2023, its financial performance and its cash flows for the year then ended in accordance with relevant Treasurer's Instructions issued under the provisions of the *Public Finance and Audit Act 1987* and Australian Accounting Standards.

The financial report comprises:

- a Statement of Comprehensive Income for the year ended 30 June 2023
- a Statement of Financial Position as at 30 June 2023
- a Statement of Changes in Equity for the year ended 30 June 2023
- a Statement of Cash Flows for the year ended 30 June 2023
- notes, comprising material accounting policy information and other explanatory information
- a Certificate from the Presiding Member of the South Australian Superannuation Board, the Acting Chief Executive, State Superannuation Office, and the Director Finance, State Superannuation Office

Basis for opinion

I conducted the audit in accordance with the *Public Finance and Audit Act 1987* and Australian Auditing Standards. My responsibilities under those standards are further described in the 'Auditor's responsibilities for the audit of the financial report' section of my report. I am independent of the South Australian Superannuation Board. The *Public Finance and Audit Act 1987* establishes the independence of the Auditor-General. In conducting the audit, the relevant ethical requirements of APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* have been met.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Responsibilities of the Acting Chief Executive, State Superannuation Office and members of the South Australian Superannuation Board for the financial report

The Acting Chief Executive, State Superannuation Office is responsible for the preparation of the financial report that gives a true and fair view in accordance with relevant Treasurer's Instructions issued under the provisions of the *Public Finance and Audit Act 1987* and the Australian Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the Acting Chief Executive, State Superannuation Office is responsible for assessing the entity's ability to continue as a going concern, taking into account any policy or funding decisions the government has made which affect the continued existence of the entity. The Acting Chief Executive, State Superannuation Office is also responsible for disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the assessment indicates that it is not appropriate.

The members of the South Australian Superannuation Board are responsible for overseeing the entity's financial reporting process.

Auditor's responsibilities for the audit of the financial report

As required by section 31(1)(b) of the *Public Finance and Audit Act 1987* section 9 of schedule 3 of the *Superannuation Act 1988*, I have audited the financial report of the South Australian Superannuation Board for the financial year ended 30 June 2023.

My objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with Australian Auditing Standards, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

- identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control

- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the South Australian Superannuation Board's internal control
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Acting Chief Executive, State Superannuation Office
- conclude on the appropriateness of the Acting Chief Executive, State Superannuation Office's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify the opinion. My conclusion is based on the audit evidence obtained up to the date of the auditor's report. However, future events or conditions may cause an entity to cease to continue as a going concern
- evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

My report refers only to the financial report described above and does not provide assurance over the integrity of electronic publication by the entity on any website nor does it provide an opinion on other information which may have been hyperlinked to/from the report.

I communicate with the Acting Chief Executive, State Superannuation Office and the members of the South Australian Superannuation Board about, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during the audit.

Daniel O'Donohue
Assistant Auditor-General (Financial Audit)

22 September 2023

South Australian Superannuation Board

Notes to the Financial Statements

1) Objectives and funding

Objectives of the South Australian Superannuation Board

The South Australian Superannuation Board (the Board) was established under Section 6 of the *Superannuation Act 1988* (the Act) and is responsible to the Treasurer for all aspects of the administration of the Act (Pension and Lump Sum schemes) and the Southern State Superannuation Act 2009 (Triple S Scheme, Flexible Rollover Product and Income Stream), except for investment matters relating to the schemes and products. Under clause 2(1)(d) of Schedule 3 of the Act, the Treasurer declared that the Board act as Trustee of the SA Ambulance Service Superannuation Scheme and be responsible for administering the Trust Deed and Rules.

The Act provides that the Board may make use of the staff or facilities of an administrative unit of the SA Public Sector. The State Superannuation Office, a branch of the Department of Treasury and Finance (DTF), provides administrative services to the Board. The State Superannuation Office adopts the “Super SA” name as administrator of the Board schemes and products. The superannuation legislation also provides for the Board to charge administration fees.

The Board is responsible for payment of the Service Level Agreement (SLA) Fee to DTF for costs incurred in the administration of the schemes and products. This amount is then recouped from the various schemes and products as per the SLA.

The Board has carefully considered anticipated future expenditure and sets aside money to cover expected future specific costs.

2) Significant accounting policies

a) Statement of compliance

The financial statements have been prepared in accordance with relevant Australian Accounting Standards, including AASB 1056 Superannuation Entities and other authoritative pronouncements of the Australian Accounting Standards Board, Treasurer’s Instructions and Accounting Policy Statements promulgated under the provision of the Public Finance and Audit Act 1987 (PFAA), and Relevant Australian Accounting Standards applicable to not-for-profit entities, as the Board is a not-for-profit entity.

b) New and amended accounting standards

There are no standards, interpretations or amendments to existing standards that are effective for the first time for the financial year beginning 1 July 2022 that have a material impact on the amounts recognised in the prior or current periods or that will affect future periods.

Certain new accounting standards and interpretations have been published that are not mandatory for the 30 June 2023 financial year and have not been early adopted by the Board other than AASB 2021-2 which was adopted from 1 July 2021. These standards and interpretations are not expected to have a material impact on the Board.

South Australian Superannuation Board

c) Basis of preparation

The preparation of the financial statements requires:

- the use of certain accounting estimates and requires management to exercise its judgement in the process of applying the Board's accounting policies. The areas involving a higher degree of judgement or where assumptions and estimates are significant to the financial statements, are outlined in the applicable notes,
- accounting policies are selected and applied in a manner which ensures that the resulting financial information satisfies the concepts of relevance and reliability, thereby ensuring that the substance of the underlying transactions or other events are reported,
- compliance with Accounting Policy Statements issued pursuant to section 41 of the PFAA. In the interest of public accountability and transparency, the Accounting Policy Statements require the following note disclosures, which have been included in this financial report, and
- board/committee member and remuneration information, where a board/committee member is entitled to receive income from membership other than a direct out-of-pocket reimbursement.

The Board's statement of comprehensive income, statement of financial position and statement of changes in equity have been prepared on an accrual basis and are in accordance with the historical cost convention except as otherwise noted.

The statement of cash flows has been prepared on a cash basis.

The financial statements have been prepared based on a 12 month period and presented in Australian currency.

The accounting policies set out below have been applied in preparing the financial statements for the year ended 30 June 2023, and comparative information presented.

d) Comparative information

The presentation and classification of items in the financial statements are consistent with prior periods except where specific accounting standards and/or accounting policy statements required a change.

Where presentation or classification of items in the financial statements have been amended, comparative figures have been adjusted to conform to changes in presentation or classification in these financial statements unless impracticable.

Where applicable, the restated comparative amounts do not replace the original financial statements for the preceding period.

e) Rounding

All amounts in the financial statements have been rounded to the nearest thousand dollars (\$000).

f) Taxation

The Board, as a wholly owned and controlled statutory authority of the Crown, is not subject to income tax. The Board is registered for Goods and Services Tax (GST) and GST is recoverable and payable to the Australian Taxation Office (ATO).

South Australian Superannuation Board

Income, expenses and assets are recognised net of the amount of GST except:

- when the GST incurred on a purchase of goods or services is not recoverable from the ATO, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item applicable, and
- receivables and payables, which are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the ATO is included as part of receivables or payables in the statement of financial position.

Cash flows are included in the statement of cash flows on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the ATO is classified as part of operating cash flows.

g) Events after the reporting period

Adjustments are made to amounts recognised in the financial statements, where an event occurs after 30 June 2023 and before the date the financial statements are authorised for issue, where those events provide information about conditions that existed at 30 June 2023.

Note disclosure is made about events between 30 June and the date the financial statements are authorised for issue where the events relate to a condition which arose after 30 June and which may have a material impact on the results of subsequent years.

h) Income and expenses

Income and expenses are recognised to the extent that it is probable that the flow of economic benefits to or from the Board will occur and can be reliably measured.

Income and expenses have been classified according to their nature and have not been offset unless required or permitted by a specific accounting standard, or where offsetting reflects the substance of the transaction or other event.

The following are specific recognition criteria:

Income

Fees and charges are derived from the recovery of administration fees from the superannuation schemes and products which the Board administers. Revenue is recognised when earned.

Interest comprises the interest received on the loan to the Treasurer (formally the Minister for Finance) and cash and deposits in the Board's Deposit Account held with DTF, which receives interest at the applicable SA Government rate. Interest is recognised when earned.

Expenses

Administration expenses are the payment of the administration fees to DTF for the provision of services to the Board. This expense is recognised upon delivery of the service.

i) Current and non-current classification

Assets and liabilities are characterised as either current or non-current in nature. Assets and liabilities that are to be sold, consumed or realised as part of the normal operating cycle even when they are not expected to be realised within twelve months after the reporting date have been classified as current assets or current liabilities. All other assets and liabilities are classified as non current.

South Australian Superannuation Board

j) Cash and cash equivalents

Cash and cash equivalents in the statement of financial position includes cash and deposits in the Board's Deposit Account held with DTF.

For the purpose of the statement of cash flows, cash and cash equivalents consists of cash and cash equivalents as outlined above.

Cash is measured at nominal value.

k) Receivables

Receivables include amounts owing from services provided prior to the end of the reporting period that are unpaid at the end of the reporting period. Receivables include all amounts not received relating to the normal operations of the Board.

Refer to Note 14 regarding the Loan Receivable.

l) Payables

Payables include creditors and accrued expenses.

Creditors represent the amounts owing for services received prior to the end of the reporting period that are unpaid at the end of the reporting period. Creditors include all unpaid amounts due relating to the normal operations of the Board.

Accrued expenses represent services provided by other parties during the period that are unpaid at the end of the reporting period and where an invoice has not been received.

All payables are measured at their nominal amount, are unsecured and are normally settled within 30 days from the date of the invoice or date the invoice is first received, as per Treasurer's Instruction 11.

3) Administration expenses

	Note	2023 \$000	2022 \$000
Administration fees		40 240	35 298
Strategic projects	15	2 817	5 204

General Reserve ⁽ⁱ⁾	5 739	-	(1 251)	4 488	5 739

⁽ⁱ⁾ The General Reserve was established in December 2013. The Transfers to Retained Earnings from Reserve amount represents strategic projects expenditure funded by the Board from July 2022 to June 2023.

The purpose of the General Reserve is to account for under and overspend in office expenditure, to provide for project expenditure as required from time to time and to provide funding for the triennial Board Election.

10) Related parties

The Board is a statutory authority and is wholly owned and controlled by the Crown.

Related parties of the Board include all key management personnel and their close family members, all Cabinet Ministers and their close family members and all public authorities that are controlled and consolidated into the whole of government financial statements and other interests of the Government.

a) Key management personnel

The key management personnel of the Board include the Treasurer, the Board members, the Chief Executive and the six members of the Executive Leadership Team, State Superannuation Office who have responsibility for the strategic direction and management of the Board.

The compensation disclosed in this note excludes salaries and other benefits the Treasurer receives. The Treasurer's remuneration and allowances are set by the Parliamentary Remuneration Act 1990 and the Remuneration Tribunal of SA respectively and are payable from the Consolidated Account (via the Department of Treasury and Finance) under section 6 the Parliamentary Remuneration Act 1990. The Chief Executive and Executive Leadership Team, State Superannuation Office, are compensated through the Department of Treasury and Finance so their compensation is also not included below.

e) Compensation

	2023 \$000	2022 \$000
Salaries and other short-term employee benefits	221	238

Compensation costs are included in administration expenses.

South Australian Superannuation Board

11) Reconciliation of cash and cash equivalents

For the purpose of the statement of cash flows, cash and cash equivalents includes cash and deposits in the Board's Deposit Account held with DTF. Cash flows are included in the Statement of Cash Flows on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the ATO is classified as part of operating cash flows. Cash at the end of the reporting period as shown in the statement of cash flows is reconciled to the related item in the statement of financial position as follows:

	2023 \$000	2022 \$000
Cash and cash equivalents	3 657	10 696

Reconciliation of total comprehensive result to net cash provided by operating activities:

Total comprehensive result	(1 253)	(1 284)
----------------------------	---------	---------

Movement in operational assets and liabilities

(Increase) in receivables	(5 241)	5 309
Increase in payables	(545)	4 950
Net cash provided by operating activities	(7 039)	8 975

12) Financial instruments

The Board holds all cash in a Deposit Account with DTF which receives interest at the applicable SA Government rate. The Board's current receivables and payables are non-interest bearing, while its Loan Receivable is interest bearing. There are no fair value differences as carrying values approximate fair value and there is minimal exposure to interest rate or market risk due to the nature of the financial assets and liabilities held.

Interest Rate Risk

Cash and cash equivalents, which represents cash and deposits held in a Deposit Account with DTF, earn a floating interest rate, based on the applicable SA Government rate. The carrying amount of cash and cash equivalents represents fair value.

The Board does not have any assets that are past, due or impaired and credit risk is limited to the Southern Select Corporation Loan Arrangement (Refer Note 14).

The Board's exposure to liquidity risk is insignificant based on past experience and current assessment of risk.

13) Events after the reporting period

Ms June Roach was appointed Presiding Member of Super SA Board from 27 July 2023, following Mr Kevin Foley's resignation as Presiding Member on 18 July 2023.

Ms Alison Kimber was appointed Convenor of Super SA Board Audit, Risk and Finance Committee from 23 July 2023, following Ms Virginia Deegan's term ended 22 July 2023.

South Australian Superannuation Board

14) Southern Select Corporation Loan Arrangement

At the 8 June 2012 Board meeting, the Board agreed to provide funding of \$500 000 from its then Capital and Development Reserve account for the purpose of establishing a new fund; Super SA Select (the Fund).

The terms of the loan are set out in Schedule 2 of the *Public Corporations (Southern Select Super Corporation) Regulations 2012* (the Regulations) and the tri-partite Funding Deed between the Board, the then Minister for Finance and the Southern Select Super Corporation (the Trustee). The Funding Deed was executed on 28 June 2013 with a drawdown date of 5 July 2013.

The repayment of the loan by the Trustee from the Fund, together with interest, will be in accordance with Schedule 2 of the Regulations. If at the end of the financial year the Fund has a net surplus, defined as Net Assets exceeding Liability for Accrued Benefits Allocated to Members' Accounts, the interest receivable in that year must be received on or before 31 July of the following financial year. If the Fund does not have a net surplus at the end of the financial year, the interest receivable for that year will be capitalised into the principal amount receivable. At the end of 2022-23 the Fund did not have a net surplus, therefore the amount of interest capitalised into the principle amount was \$16 400 (2022: \$Nil).

Principal repayments are required when administration fees charged to members of the Fund for the financial year exceed the cost of the administration of the Fund (other than investment management charges). For 2022-23 there was no principal repayment required (refer to the Fund's Financial Report) (2022: \$Nil).

15) Strategic Projects

Super SA sets an annual strategic projects expenditure budget, which funds the Transformation program each year. Included in this program are infrequent and substantial projects, including system upgrades, replacements, product, structural and governance changes.

The annual budget for the Transformation program is set by the Board's strategic direction and is governed by the Super SA Project Board.

The Board's Strategic Project expense (Note 3) reflects the reimbursement of Project costs incurred by DTF.

South Australian Superannuation Board

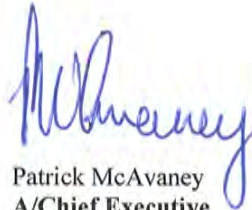

Certification of the financial statement

We certify that the:

- financial statements of the Board:
 - are in accordance with the accounts and records of the Board,
 - comply with relevant Treasurer's instructions,
 - comply with relevant accounting standards, and
 - present a true and fair view of the financial position of the Board at the end of the financial year and the result of its operations and cash flows for the financial year.
- internal controls employed by the Board for the financial year over its financial reporting and its preparation of financial statements have been effective.

To the Presiding Member South Australian Superannuation Board South Australian Superannuation Scheme

Opinion

I have audited the financial report of the South Australian Superannuation Scheme for the financial year ended 30 June 2023.

In my opinion, the accompanying financial report gives a true and fair view of the financial position of the South Australian Superannuation Scheme as at 30 June 2023, its financial performance and its cash flows for the year then ended in accordance with relevant Treasurer's Instructions issued under the provisions of the *Public Finance and Audit Act 1987* and Australian Accounting Standards.

The financial report comprises:

- a Statement of Financial Position as at 30 June 2023
- an Income Statement for the year ended 30 June 2023
- a Statement of Changes in Member Benefits for the year ended 30 June 2023
- a Statement of Changes in Equity for the year ended 30 June 2023
- a Statement of Cash Flows for the year ended 30 June 2023
- notes, comprising material accounting policies and other explanatory information
- a Certificate from the Presiding Member of the South Australian Superannuation Board, the Acting Chief Executive, State Superannuation Office and the Director, Finance, State Superannuation Office.

Basis for opinion

I conducted the audit in accordance with the *Public Finance and Audit Act 1987* and Australian Auditing Standards. My responsibilities under those standards are further described in the 'Auditor's responsibilities for the audit of the financial report' section of my report. I am independent of the South Australian Superannuation Scheme. The *Public Finance and Audit Act 1987* establishes the independence of the Auditor-General. In conducting the audit, the relevant ethical requirements of APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* have been met.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Responsibilities of the Acting Chief Executive, State Superannuation Office and the members of the South Australian Superannuation Board for the financial report

The Acting Chief Executive, State Superannuation Office is responsible for the preparation of the financial report that gives a true and fair view in accordance with relevant Treasurer's Instructions issued under the provisions of the *Public Finance and Audit Act 1987* and the Australian Accounting Standards and for such internal control as management determines is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the Acting Chief Executive, State Superannuation Office is responsible for assessing the South Australian Superannuation Scheme's ability to continue as a going concern, taking into account any policy or funding decisions the government has made which affect the continued existence of the entity. The Acting Chief Executive, State Superannuation Office is also responsible for disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the assessment indicates that it is not appropriate.

The members of the South Australian Superannuation Board are responsible for overseeing the entity's financial reporting process.

Auditor's responsibilities for the audit of the financial report

As required by section 31(1)(b) of the *Public Finance and Audit Act 1987* and section 20AB(2) of the *Superannuation Act 1998*, I have audited the financial report of the South Australian Superannuation Scheme for the financial year ended 30 June 2023.

My objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with Australian Auditing Standards, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

- identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the South Australian Superannuation Scheme's internal control
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Acting Chief Executive, State Superannuation Office
- conclude on the appropriateness of the Acting Chief Executive, State Superannuation Office's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify the opinion. My conclusion is based on the audit evidence obtained up to the date of the auditor's report. However, future events or conditions may cause an entity to cease to continue as a going concern
- evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

My report refers only to the financial report described above and does not provide assurance over the integrity of electronic publication by the entity on any website nor does it provide an opinion on other information which may have been hyperlinked to/from the report.

I communicate with Acting Chief Executive, State Superannuation Office and the members of the South Australian Superannuation Board about, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during the audit.

Daniel O'Donohue
Assistant Auditor-General (Financial Audit)

22 September 2023

South Australian Superannuation Scheme

Notes to the Financial Statements

1) Objectives and funding

a) *South Australian Superannuation Scheme*

The South Australian Superannuation Scheme (the Scheme) is a voluntary superannuation scheme which exists pursuant to the *Superannuation Act 1988* (the Act). It previously existed in different forms under various other legislation. The Act provides for superannuation benefits for persons employed by the South Australian Government and other prescribed persons and makes provisions for the families of such persons. It is not available to Members of Parliament, the judiciary or to police officers who are each provided for under separate legislation.

Contributors to the Scheme may be either old scheme contributors, who are entitled to a pension based benefit, or new scheme contributors who are entitled to a lump sum based benefit. The old scheme contributors segment of the Scheme was closed to new members in May 1986. The new scheme contributors segment of the scheme was closed to new members in May 1994.

Contributors make contributions from after tax salary based on a percentage of their salary, with the standard contribution rate being between 5 and 6 per cent. Contributors may elect to vary their contribution rate in accordance with section 23 of the Act. A contribution account is maintained for each contributor. If a member ceases to contribute they will be automatically covered by the Southern State Superannuation Scheme (Triple S), to meet the minimum requirements of the Commonwealth legislation. At this point the member will be recognised as a Triple S member and their Scheme account will be maintained to reflect the contribution points previously accrued.

Since October 1989, the Act has required that contributions be paid to the Treasurer, who in turn deposits those contributions into the South Australian Superannuation Fund (the Fund), which is managed and invested by the Superannuation Funds Management Corporation of South Australia (Funds SA).

The Act requires the Fund to be treated as being made up of two divisions, being the Old Scheme Division and the New Scheme Division. Each division consists of the contributions and the accretions arising from the investment of those contributions in respect of relevant old or new scheme contributors. Consistent with the accounts of the Fund, the accounts of the Scheme are also maintained in respect of each division.

The Scheme is an exempt public sector superannuation scheme and operates on a not-for-profit basis.

b) *South Australian Superannuation Board*

The Act charges the South Australian Superannuation Board (the Board), a body corporate, with responsibility for all aspects of the administration of the Act except for the management and investment of the Fund. The Act also provides the Board with the necessary powers to administer the Scheme. The Board has contracted the Department of Treasury and Finance (DTF) to provide administrative services in accordance with the Act. A portion of the administrative costs are recovered from the Scheme. The Board's financial report provides the total administration cost paid to DTF.

Under the Act, the Board is required to determine rates of return to be credited to each division of the Fund, with those rates being credited to each contribution account at the end of the financial year. In determining the rate to be applied, the Act requires that the Board have regard to the net rate of return achieved by Funds SA for each division of the Fund.

South Australian Superannuation Scheme

c) *Superannuation Funds Management Corporation of South Australia*

Funds SA is a South Australian Government Entity established under the *Superannuation Funds Management Corporation of South Australia Act 1995* (the Funds SA Act). Funds SA is responsible for the investment and management of the Scheme's funds pursuant to strategies formulated by Funds SA.

For further information on the investment of the Scheme's funds, reference should be made to the Fund and the South Australian Superannuation Scheme Contribution Account (the Account) in the annual report of Funds SA. The investment assets, liabilities, income and expense contained in this financial report are related to the investment activities of Funds SA.

d) *Funding Arrangements*

Under section 20B of the Act, any payment made to a contributor must be made out of the Consolidated Account or a Special Deposit Account held with DTF established for that purpose. The Treasurer may subsequently reimburse the Consolidated Account or the Special Deposit Account from the Fund the proportion of any such payment charged against the contributor's contribution account. The prescribed proportion of that payment or benefit payments to be charged to the old scheme contributor's accounts is determined by the Board in accordance with section 47C and 47D of the Act. During the year ended 30 June 2023 all payments were made from the Special Deposit Account. Employer contributions for the year have been made at the rate determined by the Scheme actuary.

The Treasurer may also seek reimbursement of the employer portion of any such payments from certain employer bodies under agreements made between the Treasurer and/or the Board and those employer bodies. The employer portion of benefits is met from the Account established by the Treasurer to record employer superannuation contributions. The employer portion of payments may be in relation to State Government Departments, Statutory Authorities and former State Government employees now employed by the Commonwealth Government. Employer contributions for these agencies were 26 per cent (2022: 26 per cent) for old scheme contributors and 14.75 per cent (2022: 14.75 per cent) for new scheme contributors.

Funding for the employer portion of payments met from the Special Deposit Account is from monies deposited under arrangements with respective employers. Monies deposited in the Account are invested and managed by Funds SA but do not form part of the Fund. The Treasurer seeks reimbursement from the Account balances as benefits are paid. The arrangements with employers are:

(i) State government departments

State government departments pay fortnightly employer contributions to the Treasurer for their emerging superannuation liabilities that are deposited by the Treasurer into the Account. Details on employer contributions from State Government Departments are detailed in Note 15.

Since 30 June 1994 the Government has commenced a process of funding its accrued past service superannuation liabilities. The amounts the Government transferred into the Account are at Note 14. Current Government policy is that it will continue to pay contributions to the Account to meet the accrued past service liability so the liability will be fully funded by 30 June 2034.

South Australian Superannuation Scheme

(ii) Statutory authorities

Where the employer proportion of a payment relates to Statutory Authorities, three different funding arrangements exist. These arrangements are made by the Board, which has entered into agreements with individual authorities pursuant to section 5 of the Act. The terms agreed in any such arrangements must be approved by the Treasurer. The three arrangements are:

State government liability for statutory authorities

These authorities have made arrangements with the Board to fund their emerging superannuation liabilities by making regular payments to the Treasurer based on an actuarial assessment. These monies are deposited in the Account. In addition, the Government has commenced a process of funding the past service superannuation liability for these authorities as outlined in Note 1(d)(i).

Employer contribution accounts

Certain public sector employers have made arrangements with the Board to fund their superannuation liabilities by making regular payments to the Treasurer based on an actuarial assessment performed every three years. The Treasurer deposits these monies in the Account into what are referred to as the Employer Contribution Accounts. The Treasurer seeks reimbursement from the Employer Contribution Account balances as benefits are paid.

Details on the contributions for past service liabilities are provided at Note 14.

Public authorities accounts (universities)

Some public authorities make provisions in their own accounts for their future superannuation liabilities and no balances are maintained in the Account. The Treasurer seeks reimbursement from the Account in the first instance and simultaneously seeks reimbursement directly from these authorities as benefits are paid.

The liability for future benefits is funded to the extent of benefits to be reimbursed from the Fund, the Account, and the Public Authorities Accounts referred to in Note 1(d)(ii) above. The liability for future benefits is only partially funded in respect of benefits to be reimbursed from State Government Departments and the State Government liability for Statutory Authorities. The net assets figure shown in this report represents the amount available to meet these future benefits.

South Australian Superannuation Scheme

2) Significant accounting policies

a) *Basis of accounting*

The financial statements have been prepared in accordance with relevant Australian Accounting Standards, including AASB 1056 Superannuation Entities and other authoritative pronouncements of the Australian Accounting Standards Board, Treasurer's Instructions and Accounting Policy Statements promulgated under the provision of the Public Finance and Audit Act 1987 (PFAA), except as provided below.

These financial statements have been prepared on the basis of fair value measurement of assets and liabilities, except where otherwise stated.

These financial statements are prepared on a 12-month reporting period, presented in Australian currency and all amounts have been rounded to the nearest thousand dollars (\$000).

The scheme is a not-for-profit entity for the purpose of preparing financial statements.

b) *New and amended accounting standards*

There are no standards, interpretations or amendments to existing standards that are effective for the first time for the financial year beginning 1 July 2022 that have a material impact on the amounts recognised in the prior or current periods or that will affect future periods.

Certain new accounting standards and interpretations have been published that are not mandatory for the 30 June 2023 financial year and have not been early adopted by the Scheme other than AASB 2021-2 which was adopted from 1 July 2021. These standards and interpretations are not expected to have a material impact on the Scheme.

Financial assets and liabilities

(a) **Classification**

The Scheme classifies its financial assets and financial liabilities into the categories below in accordance with AASB 9.

Financial assets and liabilities held for trading

These assets are acquired principally for the purpose of generating a profit from short-term fluctuation in price. All derivatives are classified as held for trading. Derivative financial instruments entered into by the Scheme, if any, do not meet the hedge accounting criteria as defined by AASB 9. Consequently hedge accounting is not applied by the Scheme.

Financial instruments designated at fair value through profit or loss upon initial recognition

These financial assets are designated on the basis that they are part of a group of financial assets which are managed and have their performance evaluated on a fair value basis in accordance with risk management and investment strategies of the Fund.

Other financial liabilities

This category includes all financial liabilities, other than those classified at fair value through profit or loss. Other financial liabilities are measured at their nominal amounts. Amounts are generally settled within 30 days of being recognised as other financial liabilities. Given the short-term nature of other financial liabilities, the nominal amount approximates fair value.

South Australian Superannuation Scheme

(b) Recognition

The Scheme recognises a financial asset or a financial liability when, and only when, it becomes a party to the contractual provisions of the instrument.

Purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the marketplace are recognised on the trade date, that is, the date that the Scheme commits to purchase or sell the asset.

(c) Initial recognition

Financial assets and financial liabilities at fair value through profit and loss are recorded in the statement of financial position at fair value. All transaction costs for such instruments are recognised directly in the income statement.

Receivables and financial liabilities (other than those classified at fair value through profit or loss) are measured initially at their fair value plus any directly attributable incremental costs of acquisition or issue.

For financial assets and liabilities where the fair value at initial recognition does not equal the transaction price, the Scheme recognises the difference in the income statement, unless specified otherwise.

(d) Subsequent measurement

After initial measurement, the Scheme measures investments at fair value through profit or loss. Subsequent changes in the fair value of those investments are recorded as 'changes in assets measured at fair value' through the income statement. Interest earned is recorded in 'Interest revenue'.

(e) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability, or
- in the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Scheme.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The Scheme uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy. Refer to financial statement Note 4.

(f) Cash and cash equivalents

Cash and cash equivalents in the statement of financial position comprise cash and deposits in the Scheme's Special Deposit Account held with DTF, which are subject to an insignificant risk of changes in value.

South Australian Superannuation Scheme

For the purposes of the statement of cash flows, cash and cash equivalents consist of cash and short term deposits as defined above.

(g) Receivables and payables

Receivables are carried at nominal amounts due that approximate fair value. Receivables are normally settled within 30 days. Payables are carried at nominal amounts that approximate fair value. They represent liabilities for goods and services provided to the Scheme prior to the end of the financial year that are unpaid when the Scheme becomes obliged to make future payments in respect of the purchase of these goods or services.

(h) Benefits payable

Benefits payable are valued at fair value and relate to members who have ceased employment and provided the Scheme with appropriate notification on or prior to 30 June 2023 but paid after 30 June 2023. These also include income protection payments payable on or prior to 30 June 2023 but paid after 30 June 2023.

(i) Revenue recognition

The specific recognition criteria described below must be met before revenue is recognised:

Changes in fair values

Changes in the fair value of investments invested with Funds SA are calculated as the difference between the fair value at sale, or at balance date, and the fair value at the previous valuation point. All changes are recognised in the income statement.

Interest

Interest revenue on cash and other financial assets carried at fair value is recorded according to the terms of the contract and recognised in the income statement.

(j) Taxation

The Scheme is a constitutionally protected superannuation fund in terms of Section 295-15 of the *Income Tax Assessment Act 1997*, Regulation 995-1.04 (Schedule 4) and is exempt from income tax. Therefore, no income tax has been brought to account in these financial statements.

(k) Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except:

- when the GST incurred on a sale or purchase of assets or services is not payable to or recoverable from the Australian Taxation Office (ATO), in which case the GST is recognised as part of the revenue or the expense item or as part of the cost of acquisition of the asset, as applicable, or
- when receivables and payables are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the ATO is included as part of receivables or payables in the statement of financial position. Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the ATO.

Cash flows are included in the statement of cash flows on a gross basis. The GST component of cash flows arising from investing activities, which is recoverable from, or payable to the ATO are classified as operating cash flows.

South Australian Superannuation Scheme

(l) Foreign currency

The functional and presentation currency of the Scheme is Australian Dollars, the currency of the primary economic environment in which the Scheme operates. The Scheme's performance is evaluated and its liquidity managed in Australian Dollars. Therefore, the Australian Dollar is considered as the currency that most faithfully represents the economic effects of the underlying transactions, events and conditions.

(m) Investments

Funds SA provides investments measured at fair value. Below is the basis for valuation of these investments.

(i) Inflation Linked Securities Tax-Exempt

The Inflation Linked Securities Tax-Exempt portfolio invests in discretely managed portfolios and internal inflation linked securities. Discretely managed portfolios are invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at balance date.

Internally managed inflation linked securities, the returns of which are linked to movements in either the Consumer Price Index or Average Weekly Earnings, have been valued using the discounted cash flow method. The valuation as at balance date was performed by an independent valuer.

(ii) Property Tax-Exempt

The Property Tax-Exempt portfolio comprises two sub sectors:

Listed Property Trusts

These investments comprise arrangements whereby professional fund managers are appointed under an investment management agreement to manage and invest in listed property securities and real estate investment trusts. Investments in this sub-sector are in pooled funds and have been valued in accordance with the valuations supplied by the managers.

Unlisted property vehicles

The unlisted property vehicles portfolio is invested and managed by external managers. Investments in this sub-sector have been valued in accordance with the valuations supplied by the managers.

(iii) Australian Equities Tax-Exempt

The Australian Equities Tax-Exempt portfolio comprises investments in listed Australian equities, and is invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at balance date.

South Australian Superannuation Scheme

(iv) International Equities Tax-Exempt

The International Equities Tax-Exempt portfolio comprises investments in equities listed on international share markets, and is invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at balance date. Investments in pooled international vehicles have been valued in accordance with the valuations supplied by the managers. Currency conversions have been made at the spot market mid rates applicable at balance date where applicable.

(v) Fixed Interest

Fixed Interest portfolios have exposure to domestic and global debt instruments and is managed by external managers. The custodian appointed to hold the assets has valued the portfolio using market prices applicable at balance date.

(vi) Diversified Strategies Growth Tax-Exempt

The Diversified Strategies Growth Tax-Exempt asset class incorporates two sub sectors:

Private Markets Tax-Exempt

The Private Markets Tax-Exempt portfolio comprises investments in Australian and international private equity funds, which are invested and managed by external managers. The valuation of private equity investments is based on the most recent valuation performed by the fund managers plus or minus cash flows between the last valuation date and the reporting date. Both Australian and international private equity valuations are generally in accordance with the International Private Equity and Venture Capital Valuation Guidelines Investments and the pooled funds have been valued in accordance with the valuations supplied by the managers. Currency conversions have been made at the spot market mid-rates applicable at balance date where applicable.

Core Infrastructure Tax-Exempt

The Core Infrastructure Tax-Exempt portfolio comprises investments in Australian and international infrastructure pooled funds, which are invested and managed by external managers. The valuation of these investments is based on the most recent valuation performed by the fund managers plus or minus cash flows between the last valuation date and the reporting date. Investments in the pooled funds have been valued in accordance with the valuations supplied by the managers. Currency conversions have been made at the spot market mid-rates applicable at balance date where applicable.

(vii) Diversified Strategies Income

The Diversified Strategies Income asset class incorporates three sub sectors:

Defensive Alternatives

The Defensive Alternatives portfolio comprises investments in Australian and international pooled funds and is invested and managed by external managers. Investments in the pooled funds have been valued in accordance with the valuations supplied by the managers. Currency conversions have been made at the spot market mid-rates applicable at balance date where applicable.

South Australian Superannuation Scheme

Credit

The Credit portfolio comprises investments in discretely managed investments and Australian and international pooled funds and is invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at the balance date. Investments in the pooled funds have been valued in accordance with the valuations supplied by the managers. Currency conversions have been made at the spot market mid-rates applicable at balance date where applicable.

Growth Alternatives

The Growth Alternatives portfolio comprises investments in discretely managed investments and Australian and international pooled funds and is invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at the balance date. Investments in the pooled funds have been valued in accordance with the valuations supplied by the managers. Currency conversions have been made at the spot market mid-rates applicable at balance date where applicable.

(viii) Cash

The Cash portfolio comprises investments in a discretely managed investment which is managed by an external manager and is valued by the custodian appointed to hold the assets using market prices applicable at balance date. Deposits at call have been valued on the basis of principal plus accrued interest.

(ix) Socially Responsible

The Socially Responsible portfolio actively incorporates the consideration of environmental, social and governance factors in their investment decisions and avoids investing in companies operating in areas of high negative social impact. The portfolio comprises investments in equities listed on Australian and international share markets and is invested and managed by external managers along with a number of international and domestic pooled fund investments.

Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at balance date. Investments in pooled vehicles have been valued in accordance with the valuations supplied by the managers. Currency conversions have been made at the spot market mid rates applicable at balance date where applicable.

(n) Operation of investment portfolio

Funds SA is responsible for the investment and management of the Fund pursuant to strategies formulated by Funds SA (refer Note 1 (c)). Funds SA operates a multi layered notional unitisation structure to facilitate the administration of different investment strategies applying to the various public sector superannuation funds. For the year ending 30 June 2023, Funds SA managed seven (2022: seven) distinct investment options for the Scheme which were available to investors, each differing by strategic asset allocation:

- High Growth
- Balanced
- Moderate
- Stable (previously known as Conservative)
- Capital Defensive
- Cash
- Socially Responsible

South Australian Superannuation Scheme

During the financial year all of the above investment options were available to members for assets invested in the South Australian Superannuation Fund Account (New Scheme Division). The assets of the South Australian Superannuation Fund Account (Old Scheme Division) and the South Australian Superannuation Scheme Contribution Account are invested in the Defined Benefit (DB) High Growth Strategy.

Reference should be made to Funds SA's Annual Report for the strategic asset allocations applying to each of the investment options discussed in the preceding paragraphs.

(o) Member liabilities

Member liabilities are measured at the amount of accrued benefits.

Defined benefit member liabilities are measured as the amount of a portfolio of investments that would be needed, as at the reporting date, to yield future net cash inflows that would be sufficient to meet accrued benefits as at that date when they are expected to fall due.

Defined contribution member liabilities are measured as the amount of member account balances as at the reporting date.

(p) Significant accounting judgements, estimates and assumptions

The preparation of the Scheme's financial statements requires management to make judgments, estimates and assumptions that affect the amounts recognised in the financial statements. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future.

The significant accounting policies have been consistently applied in the current financial year and the comparative period, unless otherwise stated. Where necessary, comparative information has been presented to be consistent with current period disclosures.

Fair value of investments

When the fair values of the investments recorded in the statement of financial position cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including a discounted cash flow model. The inputs in these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required to establish fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility.

Changes in assumptions about these factors could affect the reported fair value of these investments.

It is also important to note that fair values are accepted directly from Funds SA.

Valuation of defined benefits member liabilities

The amount of member liabilities in relation to defined benefits has been determined using actuarial valuation techniques and assumptions. An actuarial valuation involves making various assumptions about the future. Actual developments in the future may differ from these assumptions. The assumptions include member turnover, future investment returns, pension indexation rates, mortality rates and future salary increases. Due to the complexities involved in the valuation and its long term nature, defined benefit member liabilities are highly sensitive to changes in these assumptions. Assumptions are reviewed at each reporting date.

South Australian Superannuation Scheme

In determining the appropriate discount rate, the actuary considers an investment portfolio that reflects the opportunities reasonably available to the Scheme in the investment markets, and also reflects the Scheme's actual investments and investment strategy in respect of defined benefit member liabilities.

The mortality assumption is based on publicly available mortality tables. Future salary increases are based on the Wage Price Index produced by the Australian Bureau of Statistics and in consultation with the employer-sponsors.

(q) Climate change financial risks

In November 2021, Australian Prudential Regulation Authority (APRA) released Prudential Practice Guide CPG 229 Climate Change Financial Risks. CPG 229 does not impose new requirements in relation to climate risks, rather, it supports compliance with APRA's existing risk management and governance requirements and guidance. The Board and Super SA consider financial risks of climate change, including physical climate risks, transition climate risks, and liability risks as part of the overall Super SA Risk Management Strategy.

Additionally, as identified in Note 1 above, the investments of the Scheme are managed by Funds SA. Funds SA, in turn, is committed to risk management and maintains a rigorous and proactive approach to identifying and managing investment risk, including the risks associated with climate change. Funds SA has developed a Climate Change Position Statement and Climate Risk Response Plan to support its approach in this area. Please refer to the Funds SA website for further detail.

3) Defined contribution member liabilities

The employee funded, defined contribution component for new scheme contributors has an accrued liability that is the balance of the employees' contribution accounts as at the end of the financial year. These accounts are valued using unit prices that are determined by the underlying investment movements.

Defined contribution members bear the investment risk relating to the underlying assets and unit prices used to measure the member liabilities. Unit prices are updated twice weekly.

Refer to Note 17 for the Scheme's management of the investment risks.

4) Defined benefit member liabilities

The present value of the accrued defined benefit members' liabilities and the employer funded defined benefit component of the liabilities in respect of new scheme contributors has been determined by Ms E Conway, FIAA of Mercer Consulting (Australia) Pty Ltd in the South Australia Superannuation Scheme – AASB 1056 Liability at 30 June 2023 final report dated 25 August 2023.

The actuarial valuation of member liabilities reflects the actuarial assessment of the benefits accrued up to the reporting date and payable to members on retirement, resignation, death and disability. For the old scheme contributors and the employer funded defined benefit component in respect of new scheme contributors, the accrued liabilities are the present values of expected future benefit payments arising from membership of the Scheme up to 30 June 2023.

South Australian Superannuation Scheme

The expected future benefit payments have been determined using the 2022 triennial review assumptions relating to mortality, disability, withdrawal, preservation and retirement. The actuarial valuation of member liabilities of the South Australian Superannuation Scheme is undertaken annually, as at the end of each financial year. The key assumptions used to determine the values of accrued benefits were:

- The future rate of investment earnings (net of investment taxes and fees): 7.0 per cent per annum (2022: 6.5 per cent),
- The future rate of salary growth:
 - non teachers: first two years: 2.0 per cent per annum; long term salary increase 4.0 per cent per annum (2022: 2.5 per cent)
 - teachers: 4.0 per cent per annum, and
- Inflation (CPI):
 - first year: 4.0 per cent
 - long term: 2.5 per cent per annum (2022: long term: 2.0 per cent per annum).

The defined benefit members' liabilities have changed in the current financial year as a result of salary increases and additional year service accrual. Note, the defined contribution values are included in the tables below for comparison.

	2023			2022		
	Defined Benefit \$000	Defined Contribution \$000	Total \$000	Defined Benefit \$000	Defined Contribution \$000	Total \$000
Member liabilities	8 407 140	459 505	8 866 645	8 306 884	495 039	8 801 923
	2023			2022		
	Old Scheme \$000	New Scheme \$000	Total \$000	Old Scheme \$000	New Scheme \$000	Total \$000
SA Superannuation Fund	1 164 805	459 505	1 624 310	1 151 936	495 039	1 646 975
SA Superannuation Scheme contribution accounts:						
Employer contribution accounts	1 144 172	222 742	1 366 914	1 118 915	250 120	1 369 035
SA Government employer account	5 193 806	421 114	5 614 920	5 061 000	467 713	5 528 713
Public authorities	256 968	3 533	260 501	253 086	4 114	257 200
	7 759 751	1 106 894	8 866 645	7 584 937	1 216 986	8 801 923

The Board has a number of steps in place to manage the risks associated with the defined benefits. The Board has appointed external consulting actuaries to advise on the risks, including establishing suitable funding objectives.

The Board also uses sensitivity analysis to monitor the potential impact of changes to key variables about which assumptions need to be made. The Scheme has identified four assumptions (being the discount rate, the rate of salary adjustment, pension indexation rates and mortality rates) for which changes are reasonably possible that would have a material impact on the amount of the defined benefit member liabilities.

South Australian Superannuation Scheme

The assumed discount rate has been determined by reference to the investment returns expected on an investment portfolio that reflects the opportunities reasonably available to the Scheme in the investment markets, and also reflects the Scheme's actual investments and investment strategy in respect of defined benefit member liabilities.

The other variable about which assumptions have been made in measuring defined benefit member liabilities and for which changes are not considered reasonably possible, or for which reasonably possible changes would not be expected to have a material effect, are resignations. The following table outlines the defined benefit liability sensitivity estimates provided by the scheme actuary on the discount rate, salary increase rate, pension indexation rate and mortality rate.

Scenario	Member liability result ^(a) \$M	Change in member benefit liability \$M	Change in member benefit liability %
Base Case	8 407	-	-
Discount rate plus 0.5%	8 101	(305)	(3.6)
Discount rate less 0.5%	8 734	327	3.9
Salary increase rate plus 0.5%	8 417	10	0.1
Salary increase rate less 0.5%	8 397	(10)	(0.1)
Pension increase rate plus 0.5%	8 718	311	3.7
Pension increase rate less 0.5%	8 114	(292)	(3.5)
Mortality rate plus 10%	8 208	(198)	(2.4)
Mortality rate less 10%	8 624	217	2.6

a) Excludes Lump Sum Scheme accumulation liabilities

The SA Government is responsible for funding the SA Government Employer Account and part of the Employer Contribution Accounts. The remaining liability includes the members fund, commercial entities and the Commonwealth Government share of the universities.

Vested benefits

Vested benefits are only available by the Old Scheme/New Scheme disaggregation. Vested benefits are benefits that are not conditional upon continued membership of the Scheme, or any factor other than resignation from the Scheme. Vested Benefits include benefits which members are entitled to receive had they terminated their membership as at the reporting date.

	2023			2022

Temporary disability	114	90
Funds SA receivable	3 970	-
	9 203	4 245

7) Fair value of financial instruments

Classification of financial Instruments under the fair value hierarchy

AASB 13 requires disclosures relating to fair value measurements using a three-level fair value hierarchy. The level within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement. Assessing the significance of a particular input requires judgement, considering factors specific to the asset or liability. The following table shows financial instruments recognised at fair value, categorised between those whose fair value is based on:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

Valuations are the responsibility of the Board. The valuation of investments is performed daily and are subject to quality assurance procedures.

After the checks above have been performed the Board considers the valuation results, including assumptions used in the valuations.

The Board also considers the appropriateness of the valuation methods and inputs and may request that alternative valuation methods are applied to support the valuation arising from the method chosen.

South Australian Superannuation Scheme

Valuation technique

The Scheme's investments are not quoted in an active market. To ensure fair value can be determined, the Scheme's investment manager, Funds SA, applies due diligence and considers valuation techniques and inputs used in valuing the funds, prior to investing. In measuring fair value, consideration is given to the amounts for which financial assets can be sold, excluding transaction costs. The Scheme classifies these funds as Level 2.

There were no changes in valuation techniques during the year.

	2023	2022
	\$000	\$000
Financial assets at fair value through profit or loss – Level 2		
Level 1 and level 3 are not relevant to the Scheme		
Unlisted managed investment schemes	4 594 672	4 712 875
Funds SA	4 594 672	4 712 875

8) Value and movement of investments by investment option

	2023	Movement	2022
	\$000	\$000	\$000
High Growth Tax-Exempt	2 163	1 478	685
Balanced Tax-Exempt	411 415	(18 116)	429 531
Moderate Tax-Exempt	18 583	(136)	18 719
Stable (previously known as Conservative Tax-Exempt)	17 994	(134)	18 128
Capital Defensive Tax-Exempt	9 383	(908)	10 291
Cash Tax-Exempt	9 474	(891)	10 365
Socially Responsible	1 599	5	1 594
DB High Growth Strategy	4 124 061	(99 501)	4 223 562
Investments at 30 June	4 594 672	(118 203)	4 712 875

9) Payables

	2023	2022
	\$000	\$000
Audit fees	85	84
Administration expenses	1 395	-
PAYG tax withheld	2 547	
Prepaid Member Contributions	-	25
Returned benefit payments	-	11
	4 027	120

10) Investment expenses

	2023	2022
	\$000	\$000
Investment expenses	17 445	19 088

Direct Investment expenses comprise fees paid to Funds SA. Funds SA advises the amount applicable to the Scheme based on the Scheme's funds under management.

South Australian Superannuation Scheme

11) Administration expenses

	2023	2022
	\$000	\$000
Administration expenses ⁽ⁱ⁾	8 071	7 911
Other expenses ⁽ⁱⁱ⁾	115	204
	8 186	8 115

⁽ⁱ⁾ Administration expenses comprises the costs incurred by the DTF in administering the Scheme, which are met in the first instance from the DTF Operating Account. The Board recovers a share of the administration cost from the Scheme.

⁽ⁱⁱ⁾ Other expenses include Auditors' remuneration. Refer Note 12.

12) Auditors' remuneration

	2023	2022
	\$000	\$000
Audit fees paid or payable	82	80

Audit fees paid (or payable), \$81 800 GST exclusive (2022: \$79 900), relate to the Auditor-General's Department work performed under the PFAA. The Auditor General's Department uses the services of Ernst and Young for the audit. No other services were provided by the Auditor-General's Department.

13) Higher education superannuation costs

	2023	2022
	\$000	\$000
Higher education superannuation costs	9 139	9 136

These amounts are paid to the Commonwealth Government that related to the South Australian share of the 2023 higher education superannuation costs under the Commonwealth – State agreement. This agreement provides that the employer component of the superannuation benefits payable to former employees of South Australian universities who were members of one of the main State Schemes, be shared.

14) Contributions for past service liability

	2023	2022
	\$000	\$000
SA Government	359 968	368 988
SA Water	1	2 030
Forestry SA	-	(171)
	359 969	370 847

15) Employer contributions

	2023	2022
	\$000	\$000
State government departments	13 405	16 023
Statutory authorities – state government entities	5 441	6 798
Statutory authorities – non-state government entities	544	293
	19 390	23 114

South Australian Superannuation Scheme

16) Reconciliation of cash and cash equivalents

For the purpose of the Statement of Cash Flows, cash and cash equivalents includes cash and deposits in the Scheme's Special Deposit Account held with DTF. Cash flows are included in the Statement of Cash Flows on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the ATO is classified as part of operating cash flows. Cash at the end of the reporting period as shown in the Statement of Cash Flows is reconciled to the related item in the Statement of Financial Position as follows:

	2022 \$000	2021 \$000
Cash and cash equivalents	14 565	11 366
Reconciliation of net cash from operating activities		
Net operating result	(180 308)	(599 736)
Adjustments for:		
Change in investments measured at fair value	(387 468)	83 180
Investment expenses	17 445	19 088
(Increase) in receivables	161	82
Increase in payables	1 361	(2 239)
Allocation to members' accounts	533 412	480 217
Net cash flows from operating activities	(15 397)	(19 408)

17) Financial risk management objectives and policies

The Scheme's investments are managed by Funds SA predominantly by the appointment of investment managers as determined by the Funds SA Board. Each investment manager is required to invest the assets in accordance with the terms of a written mandate. The Funds SA Board has determined that the appointment of these managers is appropriate for the Scheme and is in accordance with the Scheme's investment strategy. The Funds SA Board obtains regular reports from each manager on the nature of the investments made on its behalf and the associated risks.

The allocation of assets between the various types of financial instruments is determined by the Funds SA Board. Divergence from target asset allocations and the composition of the portfolio is monitored by the Funds SA Board on a regular basis.

The Scheme's investing activities expose it to the following risks from its use of financial instruments:

- market risk
- credit risk
- liquidity risk

The nature and extent of the financial instruments employed by the Scheme are discussed below. This note presents information about the Scheme's exposure to each of the above risks, the Scheme's objectives, policies and processes for measuring and managing risk.

The Funds SA Board has overall responsibility for the establishment and oversight of the Scheme's investment risk management framework.

The Scheme's investment risk management policies are established to identify and analyse the risks faced by the Scheme, including those risks managed by the Scheme's investment managers, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Scheme's activities.

South Australian Superannuation Scheme

The Scheme receives regular reports from Funds SA concerning compliance with investment objectives.

(a) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Scheme's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return on risk.

Funds SA manages the risk of financial market volatility through the adherence to two principles:

- ensuring a diversity of exposures to different financial markets and sub-markets, and
- ensuring asset allocations for different investment options are consistent with the time horizon of each.

i) Currency risk

Currency risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of a change in foreign exchange rates.

The Scheme's currency risk is managed by Funds SA as investments include assets denominated in foreign currencies.

Funds SA strategic policy for the management of its foreign currency exposure is as follows:

- foreign currency exposures in the Private Markets Tax-Exempt, Private Markets Taxable, Core Infrastructure Tax- Exempt, Core Infrastructure Taxable, Credit, Long Term Fixed Interest and Inflation Linked Securities Taxable asset classes are economically hedged to Australian dollars, and
- foreign currency exposures over the developed markets component of the International Equities Tax-Exempt, International Equities Taxable, International Equities Passive Tax-Exempt and International Equities Passive Taxable asset classes are economically hedged to Australian dollars.

For the purpose of managing foreign currency risk, within defined constraints, the exposure to foreign currency can be varied from the strategic policy stated above, by Funds SA.

ii) Interest rate risk

Interest rate risk is the risk that a movement in interest rates will cause the value of fixed interest securities to deviate from expectations.

The Scheme's interest rate risk is managed by Funds SA, as investments include fixed interest securities.

Funds SA manages interest rate risk through:

- ensuring asset allocations of different investment products are consistent with the time horizon of each, and
- the use of specialist external investment managers to manage Funds SA's cash and fixed income portfolios.

iii) Other market price risk

Other market price risk is the risk that the value of the instrument will fluctuate as a result of changes in market prices, whether caused by factors specific to an individual investment, its issuer, or factors affecting all instruments traded in the market.

South Australian Superannuation Scheme

As the Scheme's financial instruments are valued at fair value with changes in fair value recognised in the Income Statement, all changes in market conditions will directly affect investment revenue.

The Scheme's other market price risk is managed by Funds SA, as investments include financial instruments exposed to market prices.

Funds SA manages the risk of financial market volatility through the adherence to two principles:

- ensuring a diversity of exposures to different financial markets and sub markets, and
- ensuring asset allocations for different investment options are consistent with the time horizon of each.

iv) Investments sensitivity analysis

The Funds SA Board has determined that its forecast risk/return profile provides a reasonable measure of the sensitivity of the expected returns in the investment for the year ahead. The following tables show the standard deviation around expected nominal returns for DB High Growth Strategy.

The statistics shown below are averages calculated over 10 years, net of investment management fees and gross of tax. These investment statistics have zero per cent tax rate applied and exclude franking credits.

	Expected Average Return	Market Risk	Average Funds Under Management	Potential impact of market risk (+/-) on Income Statement
	%	%	\$000	\$000
2023				
Investment Option				
High Growth Tax-Exempt	8.2	10.7	1 424	152
Balanced Tax-Exempt	7.6	9.0	420 473	37 843
Moderate Tax-Exempt	6.9	6.8	18 651	1 268
Stable Tax-Exempt ⁽ⁱ⁾	6.4	4.8	18 061	867

(i) Stable was previously known as the Conservative option.

South Australian Superannuation Scheme

Market risk is a useful historical measure of the variability of returns earned by an investment portfolio. The market risk shown above represents the range at which actual future returns are expected to occur either side of the nominal return approximately two thirds of the time.

The dollar value of the potential impact on the Income Statement arising from the market risk is indicative only. The impacts are not additive across investment asset classes, as each asset class operates in different markets and is subject to different conditions.

Actual movements in returns may be greater or less than anticipated due to a number of factors, including unusually large market shocks resulting from changes in the performance of the economies, markets and securities in which the underlying trusts invest. As a result, historic variations in rates of return are not a definitive indicator of future variations in rates of return.

(b) Credit risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Scheme.

The value of financial assets, included in the Statement of Financial Position represents the Scheme's maximum exposure to credit risk in relation to those assets. The Scheme does not have any significant exposure to any individual counterparty or industry. The credit risk is monitored by Funds SA through ongoing reviews of the investment managers.

The Scheme does not have any assets which are past due or impaired and there is no concentration of credit risk.

(c) Liquidity risk

Liquidity risk is the risk that the Scheme will not be able to meet its financial obligations as they fall due. The Scheme's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its payment of benefits to members and liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Scheme's reputation.

For the Scheme's investments, Funds SA manages liquidity risk as follows:

- by giving careful consideration to the expected net cash redemption requirements of Funds SA's clients. The allocation to cash in the strategic asset allocation of each investment product is set at a level sufficient to manage expected cash redemptions,
- a large proportion of each investment product is invested in highly liquid investments such as actively traded equities, unit trusts or securities with short-term maturities,
- reporting and monitoring the liquidity of the fund on a daily basis to ensure prospective client cash outflows and switches can be met,
- by undertaking portfolio management and rebalancing activities, and
- by undertaking regular stress testing on liquidity positions to identify sources of liquidity strain before they are realised.

For the Scheme itself, the liquidity position is monitored on a daily basis. The Scheme's cash and liquidity policy is to have sufficient cash balances to meet anticipated weekly benefit payments, expenses and investing activities.

South Australian Superannuation Scheme

The following tables summarise the contractual maturity profile of the Scheme's financial liabilities based on the earliest date on which the Scheme can be required to pay. The amounts in the table are the contractual undiscounted cash flows.

	Less than 3 Months \$000	Total Contractual Cash Flows \$000%	Carrying Amount Liabilities \$000
2023			
Benefits payable	9 629	9 629	9 629
Payables ⁽ⁱ⁾	2 547	2 547	2 547
Vested benefits ⁽ⁱⁱ⁾	8 946 029	8 946 029	8 946 029
Total	8 958 205	8 958 205	8 958 205
2022			
Benefits payable	7 838	7 838	7 838
Payables ⁽ⁱ⁾	36	36	36
Vested benefits ⁽ⁱⁱ⁾	8 908 623	8 908 623	8 908 623
Total	8 916 497	8 916 497	8 916 497

⁽ⁱ⁾ Payable amounts disclosed here exclude amounts relating to constructive obligations and statutory payables (e.g. Commonwealth, State and Local Government taxes, fees and charges; Auditor-General's Department audit fees).

⁽ⁱⁱ⁾ Vested benefits have been included in the "Less than 3 Months" column, as this is the amount that members could call upon as at balance date. This is the earliest date on which the Scheme can be required to pay members vested benefits, however, members may not necessarily call upon amounts vested to them during this time.

(a) Derivative financial instruments

Derivatives can be defined as financial contracts whose value depends on, or is derived from, assets, liabilities, reference rates or indices. Funds SA uses derivatives to manage portfolio risk and to facilitate the implementation of investment strategies efficiently and cost effectively. Funds SA uses a variety of derivative instruments, such as over the counter swap agreements, forward rate agreements, futures and options.

Derivatives are an authorised investment within certain mandates managed by Funds SA's external investment managers for the purposes described above.

South Australian Superannuation Scheme

18) Net assets available for member benefits

AASB 1056 recommends segregation to distinguish between different member accounts based on risk profile. The defined benefit/defined contribution split is a natural disaggregation arising from the different market risk exposures of these member categories. An alternative disaggregation is the segregation into Old Scheme (Pension Scheme) and New Scheme (Lump Sum). The following net assets table shows the splits across these latter accounts and demonstrates net assets available to pay benefits consisting of the combined balances of the Fund and the Account. Movements in the balances of these accounts are detailed below:

	2023			2022		
	Old Scheme	New	Total	Old	New	Total

South Australian Superannuation Scheme

19) Segment information

The Scheme operates in one reportable segment, being the provision of benefits to members. The Scheme also operates from one reportable geographic segment, being Australia, from where its activities are managed. While the Scheme operates from Australia only, the Scheme, through its investment manager Funds SA, has investment exposures in different countries and across different industries. Revenue derived from interest and the realised and unrealised changes from the different segments is reflected in the value of investments.

20) Related parties

a) Key management personnel

The key management personnel of the Scheme includes the Treasurer, Board members, the Chief Executive and the six members of the Executive Leadership Team, State Superannuation Office who have responsibility for the strategic direction and management of the Scheme.

b) Compensation

All key management personnel are compensated by the Department of Treasury and Finance or the Board, therefore their compensation is disclosed in the respective financial reports.

c) Transactions with key management personnel and other related parties

There were no transactions requiring disclosure for key management personnel or related parties.

d) Transactions with other government entities

There were no significant transactions with government entities other than those disclosed elsewhere in the financial statements.

21) Events after the reporting period

There were no significant events after the reporting period.

South Australian Superannuation Scheme

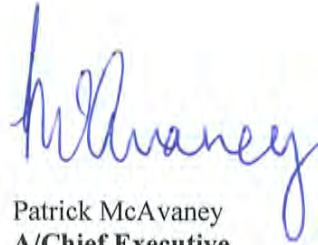

Certification of the financial statement

We certify that the:

- financial statements of the South Australian Superannuation Scheme:
 - are in accordance with the accounts and records of the Scheme,
 - comply with relevant Treasurer's instructions,
 - comply with relevant accounting standards, and
 - present a true and fair view of the financial position of the Scheme at the end of the financial year and the result of its operations and cash flows for the financial year.
- internal controls employed by the Scheme for the financial year over its financial reporting and its preparation of the financial statements have been effective.

To the Presiding Member South Australian Superannuation Board Southern State Superannuation Scheme

Opinion

I have audited the financial report of the Southern State Superannuation Scheme for the financial year ended 30 June 2023.

In my opinion, the accompanying financial report gives a true and fair view of the financial position of the Southern State Superannuation Scheme as at 30 June 2023, its financial performance and its cash flows for the year then ended in accordance with relevant Treasurer's Instructions issued under the provisions of the *Public Finance and Audit Act 1987* and Australian Accounting Standards.

The financial report comprises:

- a Statement of Financial Position as at 30 June 2023
- an Income Statement for the year ended 30 June 2023
- a Statement of Changes in Member Benefits for the year ended 30 June 2023
- a Statement of Changes in Equity for the year ended 30 June 2023
- a Statement of Cash Flows for the year ended 30 June 2023
- notes, comprising material accounting policies and other explanatory information
- a Certificate from the Presiding Member of the South Australian Superannuation Board, the Acting Chief Executive, State Superannuation Office, and the Director, Finance, State Superannuation Office.

Basis for opinion

I conducted the audit in accordance with the *Public Finance and Audit Act 1987* and Australian Auditing Standards. My responsibilities under those standards are further described in the 'Auditor's responsibilities for the audit of the financial report' section of my report. I am independent of the Southern State Superannuation Scheme. The *Public Finance and Audit Act 1987* establishes the independence of the Auditor-General. In conducting the audit, the relevant ethical requirements of APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* have been met.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Responsibilities of the Acting Chief Executive, State Superannuation Office and members of the South Australian Superannuation Board for the financial report

The Acting Chief Executive, State Superannuation Office is responsible for the preparation of the financial report that gives a true and fair view in accordance with relevant Treasurer's Instructions issued under the provisions of the *Public Finance and Audit Act 1987* and the Australian Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the Acting Chief Executive, State Superannuation Office is responsible for assessing the Southern State Superannuation Scheme's ability to continue as a going concern, taking into account any policy or funding decisions the government has made which affect the continued existence of the entity. The Acting Chief Executive, State Superannuation Office is also responsible for disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the assessment indicates that it is not appropriate.

The members of the South Australian Superannuation Board are responsible for overseeing the entity's financial reporting process.

Auditor's responsibilities for the audit of the financial report

As required by section 31(1)(b) of the *Public Finance and Audit Act 1987* section 15(3) of the *Southern State Superannuation Act 2009* I have audited the financial report of the Southern State Superannuation Scheme for the financial year ended 30 June 2023.

My objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with Australian Auditing Standards, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

- identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control

- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Southern State Superannuation Scheme's internal control
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Acting Chief Executive, State Superannuation Office
- conclude on the appropriateness of the Acting Chief Executive, State Superannuation Office's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify the opinion. My conclusion is based on the audit evidence obtained up to the date of the auditor's report. However, future events or conditions may cause an entity to cease to continue as a going concern
- evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

My report refers only to the financial report described above and does not provide assurance over the integrity of electronic publication by the entity on any website nor does it provide an opinion on other information which may have been hyperlinked to/from the report.

I communicate with Acting Chief Executive, State Superannuation Office and members of the South Australian Superannuation Board about, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during the audit.

Daniel O'Donohue
Assistant Auditor-General (Financial Audit)

Southern State Superannuation Scheme

Notes to the Financial Statements

1) Objectives and funding

a) *Southern State Superannuation Scheme*

The Southern State Superannuation Scheme (the Scheme/the Triple S Scheme) is both a contributory and non contributory superannuation scheme established pursuant to the *Southern State Superannuation Act 2009* (the Act). The Scheme commenced on 1 July 1995 pursuant to the *Southern State Superannuation Act 1994* and is continued under the Act and the *Southern State Superannuation Regulations 2009*.

Members can elect to make contributions to the Scheme based on a percentage of their salary commencing from 1 per cent, under Regulation 17. A member of the police force, an operations employee of the South Australian Ambulance Service who commenced employment after 1 July 2008 or a former standard contributory member of the SA Ambulance Service Superannuation Scheme who elected to transfer to the Triple S Scheme must contribute at a rate of at least 4.5 per cent of salary. A separate contribution account is maintained for each member. Member and employer contributions and any rollover amounts and co contribution amounts are deposited by the Treasurer into the Southern State Superannuation Fund (the Fund) that is managed and invested by the Superannuation Funds Management Corporation of South Australia (Funds SA).

An employer is required to pay contributions to the Treasurer under section 21 of the Act. The employer contributes 10.5 per cent of salary from 1 July 2022 and 11 per cent of salary from 1 July 2023.

Benefits are represented by the balances of all member accounts that are available for employees who meet certain conditions. These conditions may include the following:

- Retirement
- Resignation and meet a condition of release
- Retrenchment
- Election of Transition to Retirement or Early Access to Super while still an employee of the SA Public Sector
- Death or becoming terminally ill
- Termination of their employment due to invalidity.

The balance of individual member entitlements is provided in annual statements provided to each member.

The Scheme is an exempt public sector superannuation scheme and operates on a not-for-profit basis.

b) *South Australian Superannuation Board*

The purpose of this financial statement is to discharge the responsibilities of the South Australian Superannuation Board (the Board) under section 15 of the Act to maintain accounts of receipts and payments.

The Act charges the Board with responsibility for all aspects of the administration of the Act except for the management and investment of the Fund. The Act also provides the Board with the necessary powers to administer the Scheme.

Southern State Superannuation Scheme

The Board is required under section 13 of the Act to adjust a member's contribution account, rollover account and co contribution account to reflect movements in the value of units allocated to each account.

Pursuant to section 14 of the Act, where a member or members have nominated a class of investments, or a combination of classes of investments, the Board shall adjust a member's contribution account, rollover account and co contribution account to reflect the movement in the value of units held in the class of investments nominated by the member.

c) *Superannuation Funds Management Corporation of South Australia*

Funds SA is a South Australian Government Entity established under the *Superannuation Funds Management Corporation of South Australia Act 1995*. Funds SA is responsible for the investment and management of the Scheme's funds pursuant to strategies formulated by Funds SA.

For further information on the investment of the Scheme's funds, reference should be made to the annual report of Funds SA. The investment assets, liabilities, income and expenses contained in this financial statement are related to the investment activities of Funds SA.

d) *Funding Arrangements*

The Act requires that member contributions, employer contributions, rollovers from other schemes and co contributions paid by the Commonwealth be paid to the Treasurer, who, in turn, deposits these amounts into the Fund, the Consolidated Account (which is appropriated to the necessary extent) or to a Special Deposit Account held with the Department of Treasury and Finance (DTF) established for that purpose. During the current reporting period, contributions were made to the Special Deposit Account. All employer contributions are received from South Australian Government Entities.

Under section 10 of the Act, any payment to a member must be made out of the Consolidated Account (which is appropriated to the necessary extent) or from the Special Deposit Account established for that purpose. During the current reporting period payments were made from the Special Deposit Account.

e) *Fund Selection, New Transfer and Withdrawal Arrangements*

As of 30 November 2022, eligible Triple S members have more options and flexibility with the introduction of Fund Selection, new transfer and withdrawal arrangements. Fund Selection gives eligible Triple S members, as well as new SA Government employees, the option to choose a superannuation fund for their employer and personal super contributions that suits their needs.

The new transfer arrangements allow eligible Triple S members, who have made a Fund Selection, the option to transfer all or part of their accumulated account balance to a complying superannuation fund of their choice, without needing to terminate SA Government employment. Between 30 November 2022 and 30 June 2023, 431 Triple S members made a full transfer under the new arrangements, totalling \$16.04 million. Additionally, 280 Triple S members made a partial transfer under the new arrangements, totalling \$91.54 million. Triple S members aged 65 and over are also able to access the new withdrawal arrangement, which includes withdrawal payments even while still employed by SA Government (subject to tax). Between 30 November 2022 and 30 June 2023, 352 Triple S members made a withdrawal under the new arrangements, totalling \$17.74 million.

Southern State Superannuation Scheme

As falling accumulation membership impacts scheme sustainability, the Board's strategic plan is focussed on enhancing Super SA's service and product offering in order to retain and attract members in the competitive environment in which it now operates.

2) Significant accounting policies

a) *Basis of accounting*

The financial statements have been prepared in accordance with relevant Australian Accounting Standards, including AASB 1056 Superannuation Entities and other authoritative pronouncements of the Australian Accounting Standards Board, Treasurer's Instructions and Accounting Policy Statements promulgated under the provision of the Public Finance and Audit Act 1987 (PFAA), except as provided below.

These financial statements have been prepared on the basis of fair value measurement of assets and liabilities, except where otherwise stated.

These financial statements are prepared on a 12-month reporting period, presented in Australian currency and all amounts have been rounded to the nearest thousand dollars (\$000).

The scheme is a not-for-profit entity for the purpose of preparing financial statements.

b) *New and amended accounting standards*

There are no standards, interpretations or amendments to existing standards that are effective for the first time for the financial year beginning 1 July 2022 that have a material impact on the amounts recognised in the prior or current periods or that will affect future periods.

Certain new accounting standards and interpretations have been published that are not mandatory for the 30 June 2023 financial year and have not been early adopted by the Scheme other than AASB 2021-2 which was adopted from 1 July 2021. These standards and interpretations are not expected to have a material impact on the Scheme.

c) *Financial assets and liabilities*

(a) **Classification**

The Scheme classifies its financial assets and financial liabilities into the categories below in accordance with AASB 9.

Financial assets and liabilities held for trading:

These assets are acquired principally for the purpose of generating a profit from short-term fluctuation in price. All derivatives are classified as held for trading. Derivative financial instruments entered into by the Scheme do not meet the hedge accounting criteria as defined by AASB 9. Consequently hedge accounting is not applied by the Scheme.

Financial instruments designated at fair value through profit or loss upon initial recognition:

These financial assets are designated on the basis that they are part of a group of financial assets which are managed and have their performance evaluated on a fair value basis in accordance with risk management and investment strategies of the Fund.

Southern State Superannuation Scheme

Other financial liabilities

This category includes all financial liabilities, other than those classified at fair value through profit or loss. Other financial liabilities are measured at their nominal amounts. Amounts are generally settled within 30 days of being recognised as other financial liabilities. Given the short-term nature of other financial liabilities, the nominal amount approximates fair value.

(b) Recognition

The Scheme recognises a financial asset or a financial liability when, and only when, it becomes a party to the contractual provisions of the instrument.

Purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the marketplace are recognised on the trade date, that is, the date that the Scheme commits to purchase or sell the asset.

(c) Initial recognition

Financial assets and financial liabilities at fair value through profit and loss are recorded in the statement of financial position at fair value. All transaction costs for such instruments are recognised directly in the income statement.

Receivables and financial liabilities (other than those classified at fair value through profit or loss) are measured initially at their fair value plus any directly attributable incremental costs of acquisition or issue.

For financial assets and liabilities where the fair value at initial recognition does not equal the transaction price, the Scheme recognises the difference in the income statement, unless specified otherwise.

(d) Subsequent measurement

After initial measurement, the Scheme measures investments at fair value through profit or loss. Subsequent changes in the fair value of those investments are recorded as 'changes in assets measured at fair value' through the income statement. Interest earned is recorded in 'Interest revenue'.

(e) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability, or
- in the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Scheme.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The Scheme uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Southern State Superannuation Scheme

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy. Refer to financial statement Note 4.

(f) Cash and cash equivalents

Cash and cash equivalents in the statement of financial position comprise cash and deposits in the Scheme's Special Deposit Account held with DTF, which are subject to an insignificant risk of changes in value.

For the purposes of the statement of cash flows, cash and cash equivalents consist of cash and short term deposits as defined above.

(g) Receivables and payables

Receivables are carried at nominal amounts due that approximate fair value. Receivables are normally settled within 30 days. Payables are carried at nominal amounts that approximate fair value. They represent liabilities for goods and services provided to the Scheme prior to the end of the financial year that are unpaid when the Scheme becomes obliged to make future payments in respect of the purchase of these goods or services.

(h) Benefits payable

Benefits payable are valued at fair value and relate to members who have ceased employment and provided the Scheme with appropriate notification on or prior to 30 June 2023 but paid after 30 June 2023. These also include income protection payments payable on or prior to 30 June 2023 but paid after 30 June 2023.

(i) Insurance liabilities

The Scheme provides death and disability benefits to its defined contribution members. Premiums are deducted from insured members' accounts and are paid into a dedicated insurance reserve in order to meet claims as they arise. The Scheme ultimately self-insures this risk as it is appropriate given the Scheme's present membership and reserve levels. The table below outlines the net results of the Scheme's insurance activities during the year:

Insurance activities

	2023	2022
	\$000	\$000
Insurance contract revenue	57 246	52 787
Insurance contract claims expenses	(50 295)	(45 080)
Decrease/(Increase) in insurance liabilities	(10 588)	(1 034)
Net result from insurance activities	(3 637)	6 673

Significant estimates made in measuring insurance contract asset and liabilities

The Scheme uses the services of an actuary to determine its insurance contract assets and liabilities. An actuarial valuation involves making various assumptions about the future. Actual events in the future may differ from these assumptions. The most recent actuarial valuation was performed for the triennium ending 30 June 2022. A shorthand approach has been adopted to determine the value of insurance liabilities between actuarial valuation dates. It is expected that the liability amount determined using the shorthand method will not be materially different had the liabilities been determined in full.

Southern State Superannuation Scheme

The key assumptions used in measuring the insurance contract liabilities are:

- mortality and disability rates reflecting the Scheme's own claim experience,
- the number and amount of insurance claims yet to be reported to the Scheme, relating to the period prior to the reporting year end, and
- the level of additional payments expected for income protection claims in the course of payment.

The key factors or uncertainties that impact the key assumptions above are:

- if mortality and/or disability rates increase, it will result in an increase in insurance liabilities as a result of higher claims and will lead to a decline in the net assets of the Scheme,
- higher than expected claims reported to the Scheme will result in an increase in insurance liabilities and will lead to a decline in the net assets of the Scheme, and
- a better than expected claims experience will result in lower liabilities and an increase in net assets of the Scheme.

The impact of uncertainties around the key assumptions is largely met from the insurance reserves in the Scheme. The adequacy of the insurance reserves are considered as part of the actuarial valuation.

(j) Revenue recognition

The specific recognition criteria described below must be met before revenue is recognised:

Changes in fair values

Changes in the fair value of investments invested with Funds SA are calculated as the difference between the fair value at sale, or at balance date, and the fair value at the previous valuation point. All changes are recognised in the income statement.

Interest

Interest revenue on cash and other financial assets carried at fair value is recorded according to the terms of the contract and recognised in the income statement.

(k) Taxation

The Scheme is a constitutionally protected superannuation fund in terms of Section 295-15 of the *Income Tax Assessment Act 1997*, Regulation 995-1.04 (Schedule 4) and is exempt from income tax. Therefore, no income tax has been brought to account in these financial statements.

(l) Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except:

- when the GST incurred on a sale or purchase of assets or services is not payable to or recoverable from the Australian Taxation Office (ATO), in which case the GST is recognised as part of the revenue or the expense item or as part of the cost of acquisition of the asset, as applicable, or
- when receivables and payables are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the ATO is included as part of receivables or payables in the statement of financial position. Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the ATO.

Southern State Superannuation Scheme

Cash flows are included in the statement of cash flows on a gross basis. The GST component of cash flows arising from investing activities, which is recoverable from, or payable to the ATO are classified as operating cash flows.

(m) Foreign currency

The functional and presentation currency of the Scheme is Australian Dollars, the currency of the primary economic environment in which the Scheme operates. The Scheme's performance is evaluated and its liquidity managed in Australian Dollars. Therefore, the Australian Dollar is considered as the currency that most faithfully represents the economic effects of the underlying transactions, events and conditions.

(n) Investments

Funds SA provides investments measured at fair value. Below is the basis for valuation of these investments.

(i) Inflation Linked Securities Tax-Exempt

The Inflation Linked Securities Tax-Exempt portfolio invests in discretely managed portfolios and internal inflation linked securities. Discretely managed portfolios are invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at balance date.

Internally managed inflation linked securities, the returns of which are linked to movements in either the Consumer Price Index or Average Weekly Earnings, have been valued using the discounted cash flow method. The valuation as at balance date was performed by an independent valuer.

(ii) Property Tax-Exempt

The Property Tax-Exempt portfolio comprises two sub sectors:

Listed Property Trusts

These investments comprise arrangements whereby professional fund managers are appointed under an investment management agreement to manage and invest in listed property securities and real estate investment trusts. Investments in this sub-sector are in pooled funds and have been valued in accordance with the valuations supplied by the managers.

Unlisted property vehicles

The unlisted property vehicles portfolio is invested and managed by external managers. Investments in this sub-sector have been valued in accordance with the valuations supplied by the managers.

(iii) Australian Equities Tax-Exempt

The Australian Equities Tax-Exempt portfolio comprises investments in listed Australian equities, and is invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at balance date.

Southern State Superannuation Scheme

(iv) International Equities Tax-Exempt

The International Equities Tax-Exempt portfolio comprises investments in equities listed on international share markets, and is invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at balance date. Investments in pooled international vehicles have been valued in accordance with the valuations supplied by the managers. Where currency conversions are required, these have been made at the spot market mid rates applicable at balance date.

(v) Fixed Interest

Fixed Interest portfolios have exposure to domestic and global debt instruments and is managed by external managers. The custodian appointed to hold the assets has valued the portfolio using market prices applicable at balance date.

(vi) Diversified Strategies Growth Tax-Exempt

The Diversified Strategies Growth Tax-Exempt asset class incorporates two sub sectors:

Private Markets Tax-Exempt

The Private Markets Tax-Exempt portfolio comprises investments in Australian and international private equity funds, which are invested and managed by external managers. The valuation of private equity investments is based on the most recent valuation performed by the fund managers plus or minus cash flows between the last valuation date and the reporting date. Both Australian and international private equity valuations are generally in accordance with the International Private Equity and Venture Capital Valuation Guidelines Investments and the pooled funds have been valued in accordance with the valuations supplied by the managers. Where currency conversions are required, these have been made at the spot market mid rates applicable at balance date.

Core Infrastructure Tax-Exempt

The Core Infrastructure Tax-Exempt portfolio comprises investments in Australian and international infrastructure pooled funds, which are invested and managed by external managers. The valuation of these investments is based on the most recent valuation performed by the fund managers plus or minus cash flows between the last valuation date and the reporting date. Investments in the pooled funds have been valued in accordance with the valuations supplied by the managers. Where currency conversions are required, these have been made at the spot market mid rates applicable at balance date.

(vii) Diversified Strategies Income

The Diversified Strategies Income asset class incorporates four sub sectors:

Defensive Alternatives

The Defensive Alternatives portfolio comprises investments in Australian and international pooled funds and is invested and managed by external managers. Investments in the pooled funds have been valued in accordance with the valuations supplied by the managers. Where currency conversions are required, these have been made at the spot market mid rates applicable at balance date.

Southern State Superannuation Scheme

Credit

The Credit portfolio comprises investments in discretely managed investments and Australian and international pooled funds and is invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at the balance date. Investments in the pooled funds have been valued in accordance with the valuations supplied by the managers. Where currency conversions are required, these have been made at the spot market mid rates applicable at balance date.

Investment Grade Credit

The Investment Grade Credit portfolio comprises investments in discretely managed investments and is invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at the balance date. Where currency conversions are required, these have been made at the spot market mid rates applicable at balance date.

Growth Alternatives

The Growth Alternatives portfolio comprises investments in discretely managed investments and Australian and international pooled funds and is invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at the balance date. Investments in the pooled funds have been valued in accordance with the valuations supplied by the managers. Where currency conversions are required, these have been made at the spot market mid rates applicable at balance date.

(viii) Cash

The Cash portfolio comprises investments in a discretely managed investment, which is managed by an external manager and is valued by the custodian appointed to hold the assets using market prices applicable at balance date. Deposits at call have been valued on the basis of principal plus accrued interest.

(ix) Socially Responsible

The Socially Responsible portfolio actively incorporates the consideration of environmental, social and governance factors in their investment decisions and avoids investing in companies operating in areas of high negative social impact. The portfolio comprises investments in equities listed on Australian and international share markets and is invested and managed by external managers along with a number of international and domestic pooled fund investments.

Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at balance date. Investments in pooled vehicles have been valued in accordance with the valuations supplied by the managers. Where currency conversions are required, these have been made at the spot market mid rates applicable at balance date.

(o) Operation of investment portfolio

Funds SA is responsible for the investment and management of the Fund pursuant to strategies formulated by Funds SA (refer Note 1 (c)). Funds SA operates a multi-layered notional unitisation structure to facilitate the administration of different investment strategies applying to the various public sector superannuation funds.

Southern State Superannuation Scheme

For the year ending 30 June 2023, Funds SA managed seven (2022: seven) distinct investment options for the Scheme available to investors, each differing by strategic asset allocation:

- High Growth
- Balanced
- Moderate
- Stable (previously known as Conservative)
- Capital Defensive
- Cash
- Socially Responsible

(p) Significant accounting judgements, estimates and assumptions

The preparation of the Scheme's financial statements requires management to make judgments, estimates and assumptions that affect the amounts recognised in the financial statements. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future.

The significant accounting policies have been consistently applied in the current financial year and the comparative period, unless otherwise stated. Where necessary, comparative information has been presented to be consistent with current period disclosures.

Fair value of investments

When the fair values of the investments recorded in the statement of financial position cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including a discounted cash flow model. The inputs in these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required to establish fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility.

Changes in assumptions about these factors could affect the reported fair value of these investments.

It is also important to note that fair values are accepted directly from Funds SA.

(q) Climate change financial risks

In November 2021, Australian Prudential Regulation Authority (APRA) released Prudential Practice Guide CPG 229 Climate Change Financial Risks. CPG 229 does not impose new requirements in relation to climate risks, rather, it supports compliance with APRA's existing risk management and governance requirements and guidance. The Board and Super SA consider financial risks of climate change, including physical climate risks, transition climate risks, and liability risks as part of the overall Super SA Risk Management Strategy.

Additionally, as identified in Note 1 above, the investments of the scheme are managed by Funds SA. Funds SA, in turn, is committed to risk management and maintains a rigorous and proactive approach to identifying and managing investment risk, including the risks associated with climate change. Funds SA has developed a Climate Change Position Statement and Climate Risk Response Plan to support its approach in this area. Please refer to the Funds SA website for further detail.

Southern State Superannuation Scheme

3) Member benefit liabilities

Triple S members are defined contribution members and bear the investment risk relating to the underlying assets and unit prices used to measure the member liabilities. Member account balances are determined by unit prices that are determined based on the underlying investment movements. Unit prices are updated daily. Refer to Note 18 for the Scheme's management of the investment risks.

	2023	2022
	\$000	\$000
Member benefits	23 842 590	21 764 387
As compared to net assets available for member benefits	23 953 589	21 973 987

4) Fair value of financial instruments

Classification of financial instruments under the fair value hierarchy

AASB 13 requires disclosures relating to fair value measurements using a three-level fair value hierarchy. The level within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement. Assessing the significance of a particular input requires judgement, considering factors specific to the asset or liability. The following table shows financial instruments recognised at fair value, categorised between those whose fair value is based on:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

Valuations are the responsibility of the Board. The valuation of investments is performed daily and are subject to quality assurance procedures.

After the checks above have been performed the Board considers the valuation results, including assumptions used in the valuations.

The Board also considers the appropriateness of the valuation methods and inputs and may request that alternative valuation methods are applied to support the valuation arising from the method chosen.

Valuation technique

The Scheme's investments are not quoted in an active market. To ensure fair value can be determined, the Scheme's investment manager, Funds SA, applies due diligence and considers valuation techniques and inputs used in valuing the funds, prior to investing. In measuring fair value, consideration is given to the amounts for which financial assets can be sold, excluding transaction costs. The Scheme classifies these funds as Level 2.

There were no changes in valuation techniques during the year.

	2023	2022
	\$000	\$000
Financial assets at fair value through profit or loss – Level 2		
Level 1 and level 3 are not relevant to the Scheme		
Unlisted managed investment schemes	23 926 822	21 991 553
Funds SA	23 926 822	21 991 553

Southern State Superannuation Scheme

5) Value and movement of investments by investment option

	2023 \$000	Movement \$000	2022 \$000
High Growth Tax-Exempt	3 047 900	363 292	2 684 608
Balanced Tax-Exempt	18 889 255	1 538 883	17 350 372
Moderate Tax-Exempt	592 763	13 545	579 218
Stable Tax-Exempt	437 625	(12 239)	449 864
Capital Defensive Tax-Exempt	200 205	(20 933)	221 138
Cash Tax-Exempt	553 040	346	552 694
Socially Responsible	206 034	52 375	153 659
Investments at 30 June	23 926 822	1 935 269	21 991 553

6) Receivables

	2023 \$000	2022 \$000
Refund from ATO for GST	196	359
Interest	103	-
Funds SA receivables	4 860	9 760
Benefit repayments	1 084	924
Other receivables	2	2
	6 245	11 045

7) Contributions receivable

	2023 \$000	2022 \$000
Member contributions	945	594
Employer contributions	47 759	26 779
	48 704	27 373

8) Payables

	2023 \$000	2022 \$000
Audit fees	86	84
Administration expenses	7 853	4 740
	7 939	4 824

Southern State Superannuation Scheme

9) Insurance Reserve

The Scheme self-insures and provides an insurance benefit based on units of cover, subject to certain limitations, in the event of death or permanent invalidity before age 70. An Income Protection Insurance benefit, subject to eligibility criteria, is also available in the event of a member becoming temporarily disabled before age 65.

Most members of the Scheme are provided with three Standard Death and Total and Permanent Disablement (TPD) units of cover as a default costing \$2.25 per week and can reduce or cancel this at any time. Police Officers and operations employees of the SA Ambulance Service, who commenced employment after 1 July 2008 or are former standard contributory members of the SA Ambulance Service Superannuation Scheme who elected to transfer to the Triple S Scheme before age 60, are required to have at least 6 units of Standard Insurance cover and are only able to reduce below this level or cancel on reaching age 65. The value of a unit of Standard Insurance for members up to age 34 years is \$75 000. The value of a unit declines from age 35. Additional units can be purchased (subject to medical evidence) to provide permanent employees with cover up to \$1.5 million and casual employees up to \$750 000. Members can switch their cover to Fixed Benefit Insurance and purchase additional units (subject to medical evidence). Each Fixed Benefit Insurance unit has a value of \$10 000, with premium increases from age 35 to age 70 when cover ceases. The previously offered Fixed Insurance closed to new applications in November 2014.

As required by Section 17 of the Act, a report is obtained from an actuary appointed by the Treasurer on the costs and liabilities of the insurance arrangements of the Scheme (refer Note 2(i)).

To be eligible for the Income Protection Insurance benefit, a member must be an active member, working full-time or part-time and receiving an employer contribution. Casual employees not automatically provided with Income Protection Insurance but can apply for cover subject to medical evidence. Income Protection payments can continue for up to 24 months for members employed full or part time. Casual employees can be paid for up to 12 months.

	2023	2022
	\$000	\$000
Opening Balance of Insurance Reserve	149 294	142 943
Investment earnings on Insurance Reserve ⁽ⁱ⁾	15 256	(10 039)
Premiums and charges	57 246	52 787
Benefit payments	(50 295)	(45 080)
Administration expenses ⁽ⁱⁱ⁾	(11 050)	(8 429)
Operating Result	11 157	(10 761)
Transfer (from) Reserve ⁽ⁱⁱⁱ⁾	-	17 112
Closing balance of Reserve	160 451	149 294

(i) The Insurance Reserve is notionally invested in the Balanced option. The rate of return on earnings in 2023 was 9.6 per cent (2022: -6.39 per cent).

(ii) The amount relates to the annual administration fee paid for administering the insurance arrangements.

(iii) The prior year amount relates to the Board approved reversal of the transfers of accumulated investment earnings to the Scheme's Administration Fee Reserve (2022: \$7.9 million), Flexible Rollover Product (2022: \$1.1 million), Income Stream (2022: \$7.9 million), Parliamentary Superannuation Scheme (2022: \$81 000) and Super SA Select (2022: \$26 000).

Southern State Superannuation Scheme

10) Administration Fee Reserve

This reserve has been set aside for future Scheme requirements. The movement in the reserve reflects the difference between administration fees collected from members and the cost of administering the Scheme during the year.

	2023	2022
	\$000	\$000
Opening Balance of Administration Reserve	16 238	25 196
Investment earnings on Administration Fee Reserve ⁽ⁱ⁾	1 845	(1 020)
Administration fees	21 970	21 528
Administration expenses ⁽ⁱⁱ⁾	(19 216)	(21 494)
Operating Result	4 599	(986)
Transfer (from) Reserve ⁽ⁱⁱⁱ⁾	-	(7 972)
Closing balance of Reserve	20 837	16 238

- (i) The Administration Fee Reserve is notionally invested in the Balanced option. The rate of return on earnings in 2023 was 9.6 per cent (2022: -6.39 per cent).
- (ii) The amount relates to the annual service level agreement paid for administering the Scheme (refer Note 15).
- (iii) The prior year amount relates to the Board approved reversal of the transfers of accumulated investment earnings from the Scheme's Insurance Reserve (2022: \$7.9 million).

11) Operational Risk Reserve

The Operational Risk Reserve is to be accumulated to 0.25 per cent of funds under management in line with Prudential Standard SPS114. The reserve is currently 0.13 per cent of funds under management.

	2023	2022
	\$000	\$000
Opening balance of Operational Risk Reserve	20 870	22 439
Investment revenue on Operational Risk Reserve ⁽ⁱ⁾	2 420	(1 399)
Operational Risk Reserve charge ⁽ⁱⁱ⁾	7 700	-
Payments from Reserve	(180)	(170)
Operating Result	9 940	(1 569)
Closing balance of Operational Risk Reserve	30 810	20 870

- (i) The Operational Risk Reserve is notionally invested in the Balanced Option. The rate of return on earnings in 2023 was 9.6 per cent (2022: -6.39 per cent).
- (ii) The Operational Risk Reserve charge was introduced in the 2022-23 financial year by deducting 5 basis points across all members' accounts to fund the Operational Risk Reserve.

12) Allocated to members' accounts

The value of funds which have been formally allocated to investor accounts equals the member benefits. The formal allocation of earnings to investors' accounts has been determined for the 2022-23 financial year.

Southern State Superannuation Scheme

13) Unallocated to members' accounts

Defined contribution schemes carry a proportion of amounts yet to be allocated. This unallocated amount arises because the financial statement of the Scheme is prepared on an accrual basis while monies are allocated to members on a cash basis.

The Scheme also values the investments reported in the financial statements at fair value (refer Notes 2(c)(e) and 4), while the unit prices used to determine the member benefit liabilities are based on soft close unit prices. This difference in valuation is reflected in the investment allocation amount in the statement of financial position.

14) Investment expenses

	2023 \$000	2022 \$000
Investment expenses	66 490	74 768

Direct Investment expenses comprise fees paid to Funds SA. Funds SA advises the amount applicable to the Scheme based on the Scheme's funds under management.

15) Administration expenses

	2023 \$000	2022 \$000
Administration expenses ⁽ⁱ⁾	19 216	21 494
Other expenses ⁽ⁱⁱ⁾	90	91
	19 306	21 585

⁽ⁱ⁾ Regulation 16 provides for an administrative charge to be debited each year to members' employer contribution accounts and section 10 of the Act provides that administration costs will be paid from the Fund. The purpose of the administration charge is to provide for existing and future costs of administering the Scheme. The amount of the charge is determined by the Board. For the year ended 30 June 2023 the amount charged to members' employer contribution accounts was \$19.3 million (2022: \$21.5 million).

⁽ⁱⁱ⁾ Other expenses include Auditors' remuneration. Refer Note 16.

16) Auditors' remuneration

	2023 \$000	2022 \$000
Audit fees paid or payable	82	80

Audit fees paid or payable to the Auditor-General's Department relating to work performed under the PFAA were \$81 900, GST exclusive (2022: \$80 000). The Auditor General's Department uses the services of Ernst and Young for the audit. No other services were provided by the Auditor-General's Department.

Southern State Superannuation Scheme

17) Reconciliation of cash and cash equivalents

For the purpose of the Statement of Cash Flows, cash and cash equivalents includes cash and deposits in the Scheme's Special Deposit Account held with DTF. Cash flows are included in the Statement of Cash Flows on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the ATO is classified as part of operating cash flows. Cash at the end of the reporting period as shown in the Statement of Cash Flows is reconciled to the related item in the Statement of Financial Position as follows:

	2023 \$000	2022 \$000
Cash and cash equivalents	41 237	37 673
Reconciliation of net cash from operating activities

18) Financial risk management objectives and policies

The Scheme's investments are managed by Funds SA predominantly by the appointment of investment managers as determined by the Funds SA Board. Each investment manager is required to invest the assets in accordance with the terms of a written mandate. The Funds SA Board has determined that the appointment of these managers is appropriate for the Scheme and is in accordance with the Scheme's investment strategy. The Funds SA Board obtains regular reports from each manager on the nature of the investments made on its behalf and the associated risks.

The allocation of assets between the various types of financial instruments is determined by the Funds SA Board. Divergence from target asset allocations and the composition of the portfolio is monitored by the Funds SA Board on a regular basis.

The Scheme's investing activities expose it to the following risks from its use of financial instruments:

- market risk
- credit risk
- liquidity risk

The nature and extent of the financial instruments employed by the Scheme are discussed below. This note presents information about the Scheme's exposure to each of the above risks, the Scheme's objectives, policies and processes for measuring and managing risk.

The Funds SA Board has overall responsibility for the establishment and oversight of the Scheme's investment risk management framework.

Southern State Superannuation Scheme

The Scheme's investment risk management policies are established to identify and analyse the risks faced by the Scheme, including those risks managed by the Scheme's investment managers, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Scheme's activities.

The Scheme receives regular reports from Funds SA concerning compliance with investment objectives.

a) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Scheme's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return on risk.

Funds SA manages the risk of financial market volatility through the adherence to two principles:

- ensuring a diversity of exposures to different financial markets and sub-markets, and
- ensuring asset allocations for different investment options are consistent with the time horizon of each.

i) Currency risk

Currency risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of a change in foreign exchange rates.

The Scheme's currency risk is managed by Funds SA as investments include assets denominated in foreign currencies. Funds SA strategic policy for the management of its foreign currency exposure is as follows:

- foreign currency exposures in the Private Markets Tax-Exempt, Private Markets Taxable, Core Infrastructure Tax- Exempt, Core Infrastructure Taxable, Credit, Long Term Fixed Interest and Inflation Linked Securities Taxable asset classes are economically hedged to Australian dollars, and
- foreign currency exposures over the developed markets component of the International Equities Tax-Exempt, International Equities Taxable, International Equities Passive Tax-Exempt and International Equities Passive Taxable asset classes are economically hedged to Australian dollars.

For the purpose of managing foreign currency risk, within defined constraints, the exposure to foreign currency can be varied from the strategic policy stated above, by Funds SA.

Southern State Superannuation Scheme

ii) Interest rate risk

Interest rate risk is the risk that a movement in interest rates will cause the value of fixed interest securities to deviate from expectations.

The Scheme's interest rate risk is managed by Funds SA, as investments include fixed interest securities.

Funds SA manages interest rate risk through:

- ensuring asset allocations of different investment products are consistent with the time horizon of each, and
- the use of specialist external investment managers to manage Funds SA's cash and fixed income portfolios.

iii) Other market price risk

Other market price risk is the risk that the value of the instrument will fluctuate as a result of changes in market prices, whether caused by factors specific to an individual investment, its issuer, or factors affecting all instruments traded in the market.

As the Scheme's financial instruments are valued at fair value with changes in fair value recognised in the Income Statement, all changes in market conditions will directly affect investment revenue.

The Scheme's other market price risk is managed by Funds SA, as investments include financial instruments exposed to market prices.

Funds SA manages the risk of financial market volatility through the adherence to two principles:

- ensuring a diversity of exposures to different financial markets and sub markets, and
- ensuring asset allocations for different investment options are consistent with the time horizon of each.

Southern State Superannuation Scheme

iv) Investments sensitivity analysis

The Funds SA Board has determined that its forecast risk/return profile provides a reasonable measure of the sensitivity of the expected returns in the investment for the year ahead. The following tables show the standard deviation around expected nominal returns for the Scheme's investment options.

The statistics shown below are averages calculated over 10 years, net of investment management fees and gross of tax. These investment statistics have zero per cent tax rate applied and exclude franking credits.

	Expected Average Return	Market Risk	Average Funds Under Management	Potential impact of market risk (+/-) on Income Statement
2023	%	%	\$000	\$000
Investment Option				
High Growth Tax-Exempt	8.2	10.7	2 866 254	306 689
Balanced Tax-Exempt	7.6	9.0	18 119 814	1 630 783
Moderate Tax-Exempt	6.9	6.8	585 991	39 847
Stable Tax-Exempt ⁽ⁱ⁾	6.4	4.8	443 745	21 300
Capital Defensive Tax Exempt	5.8	3.2	210 672	6 742
Cash Tax-Exempt	3.2	0.5	552 867	2 764
Socially Responsible	6.5	8.9	179 847	16 006

	Expected Average Return	Market Risk	Average Funds Under Management	Potential impact of market risk (+/-) on Income Statement
2022	%	%	\$000	\$000
Investment Option				
High Growth Tax-Exempt	6.7	10.3	2 787 520	287 115
Balanced Tax-Exempt	6.1	8.9	18 044 732	1 605 981
Moderate Tax-Exempt	4.7	6.7	576 867	38 650
Stable Tax-Exempt ⁽ⁱ⁾	3.9	5.1	469 631	23 951
Capital Defensive Tax-Exempt	3.3	3.9	235 010	9 165
Cash Tax-Exempt	0.0	0.5	441 157	2 206
Socially Responsible	5.2	8.8	138 887	12 222

(i) Stable was previously known as the Conservative option.

Market risk is a useful historical measure of the variability of returns earned by an investment portfolio. The market risk shown above represents the range at which actual future returns are expected to occur either side of the nominal return approximately two thirds of the time.

The dollar value of the potential impact on the Income Statement arising from the market risk is indicative only. The impacts are not additive across investment asset classes, as each asset class operates in different markets and is subject to different conditions.

Southern State Superannuation Scheme

Actual movements in returns may be greater or less than anticipated due to a number of factors, including unusually large market shocks resulting from changes in the performance of the economies, markets and securities in which the underlying trusts invest. As a result, historic variations in rates of return are not a definitive indicator of future variations in rates of return.

b) Credit risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Scheme.

The value of financial assets, included in the Statement of Financial Position represents the Scheme's maximum exposure to credit risk in relation to those assets. The Scheme does not have any significant exposure to any individual counterparty or industry. The credit risk is monitored by Funds SA through ongoing reviews of the investment managers.

The Scheme does not have any assets which are past due or impaired and there is no concentration of credit risk.

c) Liquidity risk

Liquidity risk is the risk that the Scheme will not be able to meet its financial obligations as they fall due. The Scheme's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its payment of benefits to members and liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Scheme's reputation.

For the Scheme's investments, Funds SA manages liquidity risk as follows:

- by giving careful consideration to the expected net cash redemption requirements of Funds SA's clients. The allocation to cash in the strategic asset allocation of each investment product is set at a level sufficient to manage expected cash redemptions,
- a large proportion of each investment product is invested in highly liquid investments such as actively traded equities, unit trusts or securities with short-term maturities,
- reporting and monitoring the liquidity of the fund on a daily basis to ensure prospective client cash outflows and switches can be met,
- by undertaking portfolio management and rebalancing activities, and
- by undertaking regular stress testing on liquidity positions to identify sources of liquidity strain before they are realised.

For the Scheme itself, the liquidity position is monitored on a daily basis. The Scheme's cash and liquidity policy is to have sufficient cash balances to meet anticipated benefit payments, expenses and investing activities.

Southern State Superannuation Scheme

The following tables summarise the contractual maturity profile of the Scheme's financial liabilities based on the earliest date on which the Scheme can be required to pay. The amounts in the table are the contractual undiscounted cash flows.

2023	Less than 3 Months \$000	Total Contractual Cash Flows \$000	Carrying Amount Liabilities \$000
Benefits payable	29 412	29 412	29 412
Vested benefits ⁽ⁱ⁾	23 842 590	23 842 590	23 842 590
Total	23 872 002	23 872 002	23 872 002

2022	Less than 3 Months \$000	Total Contractual Cash Flows \$000	Carrying Amount Liabilities \$000
Benefits payable	67 994	67 994	67 994
Vested benefits ⁽ⁱ⁾	21 764 387	21 764 387	21 764 387
Total	21 832 381	21 832 381	21 832 381

(i) Vested benefits have been included in the "Less than 3 Months" column, as this is the amount that members could call upon as at balance date. This is the earliest date on which the Scheme can be required to pay members vested benefits, however, members may not necessarily call upon amounts vested to them during this time.

d) Derivative financial instruments

Derivatives can be defined as financial contracts whose value depends on, or is derived from, assets, liabilities, reference rates or indices. Funds SA uses derivatives to manage portfolio risk and to facilitate the implementation of investment strategies efficiently and cost effectively. Funds SA uses a variety of derivative instruments, such as over the counter swap agreements, forward rate agreements, futures and options.

Derivatives are an authorised investment within certain mandates managed by Funds SA's external investment managers for the purposes described above.

Southern State Superannuation Scheme

19) Segment information

The Scheme operates in one reportable segment, being the provision of benefits to members. The Scheme also operates from one reportable geographic segment, being Australia, from where its activities are managed. While the Scheme operates from Australia only, the Scheme, through its investment managers Funds SA, has investment exposures in different countries and across different industries.

20) Related parties

a) Key management personnel

The key management personnel of the Scheme includes the Treasurer, Board members, the Chief Executive and six members of the Executive Group, State Superannuation Office, who have responsibility for the strategic direction and management of the Scheme.

b) Compensation

All key management personnel are compensated by the Department of Treasury and Finance therefore their compensation is disclosed in the respective financial reports.

c) Transactions with key management personnel and other related parties

There were no transactions with key management personnel or related parties.

d) Transactions with other government entities

There were no significant transactions with government entities other than those disclosed elsewhere in the financial statements.

21) Events after the reporting period

There were no significant events after the reporting period.

Southern State Superannuation Scheme

Certification of the financial statements

We certify that the:

- financial statements of the Southern State Superannuation Scheme:
 - are in accordance with the accounts and records of the Scheme,
 - comply with relevant Treasurer's instructions,
 - comply with relevant accounting standards, and
 - present a true and fair view of the financial position of the Scheme at the end of the financial year and the result of its operations and cash flows for the financial year.
- internal controls employed by the Scheme for the financial year over its financial reporting and its preparation of the financial statements have been effective.

To the Presiding Member South Australian Superannuation Board Super SA Retirement Investment Fund

Opinion

I have audited the financial report of the Super SA Retirement Investment Fund for the financial year ended 30 June 2023.

In my opinion, the accompanying financial report gives a true and fair view of the financial position of the Super SA Retirement Investment Fund as at 30 June 2023, its financial performance and its cash flows for the year then ended in accordance with relevant Treasurer's Instructions issued under the provisions of the *Public Finance and Audit Act 1987* and Australian Accounting Standards.

The consolidated financial report comprises:

- a Statement of Financial Position as at 30 June 2023
- an Income Statement for the year ended 30 June 2023
- a Statement of Changes in Member Benefits for the year ended 30 June 2023
- a Statement of Changes in Equity for the year ended 30 June 2023
- a Statement of Cash Flows for the year ended 30 June 2023
- notes, comprising material accounting policies and other explanatory information
- a Certificate from the Presiding Member of the South Australian Superannuation Board, the Acting Chief Executive, State Superannuation Office, and the Director, Finance, State Superannuation Office.

Basis for opinion

I conducted the audit in accordance with the *Public Finance and Audit Act 1987* and Australian Auditing Standards. My responsibilities under those standards are further described in the 'Auditor's responsibilities for the audit of the financial report' section of my report. I am independent of the Super SA Retirement Investment Fund. The *Public Finance and Audit Act 1987* establishes the independence of the Auditor-General. In conducting the audit, the relevant ethical requirements of APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* have been met.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Responsibilities of the Acting Chief Executive, State Superannuation Office and members of the South Australian Superannuation Board for the financial report

The Acting Chief Executive, State Superannuation Office is responsible for the preparation of the financial report that gives a true and fair view in accordance with relevant Treasurer's Instructions issued under the provisions of the *Public Finance and Audit Act 1987* and the Australian Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the Acting Chief Executive, State Superannuation Office is responsible for assessing the Super SA Retirement Investment Fund's ability to continue as a going concern, taking into account any policy or funding decisions the government has made which affect the continued existence of the entity. The Acting Chief Executive, State Superannuation Office is also responsible for disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the assessment indicates that it is not appropriate.

The members of the South Australian Superannuation Board are responsible for overseeing the entity's financial reporting process.

Auditor's responsibilities for the audit of the financial report

As required by section 31(1)(b) of the *Public Finance and Audit Act 1987* and section 15(3) of the *Southern State Superannuation Act 2009* I have audited the financial report of the Super SA Retirement Investment Fund for the financial year ended 30 June 2023.

My objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with Australian Auditing Standards, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

- identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control

- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Super SA Retirement Investment Fund's internal control
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Acting Chief Executive, State Superannuation Office
- conclude on the appropriateness of the Acting Chief Executive, State Superannuation Office's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify the opinion. My conclusion is based on the audit evidence obtained up to the date of the auditor's report. However, future events or conditions may cause an entity to cease to continue as a going concern
- evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

My report refers only to the financial report described above and does not provide assurance over the integrity of electronic publication by the entity on any website nor does it provide an opinion on other information which may have been hyperlinked to/from the report.

I communicate with Acting Chief Executive, State Superannuation Office and members of the South Australian Superannuation Board about, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during the audit.

Daniel O'Donohue
Assistant Auditor-General (Financial Audit)

Super SA Retirement Investment Fund

Notes to the Financial Statements

1) Objectives and funding

a) *Super SA Retirement Investment Fund (the Fund)*

The Flexible Rollover Product and the Super SA Income Stream Product were introduced from April 2005 under the now repealed *Southern State Superannuation Act 1994* (the Act). The Fund was established under Section 47(B) of the repealed Act. The Fund is now continued under Part 3 Division 4 of the *Southern State Superannuation Regulations 2009* (the Regulations).

Part 3 Division 4 provides that the South Australian Superannuation Board (the Board) may provide investment services and the provision of other products and services for the benefit of persons who have retired or otherwise ceased to be employed.

Regulation 45 provides that the Board may accept money from public sector superannuation beneficiaries or the spouses of public sector beneficiaries.

The Fund is comprised of two different products: the Flexible Rollover Product, and the Income Stream which also comprises two products: Income Stream and Transition to Retirement Income Stream (TRIS). Refer to Note 2(c)(k) for more information.

The Flexible Rollover Product may receive after tax investor contributions and rollovers from investors. The Income Stream may only receive rollovers from investors.

The Fund offers investors the opportunity to reinvest funds, providing them with tax advantages, low fees and choice of investment options.

The Fund is only available to investors who have retired, are reaching retirement age, or have terminated employment with the SA public sector. The Fund allows investors in the Flexible Rollover Product to maintain their level of insurance through the Triple S Scheme, and provides access to non-preserved benefit amounts.

Benefits, represented by the balances of investors' accounts, are available to investors. The balance of individual investor entitlements is provided on annual statements forwarded to each investor.

Investor contributions are deposited by the Treasurer into the Fund which is managed and invested by the Superannuation Funds Management Corporation of South Australia (Funds SA).

The Fund is an exempt public sector superannuation entity and operates on a not-for-profit basis.

b) *South Australian Superannuation Board*

The purpose of this financial report is to discharge the responsibilities of the Board under section 15 of the Act and Section 45 of the Regulations, to maintain proper accounts of receipts and payments.

The Act charges the Board with responsibility for all aspects of the administration of the Act except for the management and investment of the assets relating to the Flexible Rollover Product and Income Stream.

Super SA Retirement Investment Fund

c) Superannuation Funds Management Corporation of South Australia

Funds SA is established under the *Superannuation Funds Management Corporation of South Australia Act 1995* (the Funds SA Act). Funds SA is responsible for the investment and management of funds pursuant to strategies formulated by Funds SA. The Fund is not Crown property and therefore operates in a taxed environment.

For further information on investment activities, reference should be made to the annual report of Funds SA. The financial report of Funds SA discloses the investment assets, liabilities, income and expenses relating to the investment activities of Funds SA

d) Funding Arrangements

Investments by investors in one or more of the products available in the Fund are paid to the Board, and invested by Funds SA. All investments are the personal property of the investor who makes the investment, and, as such, are subject to tax on investment earnings where applicable.

2) Significant accounting policies

a) Basis of accounting

The financial statements have been prepared in accordance with relevant Australian Accounting Standards, including AASB 1056 Superannuation Entities and other authoritative pronouncements of the Australian Accounting Standards Board, Treasurer's Instructions and Accounting Policy Statements promulgated under the provision of the Public Finance and Audit Act 1987 (PFAA), except as provided below.

These financial statements have been prepared on the basis of fair value measurement of assets and liabilities, except where otherwise stated.

These financial statements are presented in Australian currency and all amounts have been rounded to the nearest thousand dollars (\$000).

The Fund is a not-for-profit entity for the purpose of preparing financial statements.

b) New and amending accounting standards

There are no standards, interpretations or amendments to existing standards that are effective for the first time for the financial year beginning 1 July 2022 that have a material impact on the amounts recognised in the prior or current periods or that will affect future periods.

Certain new accounting standards and interpretations have been published that are not mandatory for the 30 June 2023 financial year and have not been early adopted by the Fund other than AASB 2021-2 which was adopted from 1 July 2021. These standards and interpretations are not expected to have a material impact on the Fund.

c) Financial assets and liabilities

a) Classification

The Fund classifies its financial assets and financial liabilities into the categories below in accordance with AASB 9.

Super SA Retirement Investment Fund

Financial assets and liabilities held for trading

These assets are acquired principally for the purpose of generating a profit from short-term fluctuation in price. All derivatives are classified as held for trading. Derivative financial instruments entered into by the Fund, if any, do not meet the hedge accounting criteria as defined by AASB 9. Consequently hedge accounting is not applied by the Fund.

Financial instruments designated at fair value through profit or loss upon initial recognition

These financial assets are designated on the basis that they are part of a group of financial assets which are managed and have their performance evaluated on a fair value basis in accordance with risk management and investment strategies of the Fund.

Other financial liabilities

This category includes all financial liabilities, other than those classified at fair value through profit or loss. Other financial liabilities are measured at their nominal amounts. Amounts are generally settled within 30 days of being recognised as other financial liabilities. Given the short-term nature of other financial liabilities, the nominal amount approximates fair value.

b) Recognition

The Fund recognises a financial asset or a financial liability when, and only when, it becomes a party to the contractual provisions of the instrument.

Purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the marketplace are recognised on the trade date, i.e. the date that the Fund commits to purchase or sell the asset.

c) Initial Recognition

Financial assets and financial liabilities at fair value through profit and loss are recorded in the statement of financial position at fair value. All transaction costs for such instruments are recognised directly in the income statement.

Receivables and liabilities (other than those classified at fair value through profit or loss) are measured initially at their fair value plus any directly attributable incremental costs of acquisition or issue.

For financial assets and liabilities where the fair value at initial recognition does not equal the transaction price, the Fund recognises the difference in the income statement, unless specified otherwise.

d) Subsequent measurement

After initial measurement, the Fund measures investments at fair value through profit or loss. Subsequent changes in the fair value of those investments are recorded as 'changes in investments measured at fair value' through the income statement. Interest earned is recorded in 'Interest revenue'.

e) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Super SA Retirement Investment Fund

The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability, or
- in the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Fund.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their best economic interest.

The Fund uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy. Refer to financial statement note 5.

f) Cash and cash equivalents

Cash and cash equivalents in the statement of financial position comprise cash and deposits in Deposit Accounts held with the Department of Treasury and Finance (DTF), which are subject to an insignificant risk of changes in value.

For the purposes of the statement of cash flows, cash and cash equivalents consist of cash and deposits as defined above.

g) Receivables and payables

Receivables are carried at nominal amounts due that approximate fair value. Receivables are normally settled within 30 days. Payables are carried at nominal amounts that approximate fair value. They represent liabilities for goods and services provided to the Fund prior to the end of the financial year that are unpaid, and for which the Fund is obliged to make future payments in respect of the purchase of these goods or services.

h) Benefits payable

Benefits payable are valued at fair value and relate to members who are eligible to receive payment and provided the Fund with appropriate notification on or prior to 30 June 2023 but paid after 30 June 2023.

i) Insurance liabilities

Insurance liabilities have been recognised and measured using the approach to measuring defined benefit member liabilities as required by AASB 1056. The Fund has adopted the equivalent AASB 1056 approved shortcut method that provides a valuation to meet the accrued insurance liabilities as at that date when they are expected to fall due.

Super SA Retirement Investment Fund

j) Revenue recognition

The specific recognition criteria described below must be met before revenue is recognised:

Changes in fair values

Changes in the fair value of investments invested with Funds SA are calculated as the difference between the fair value at sale, or at balance date, and the fair value at the previous valuation point. All changes are recognised in the income statement.

Interest

Interest revenue on cash and other financial assets carried at fair value is recorded according to the terms of the contract and recognised in the income statement.

k) Taxation

The Fund is a complying superannuation fund within the provisions of the *Income Tax Assessment Act 1997* and accordingly income tax has been brought to account in this financial report. The Flexible Rollover Product is subject to the concessional tax rate of 15 per cent. Income Stream is subject to an income tax rate of 0 per cent under federal tax law, but is able to take advantage of franking credits. The 2016-17 Federal Budget required that from 1 July 2017 the tax exemption on earnings of assets supporting transition to retirement income streams would be removed. As a result Transition to Income Stream is subject to the concessional tax rate of 15 per cent.

Current tax

Current tax is calculated by reference to the amount of income tax payable or recoverable in respect of the taxable benefits accrued for the period. It is calculated using tax rates and tax laws that have been enacted or substantively enacted by reporting date. Current tax for current and prior periods is recognised as a liability (or asset) to the extent that it is unpaid (or refundable).

Deferred tax

Deferred tax is accounted for using the comprehensive balance sheet liability method in respect of temporary differences arising from differences between the carrying amount of assets and liabilities in the financial report and the corresponding tax base of those items.

In principle, deferred tax liabilities are recognised for all taxable temporary differences. Deferred tax assets are recognised to the extent that it is probable that sufficient taxable amounts will be available against which deductible temporary differences or unused tax losses and tax offsets can be utilised. However, deferred tax assets and liabilities are not recognised if the temporary differences giving rise to them arise from the initial recognition of assets and liabilities which affect neither taxable income nor accounting profit.

Deferred tax assets and liabilities are measured at the tax rates that are estimated to apply to the period(s) when the asset and liability giving rise to them are realised or settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by reporting date. The measurement of deferred tax liabilities and assets reflect the tax consequences that would follow from the manner in which the Fund expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Super SA Retirement Investment Fund

Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the Fund intends to settle its current tax assets and liabilities on a net basis.

l) Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except:

- when the GST incurred on a sale or purchase of assets or services is not payable to or recoverable from the Australian Taxation Office (ATO), in which case the GST is recognised as part of the revenue or the expense item or as part of the cost of acquisition of the asset, as applicable, or
- when receivables and payables are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the ATO is included as part of receivables or payables in the statement of financial position. Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the ATO.

Cash flows are included in the statement of cash flows on a gross basis. The GST component of cash flows arising from investing activities, which is recoverable from, or payable to the ATO are classified as operating cash flows.

m) Foreign currency

The functional and presentation currency of the Scheme is Australian Dollars, the currency of the primary economic environment in which the Scheme operates. The Scheme's performance is evaluated and its liquidity managed in Australian Dollars. Therefore, the Australian Dollar is considered as the currency that most faithfully represents the economic effects of the underlying transactions, events and conditions.

n) Investments

Funds SA provides investments measured at fair value. Below is the basis for valuation of these investments.

(i) Inflation Linked Securities Taxable

The Inflation Linked Securities Taxable portfolio invests in discretely managed portfolios and internal inflation linked securities. Discretely managed portfolios are invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at balance date.

Internally managed inflation linked securities, the returns of which are linked to movements in either the Consumer Price Index or Average Weekly Earnings, have been valued using the discounted cash flow method. The valuation as at balance date was performed by an independent valuer.

Super SA Retirement Investment Fund

(ii) Property Taxable

The Property Taxable portfolio comprises two sub sectors:

Listed Property Trusts

These investments comprise arrangements whereby professional fund managers are appointed under an investment management agreement to manage and invest in listed property securities and real estate investment trusts. Investments in this sub-sector are in pooled funds and have been valued in accordance with the valuations supplied by the managers.

Unlisted property vehicles

The unlisted property vehicles portfolio is invested and managed by external managers. Investments in this sub-sector have been valued in accordance with the valuations supplied by the managers.

(iii) Australian Equities Taxable

The Australian Equities Taxable portfolio comprises investments in listed Australian equities, and is invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at balance date.

(iv) International Equities Taxable

The International Equities Taxable portfolio comprises investments in equities listed on international share markets, and is invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at balance date. Investments in pooled international vehicles have been valued in accordance with the valuations supplied by the managers. Currency conversions have been made at the spot market mid rates applicable at balance date where applicable.

(v) Fixed Interest

Fixed Interest portfolios have exposure to domestic and global debt instruments and is managed by external managers. The custodian appointed to hold the assets has valued the portfolio using market prices applicable at balance date.

(vi) Diversified Strategies Growth Taxable

The Diversified Strategies Growth Taxable asset class incorporates two sub sectors:

Private Markets Taxable

The Private Markets Taxable portfolio comprises investments in Australian and international private equity funds, which are invested and managed by external managers. The valuation of private equity investments is based on the most recent valuation performed by the fund managers plus or minus cash flows between the last valuation date and the reporting date. Both Australian and international private equity valuations are generally in accordance with the International Private Equity and Venture Capital Valuation Guidelines. Investments in the pooled funds have been valued in accordance with the valuations supplied by the managers. Currency conversions have been made at the spot market mid-rates applicable at balance date where applicable.

Super SA Retirement Investment Fund

Core Infrastructure Taxable

The Core Infrastructure Taxable portfolio comprises investments in Australian and international infrastructure pooled funds, which are invested and managed by external managers. The valuation of these investments is based on the most recent valuation performed by the fund managers plus or minus cash flows between the last valuation date and the reporting date. Investments in the pooled funds have been valued in accordance with the valuations supplied by the managers. Currency conversions have been made at the spot market mid-rates applicable at balance date where applicable.

(vii) Diversified Strategies Income

The Diversified Strategies Income asset class incorporates four sub sectors:

Defensive Alternatives

The Defensive Alternatives portfolio comprises investments in Australian and international pooled funds and is invested and managed by external managers. Investments in the pooled funds have been valued in accordance with the valuations supplied by the managers. Currency conversions have been made at the spot market mid-rates applicable at balance date where applicable.

Credit

The Credit portfolio comprises investments in discretely managed investments and Australian and international pooled funds and is invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at the balance date. Investments in the pooled funds have been valued in accordance with the valuations supplied by the managers. Currency conversions have been made at the spot market mid-rates applicable at balance date where applicable.

Investment Grade Credit

The Investment Grade Credit portfolio comprises investments in discretely managed investments and is invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at the balance date. Currency conversions have been made at the spot market mid-rates applicable at balance date where applicable.

Growth Alternatives

The Growth Alternatives portfolio comprises investments in discretely managed investments and Australian and international pooled funds and is invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at the balance date. Investments in the pooled funds have been valued in accordance with the valuations supplied by the managers. Currency conversions have been made at the spot market mid-rates applicable at balance date where applicable.

(viii) Cash

The Cash portfolio comprises investments in a discretely managed investment which is managed by an external manager and is valued by the custodian appointed to hold the assets using market prices applicable at balance date. Deposits at call have been valued on the basis of principal plus accrued interest.

Super SA Retirement Investment Fund

(ix) Socially Responsible

The Socially Responsible portfolio actively incorporates the consideration of environmental, social and governance factors in their investment decisions and avoids investing in companies operating in areas of high negative social impact. The portfolio comprises investments in equities listed on Australian and international share markets and is invested and managed by external managers along with a number of international and domestic pooled fund investments.

Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at balance date. Investments in pooled vehicles have been valued in accordance with the valuations supplied by the managers. Currency conversions have been made at the spot market mid rates applicable at balance date where applicable.

o) **Operation of investment portfolio**

Funds SA is responsible for the investment and management of the Fund's funds pursuant to strategies formulated by Funds SA (refer Note 1 (c)). Funds SA operates a multi layered notional unitisation structure to facilitate the administration of different investment strategies applying to the various public sector superannuation funds. For the year ending 30 June 2023, Funds SA managed seven (2022: seven) distinct investment options for the Fund which were available to investors, each differing by strategic asset allocation:

- High Growth
- Balanced
- Moderate
- Stable
- Capital Defensive
- Cash
- Socially Responsible

Reference should be made to Funds SA's Annual Report for the strategic asset allocations applying to each of the investment options discussed in the preceding paragraphs.

p) **Significant accounting judgements, estimates and assumptions**

The preparation of the Fund's financial statements requires management to make judgments, estimates and assumptions that affect the amounts recognised in the financial statements. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future.

The significant accounting policies have been consistently applied in the current financial year and the comparative period, unless otherwise stated. Where necessary, comparative information has been presented to be consistent with current period disclosures.

Fair value of investments

When the fair values of the investments recorded in the statement of financial position cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including a discounted cash flow model. The inputs in these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required to establish fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility.

Super SA Retirement Investment Fund

Changes in assumptions about these factors could affect the reported fair value of these investments.

It is also important to note that fair values are accepted directly from Funds SA.

q) Climate change financial risks

In November 2021, Australian Prudential Regulation Authority (APRA) released Prudential Practice Guide CPG 229 Climate Change Financial Risks. CPG 229 does not impose new requirements in relation to climate risks, rather, it supports compliance with APRA's existing risk management and governance requirements and guidance. The Board and Super SA consider financial risks of climate change, including physical climate risks, transition climate risks, and liability risks as part of the overall Super SA Risk Management Strategy.

Additionally, as identified in Note 1 as per above, the investments of the fund are managed by Funds SA. Funds SA, in turn, is committed to risk management and maintains a rigorous and proactive approach to identifying and managing investment risk, including the risks associated with climate change. Funds SA has developed a Climate Change Position Statement and Climate Risk Response Plan to support its approach in this area. Please refer to the Funds SA website for further detail.

3) Member benefit liabilities

Members are defined contribution members and bear the investment risk relating to the underlying assets and unit prices used to measure the member liabilities. Member account balances are determined by unit prices that are determined based on the underlying investment movements. Unit prices are updated daily. Refer to Note 16 for the Fund's management of the investment risks.

	Flexible Rollover Product		Income Stream		Totals	
	2023	2022	2023	2022	2023	2022

Super SA Retirement Investment Fund

5) Fair value of financial instruments

Classification of financial Instruments under the fair value hierarchy

AASB 13 requires disclosures relating to fair value measurements using a three-level fair value hierarchy. The level within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement. Assessing the significance of a particular input requires judgement, considering factors specific to the asset or liability. The following table shows financial instruments recognised at fair value, categorised between those whose fair value is based on:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

Valuations are the responsibility of the Board. The valuation of investments is performed daily and are subject to quality assurance procedures.

After the checks above have been performed the Board considers the valuation results, including assumptions used in the valuations.

The Board also considers the appropriateness of the valuation methods and inputs, and may request that alternative valuation methods are applied to support the valuation arising from the method chosen.

Valuation technique

The Fund's investments are not quoted in an active market. To ensure fair value can be determined, the Fund's investment manager, Funds SA, applies due diligence and considers valuation techniques and inputs used in valuing the funds, prior to investing. In measuring fair value, consideration is given to the amounts for which financial assets can be sold, excluding transaction costs. The Fund classifies these funds as Level 2.

There were no changes in valuation techniques during the year.

Financial assets at fair value through profit or loss – Level 2

Level 1 and level 3 are not relevant to the Fund

	Flexible Rollover Product		Income Stream		Totals

\$000	\$000	\$000	\$000	\$000	\$000

(c) Deferred tax liabilities/(assets)

The amount of deferred tax liability recognised in the Statement of Financial Position at reporting date is made up as follows:

Accrued expenses and realised capital losses (discounted)	(1 438)	(2)	(243)	(1)	(1 681)	(3)
Unrealised capital gains /(losses) carried forward (discounted)	21 381	8 036	1 980	(1 067)	23 361	6 969
Deferred tax liabilities/(assets)	19 943	8 034	1 737	(1 068)	21 680	6 966

The Scheme offsets tax assets and liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets.

12) Reconciliation of cash and cash equivalents

For the purpose of the statement of cash flows, cash and cash equivalents includes cash and deposits in the Flexible Rollover Product and Income Stream Deposit Accounts held with DTF. Cash at the end of the reporting period as shown in the statement of cash flows is reconciled to the related item in the statement of financial position as follows:

Super SA Retirement Investment Fund

13) Administration Fee Reserve

The surplus attributable to administration fees for both Income Stream and Flexible Rollover Product included in funds under management were initially recognised in March 2014 as Administration Reserves. The reserves are credited with administration fees deducted from member accounts and debited with the costs incurred in administering the funds.

	Flexible Rollover Product		Income Stream		Totals	
	2023	2022	2023	2022	2023	2022
	\$000	\$000	\$000	\$000	\$000	\$000
Opening balance	4 448	5 576	9 272	17 285	13 720	22 861
Investment earnings ⁽ⁱ⁾	437	(223)	1 040	(649)	1 477	(872)
Administration fees	1 321	1 252	3 726	3 628	5 047	4 880
Administration expenses	(1 082)	(1 064)	(3 058)	(3 109)	(4 140)	(4 173)
Operating result	676	(35)	1 708	(130)	2 384	(165)
Transfer to/(from) Reserve ⁽ⁱⁱ⁾	-	(1 093)	-	(7 883)	-	(8 976)
Closing balance	5 124	4 448	10 980	9 272	16 104	13 720

⁽ⁱ⁾ The Administration Reserves are notionally invested in the Balanced Option. The rate of return on earnings were: FRP: 8.9 per cent (2022: -4.92 per cent), IS: 10.1 per cent (2022: -5.78 per cent) and TRIS: 10.2 per cent (2022: -2.64 per cent).

⁽ⁱⁱ⁾ The Flexible Rollover Product prior year amount relates to the Board approved reversal of the transfers of accumulated investment earnings from the Triple S Scheme's Insurance Reserve (\$1.1 million). The Income Stream amount relates to the Board approved reversal of the transfers of accumulated investment earnings from the Triple S Scheme's Insurance Reserve (\$7.9 million).

14) Insurance Reserve

The surplus attributable to the insurance pool for the Flexible Rollover Product was initially recognised in March 2014 as an Insurance Reserve and operates on a self-insurance basis. This reserve is credited with insurance deductions from member accounts and debited with the value of benefits paid to members. Insurance is not offered through Income Stream.

	Flexible Rollover Product		Income Stream		Totals	
	2023	2022	2023	2022	2023	2022
	\$000	\$000	\$000	\$000	\$000	\$000
Opening balance	1 244	757	-	-	1 244	757

Transfer to/(from) Reserve ⁽ⁱⁱ⁾	-	-	-	-	-	-
Closing balance	1 670	1 244	-	-	1 670	1 244

⁽ⁱ⁾ The Insurance Reserve is notionally invested in the Balanced option. The rate of return on earnings was: 8.9 per cent (2022: -4.92 per cent).

Super SA Retirement Investment Fund

15) Operational Risk Reserve

The Operational Risk Reserves (ORR) for Income Stream and Flexible Rollover Product were established at 31 December 2012 at 0.20 per cent of funds under management. From April 2016, members were charged a fee (0.04 per cent FRP, 0.05 per cent IS/TRIS) via a reduction to the unit prices in order to build the reserves to a target rate (0.45 per cent FRP, 0.20 per cent IS/TRIS) of funds under management. From March 2018, the fee charged to FRP members was increased from 0.04 per cent to 0.05 per cent, IS/TRIS remained unchanged at 0.05 per cent until June 2019. From July 2019 to December 2019 the fee charged to IS/TRIS members was reduced to 0.025 per cent, from January 2020 the rate was further reduced to 0.0125 per cent and remained unchanged for the year ended 30 June 2023. The FRP rate again remained unchanged at 0.05 per cent for the year.

	Flexible Rollover Product		Income Stream		Totals	
	2023 \$000	2022 \$000	2023 \$000	2022 \$000	2023 \$000	2022 \$000
Opening balance	5 678	5 072	4 118	4 923	9 796	9 995
Investment earnings ⁽ⁱ⁾	577	(296)	331	(297)	908	(593)
ORR fee	932	911	578	577	1 510	1 488
Payments from Reserve	(62)	(9)	(769)	(1 085)	(831)	(1 094)
Operating result	1 447	606	140	(805)	1 587	(199)
Transfer to/(from) Reserve	-	-	-	-	-	-
Closing balance	7 125	5 678	4 258	4 118	11 383	9 796

⁽ⁱ⁾ The ORRs are notionally invested in the Balanced Option. The rate of return on earnings were: FRP: 8.9 per cent (2022: -4.92 per cent), IS: 10.1 per cent (2022: -5.78 per cent) and TRIS: 10.2 per cent (2022: -2.64 per cent).

16) Financial risk management objectives and policies

The Fund's investments are managed by Funds SA predominantly by the appointment of investment managers as determined by the Funds SA Board. Each investment manager is required to invest the assets in accordance with the terms of a written mandate. The Funds SA Board has determined that the appointment of these managers is appropriate for the Fund and is in accordance with the Fund's investment strategy. The Funds SA Board obtains regular reports from each manager on the nature of the investments made on its behalf and the associated risks.

The allocation of assets between the various types of financial instruments is determined by the Funds SA Board. Divergence from target asset allocations and the composition of the portfolio is monitored by the Funds SA Board on a regular basis.

The Fund's investing activities expose it to the following risks from its use of financial instruments:

- market risk
- credit risk
- liquidity risk.

The nature and extent of the financial instruments employed by the Fund are discussed below. This note presents information about the Fund's exposure to each of the above risks, the Fund's objectives, policies and processes for measuring and managing risk.

The Funds SA Board has overall responsibility for the establishment and oversight of the Fund's investment risk management framework.

Super SA Retirement Investment Fund

The Fund's investment risk management policies are established to identify and analyse the risks faced by the Fund, including those risks managed by the Fund's investment managers, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Fund's activities.

The Board receives regular reports from Funds SA concerning compliance with the Fund's investment objectives.

a) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Fund's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return on risk.

Funds SA manages the risk of financial market volatility through the adherence to two principles:

- ensuring a diversity of exposures to different financial markets and sub-markets, and
- ensuring asset allocations for different investment options are consistent with the time horizon of each.

(i) Currency risk

Currency risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of a change in foreign exchange rates.

The Fund's currency risk is managed by Funds SA as investments include assets denominated in foreign currencies.

Funds SA strategic policy for the management of its foreign currency exposure is as follows:

- foreign currency exposures in the Private Markets Tax-Exempt, Private Markets Taxable, Core Infrastructure Tax- Exempt, Core Infrastructure Taxable, Credit, Long Term Fixed Interest and Inflation Linked Securities Taxable asset classes are economically hedged to Australian dollars, and
- foreign currency exposures over the developed markets component of the International Equities Tax-Exempt, International Equities Taxable, International Equities Passive Tax-Exempt and International Equities Passive Taxable asset classes are economically hedged to Australian dollars.

For the purpose of managing foreign currency risk, within defined constraints, the exposure to foreign currency can be varied from the strategic policy stated above.

(ii) Interest rate risk

Interest rate risk is the risk that a movement in interest rates will cause the value of fixed interest securities to deviate from expectations.

The Fund's interest rate risk is managed by Funds SA, as investments include fixed interest securities.

Funds SA manages interest rate risk through:

- ensuring asset allocations of different investment products are consistent with the time horizon of each, and
- the use of specialist external investment managers to manage Funds SA's cash and fixed income portfolios.

Super SA Retirement Investment Fund

(iii) Other market price risk

Other market price risk is the risk that the value of the instrument will fluctuate as a result of changes in market prices, whether caused by factors specific to an individual investment, its issuer or all factors affecting all instruments traded in the market.

As the Fund's financial instruments are valued at fair value with changes in fair value recognised in the income statement, all changes in market conditions will directly affect investment revenue.

The Fund's other market price risk is managed by Funds SA, as investments include financial instruments exposed to market prices.

Funds SA manages the risk of financial market volatility through the adherence to two principles:

- ensuring a diversity of exposures to different financial markets and sub markets, and
- ensuring asset allocations for different investment options are consistent with the time horizon of each.

(iv) Investments sensitivity analysis

The Funds SA Board has determined that its forecast risk/return profile provides a reasonable measure of the sensitivity of the expected returns in each investment option. The following tables show the standard deviation around expected nominal returns for each investment option.

Socially Responsible Investment Taxable	4.7	8.9	35 178	3 131

Market risk is a useful historical measure of the variability of returns earned by an investment portfolio. The market risk shown above represents the range at which actual future returns are expected to occur either side of the nominal return approximately two thirds of the time.

The dollar value of the potential impact on the income statement arising from the market risk is indicative only. The impacts are not additive across investment asset classes, as each asset class operates in different markets and is subject to different conditions.

Actual movements in returns may be greater or less than anticipated due to a number of factors, including unusually large market shocks resulting from changes in the performance of the economies, markets and securities in which the underlying trusts invest. As a result, historic variations in rates of return are not a definitive indicator of future variations in rates of return.

Super SA Retirement Investment Fund

b) Credit risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund.

The fair value of financial assets, included in the statement of financial position represents the Fund's maximum exposure to credit risk in relation to those assets. Funds SA is the Fund's only significant exposure to any individual counterparty or industry. The credit risk is monitored by Funds SA through ongoing reviews of the investment managers.

The Fund does not have any assets which are past due or impaired and there is no concentration of credit risk other than Funds SA.

c) Liquidity risk

Liquidity risk is the risk that the Fund will not be able to meet its financial obligations as they fall due. The Fund's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its payment of benefits to members and liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Fund's reputation.

For the Fund's investments, Funds SA manages liquidity risk as follows:

- by giving careful consideration to the expected net cash redemption requirements of Funds SA's clients. The allocation to cash in the strategic asset allocation of each investment product is set at a level sufficient to manage expected cash redemptions,
- a large proportion of each investment product is invested in highly liquid investments such as actively traded equities, unit trusts or securities with short-term maturities,
- reporting and monitoring the liquidity of the fund on a daily basis to ensure prospective client cash outflows and switches can be met,
- by undertaking portfolio management and rebalancing activities, and
- by undertaking regular stress testing on liquidity positions to identify sources of liquidity strain before they are realised.

For the Fund itself, the liquidity position is monitored on a daily basis. The Fund's cash and liquidity policy is to have sufficient cash balances to meet anticipated weekly benefit payments, expenses and investing activities.

Super SA Retirement Investment Fund

The following tables summarise the contractual maturity profile of the Fund's financial liabilities based on the earliest date on which the Fund can be required to pay. The amounts in the table are the contractual undiscounted cash flows.

	Less than 3 Months \$000	Total Contractual Cash Flows \$000	Carrying Amount Liabilities \$000
2023			
Benefits payable	14 585	14 585	14 585
Payables ⁽ⁱ⁾	6	6	6
Vested benefits ⁽ⁱⁱ⁾	6 768 580	6 768 580	6 768 580
Total	6 783 171	6 783 171	6 783 171
2022			
Benefits payable	16 349	16 349	16 349
Payables ⁽ⁱ⁾			
Vested benefits ⁽ⁱⁱ⁾	6 137 985	6 137 985	6 137 985
Total	6 154 334	6 154 334	6 154 334

(i) Payable amounts disclosed here exclude amounts relating to constructive obligations and statutory payables (e.g. Commonwealth, State and Local Government taxes, fees and charges, Auditor-General's Department audit fees).

(ii) Vested benefits have been included in the "Less than 3 Months" column, as this is the amount that members could call upon as at balance date. This is the earliest date on which the Scheme can be required to pay members vested benefits, however, members may not necessarily call upon amounts vested to them during this time.

d) Derivative financial instruments

Derivatives can be defined as financial contracts whose value depends on, or is derived from, assets, liabilities, reference rates or indices. Funds SA uses derivatives to manage portfolio risk and to facilitate the implementation of investment strategies efficiently and cost effectively. Funds SA uses a variety of derivative instruments, such as over the counter swap agreements, forward rate agreements, futures and options.

Derivatives are an authorised investment within certain mandates managed by Funds SA's external investment managers for the purposes described above.

17) Unallocated to members' accounts

Defined contribution funds carry a proportion of amounts yet to be allocated. This unallocated amount arises because the financial report of the Fund is prepared on an accrual basis while monies are allocated to members on a cash basis.

The Fund also values the investments reported in the financial statements at fair value (refer Notes 2(c)(e) and 5) while the unit prices used to determine the member benefit liabilities are based on soft close unit prices. This difference in valuation is reflected in the investment allocation amount in the statement of financial position.

Super SA Retirement Investment Fund

18) Segment information

The Fund operates in one reportable segment, being the provision of benefits to members. The Fund also operates from one reportable geographic segment, being Australia, from where its activities are managed. While the Fund operates from Australia only, the Fund, through its investment managers Funds SA, has investment exposures in different countries and across different industries. Revenue derived from interest and the realised and unrealised changes from the different segments is reflected in the value of investments.

19) Related parties

a) Key management personnel

The key management personnel of the Fund includes the Treasurer, Board members, the Chief Executive and the six members of the Executive Leadership Team, State Superannuation Office who have responsibility for the strategic direction and management of the Fund.

b) Compensation

All key management personnel are compensated by the Department of Treasury and Finance or the Board, therefore their compensation is disclosed in the respective financial reports.

c) Transactions with key management personnel and other related parties

There were no transactions requiring disclosure for key management personnel or related parties.

d) Transactions with other government entities

There were no significant transactions with government entities other than those disclosed elsewhere in the financial statements.

20) Events after the reporting period

There were no significant events after the reporting period.

Super SA Retirement Investment Fund

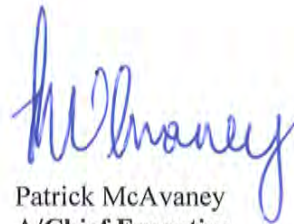

Certification of the financial statement

We certify that the:

- financial statements of the Super SA Retirement Investment Fund:
 - are in accordance with the accounts and records of the Fund,
 - comply with relevant Treasurer's instructions,
 - comply with relevant accounting standards, and
 - present a true and fair view of the financial position of the Fund at the end of the financial year and the result of its operations and cash flows for the financial year.
- internal controls employed by the Fund for the financial year over its financial reporting and its preparation of the financial statements have been effective.

South Australian Superannuation Board
South Australian Ambulance Service Superannuation Scheme**

Opinion

I have audited the financial report of the South Australian Ambulance Service Superannuation Scheme for the financial year ended 30 June 2023.

In my opinion, the accompanying financial report gives a true and fair view of the financial position of the South Australian Ambulance Service Superannuation Scheme as at 30 June 2023, its financial performance and its cash flows for the year then ended in accordance with relevant Treasurer's Instructions issued under the provisions of the *Public Finance and Audit Act 1987* and Australian Accounting Standards.

The financial report comprises:

- a Statement of Financial Position as at 30 June 2023
- an Income Statement for the year ended 30 June 2023
- a Statement of Changes in Member Benefits for the year ended 30 June 2023
- a Statement of Changes in Equity for the year ended 30 June 2023
- a Statement of Cash Flows for the year ended 30 June 2023
- notes, comprising material accounting policy information and other explanatory information
- a Certificate from the Presiding Member of the South Australian Superannuation Board, the Acting Chief Executive, State Superannuation Office, and the Director Finance, State Superannuation Office.

Basis for opinion

I conducted the audit in accordance with the *Public Finance and Audit Act 1987* and Australian Auditing Standards. My responsibilities under those standards are further described in the 'Auditor's responsibilities for the audit of the financial report' section of my report. I am independent of the South Australian Ambulance Service Superannuation Scheme. The *Public Finance and Audit Act 1987* establishes the independence of the Auditor-General. In conducting the audit, the relevant ethical requirements of APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* have been met.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Responsibilities of the Acting Chief Executive, State Superannuation Office and the members of the South Australian Superannuation Board for the financial report

The Acting Chief Executive, State Superannuation Office is responsible for the preparation of the financial report that gives a true and fair view in accordance with relevant Treasurer's Instructions issued under the provisions of the *Public Finance and Audit Act 1987* and the Australian Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the Acting Chief Executive, State Superannuation Office is responsible for assessing the South Australian Ambulance Service Superannuation Scheme's ability to continue as a going concern, taking into account any policy or funding decisions the government has made which affect the continued existence of the entity. The Acting Chief Executive, State Superannuation Office is also responsible for disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the assessment indicates that it is not appropriate.

The members of the South Australian Superannuation Board are responsible for overseeing the entity's financial reporting process.

Auditor's responsibilities for the audit of the financial report

As required by section 31(1)(b) of the *Public Finance and Audit Act 1987* and section 9 of schedule 3 of the Superannuation Act 1988, I have audited the financial report of South Australian Ambulance Service Superannuation Scheme for the financial year ended 30 June 2023.

My objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with Australian Auditing Standards, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

- identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the and section 9 of schedule 3 of the Superannuation Act 1988, I have audited the financial report of South Australian Ambulance Service Superannuation Scheme's internal control
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Acting Chief Executive, State Superannuation Office
- conclude on the appropriateness of the Acting Chief Executive, State Superannuation Office's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify the opinion. My conclusion is based on the audit evidence obtained up to the date of the auditor's report. However, future events or conditions may cause an entity to cease to continue as a going concern
- evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

My report refers only to the financial report described above and does not provide assurance over the integrity of electronic publication by the entity on any website nor does it provide an opinion on other information which may have been hyperlinked to/from the report.

South Australian Ambulance Service Superannuation Scheme

Notes to the Financial Statements

1) Objectives and funding

a) South Australian Ambulance Service Superannuation Scheme

On 29 June 2006, the Treasurer declared the South Australian Ambulance Service Superannuation Scheme (the Scheme) a Scheme and Fund established pursuant to Clause 2 of Schedule 3 of the *Superannuation Act 1988* (the Act). The net assets of the SA Ambulance Service Superannuation Fund (the former scheme) as at 30 June 2006 were transferred to the Scheme. The Scheme is an exempt public sector superannuation scheme in terms of schedule 1AA of the *Superannuation Industry (Supervision) Regulations 1994 (Cwlth)*. The Scheme is a taxed scheme by virtue of schedule 4 of the *Income Tax Assessment Regulations 1997 (Cwlth)*.

The Scheme is governed by a Trust Deed and Rules pursuant to the Act and became effective from 1 July 2006. The Scheme's membership includes contributory, non contributory, spouse, and preserved members. The main benefit for contributory members is a defined benefit. Non contributory, spouse and preserved members are entitled to accumulation benefits.

Benefits are represented by the balances of all member accounts that are available for employees who meet certain conditions. These conditions may include the following:

- Retirement
- Resignation and meet a condition of release
- Retrenchment
- Election of Transition to Retirement or Early Access to Super while still an employee of the SA Public Sector
- Death or becoming terminally ill
- Termination of their employment due to invalidity.

The balance of individual member entitlements is provided in annual statements provided to each member.

Member and employer contributions are deposited by the Treasurer into the fund established for the Scheme (the Fund), which is managed and invested by the Superannuation Funds Management Corporation of South Australia (Funds SA). The Scheme was closed to further new members with effect from 1 July 2008.

The Scheme is an exempt public sector superannuation scheme and operates on a not-for-profit basis.

b) South Australian Superannuation Board

Pursuant to Clause 2(1)(d) of Schedule 3 of the Act, the Treasurer declared the South Australian Superannuation Board (the Board) the Trustee of the Scheme from 1 July 2006. As Trustee of the Scheme, the Board is responsible for administering the Trust Deed and Rules.

c) Superannuation Funds Management Corporation of South Australia

Funds SA is a South Australian Government Entity established under the *Superannuation Funds Management Corporation of South Australia Act 1995* (the Funds SA Act). Funds SA is responsible for the investment and management of the Fund pursuant to strategies formulated by Funds SA.

Pursuant to Clause 2(1)(c) of Schedule 3 of the Act, the Treasurer declared the Fund to be invested and managed by Funds SA from 1 July 2006.

South Australian Ambulance Service Superannuation Scheme

For further information on the investment of the Scheme's funds, reference should be made to the Fund in the annual report of Funds SA. The financial report of Funds SA discloses the investment assets, liabilities, income and expenses relating to the investment activities of Funds SA.

d) Funding Arrangements

For the year ended 30 June 2023, contributory members contributed 5 per cent of post tax salary or 5.9 per cent of pre tax salary. Members could also make additional voluntary contributions on either a pre tax or post tax basis. The employer contributed at the rate of 12 per cent of member salaries. For members who were entitled to the SA Ambulance Service Award superannuation benefit under the Scheme, the employer contributed an additional 3 per cent of salaries (3 per cent for Elective Services employees and Emergency Services staff).

Non contributory members are employees employed on a casual basis or those employees who elected prior to 30 June 2006 to not be a defined benefit member. Non contributory members may make voluntary post tax or pre tax contributions. The employer contribution for non contributory members is 9.5 per cent (2022: 10 per cent) of salary.

The employer contributions above are in line with the 30 June 2020 triennial actuarial review recommendations and were effective on 1 July 2021. The next triennial actuarial review will be performed as at 30 June 2023.

Provision of insurance cover for Death, Total and Permanent Disablement, Serious Ill-Health and Income Protection under a self-insurance arrangement within the Scheme commenced from 1 July 2006. The weekly voluntary insurance contribution rate was retained at \$1.35 per unit, as part of the triennial actuarial review, the recommended self insurance reserve is to be maintained at 200 per cent of one year's expected claim cost.

The asset coverage of vested benefits as at 30 June 2023 met the target of 105 per cent.

2) Significant accounting policies

a) Basis of accounting

The financial statements have been prepared in accordance with relevant Australian Accounting Standards, including AASB 1056 Superannuation Entities and other authoritative pronouncements of the Australian Accounting Standards Board, Treasurer's Instructions and Accounting Policy Statements promulgated under the provision of the Public Finance and Audit Act 1987 (PFAA), except as provided below.

These financial statements have been prepared on the basis of fair value measurement of assets and liabilities, except where otherwise stated.

These financial statements are prepared on a 12-month reporting period, presented in Australian currency and all amounts have been rounded to the nearest thousand dollars (\$000).

The Scheme is a not-for-profit entity for the purpose of preparing financial statements.

South Australian Ambulance Service Superannuation Scheme

b) *New and amended accounting standards*

There are no standards, interpretations or amendments to existing standards that are effective for the first time for the financial year beginning 1 July 2022 that have a material impact on the amounts recognised in the prior or current periods or that will affect future periods.

Certain new accounting standards and interpretations have been published that are not mandatory for the 30 June 2023 financial year and have not been early adopted by the Scheme other than AASB 2021-2 which was adopted from 1 July 2021. These standards and interpretations are not expected to have a material impact on the Scheme.

c) *Financial assets and liabilities*

(a) Classification

The Scheme classifies its financial assets and financial liabilities into the categories below in accordance with AASB 9.

Financial assets and liabilities held for trading

These assets are acquired principally for the purpose of generating a profit from short-term fluctuation in price. All derivatives are classified as held for trading. Derivative financial instruments entered into by the Scheme, if any, do not meet the hedge accounting criteria as defined by AASB 9. Consequently hedge accounting is not applied by the Scheme.

Financial instruments designated at fair value through profit or loss upon initial recognition

These financial assets are designated on the basis that they are part of a group of financial assets which are managed and have their performance evaluated on a fair value basis in accordance with risk management and investment strategies of the Fund.

Other financial liabilities

This category includes all financial liabilities, other than those classified at fair value through profit or loss. Other financial liabilities are measured at their nominal amounts. Amounts are generally settled within 30 days of being recognised as other financial liabilities. Given the short-term nature of other financial liabilities, the nominal amount approximates fair value.

(b) Recognition

The Scheme recognises a financial asset or a financial liability when, and only when, it becomes a party to the contractual provisions of the instrument.

Purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the marketplace are recognised on the trade date, i.e. the date that the Scheme commits to purchase or sell the asset.

(c) Initial recognition

Financial assets and financial liabilities at fair value through profit and loss are recorded in the statement of financial position at fair value. All transaction costs for such instruments are recognised directly in the income statement.

Receivables and financial liabilities (other than those classified at fair value through profit or loss) are measured initially at their fair value plus any directly attributable incremental costs of acquisition or issue.

South Australian Ambulance Service Superannuation Scheme

For financial assets and liabilities where the fair value at initial recognition does not equal the transaction price, the Scheme recognises the difference in the income statement, unless specified otherwise.

(d) Subsequent measurement

After initial measurement, the Scheme measures investments at fair value through profit or loss. Subsequent changes in the fair value of those investments are recorded as 'changes in assets measured at fair value' through the income statement. Interest earned is recorded in 'Interest revenue'.

(e) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability, or
- in the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Scheme.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The Scheme uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy. Refer to financial statement note 5.

(f) Cash and cash equivalents

Cash and short-term deposits in the statement of financial position comprise cash at bank and in hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purposes of the statement of cash flows, cash and cash equivalents consist of cash and short term deposits as defined above.

(g) Receivables and payables

Receivables are carried at nominal amounts due that approximate fair value. Receivables are normally settled within 30 days. Payables are carried at nominal amounts that approximate fair value. They represent liabilities for goods and services provided to the Scheme prior to the end of the financial year that are unpaid when the Scheme becomes obliged to make future payments in respect of the purchase of these goods or services.

South Australian Ambulance Service Superannuation Scheme

(h) Benefits payable

Benefits payable are valued at fair value and relate to members who have ceased employment and provided the Scheme with appropriate notification on or prior to 30 June 2023 but paid after 30 June 2023. These also include income protection payments payable on or prior to 30 June 2023 but paid after 30 June 2023.

(i) Insurance liabilities

The Scheme provides death and disability benefits to Contributory Members in Service, members may also purchase voluntary insurance. Premiums for voluntary insurance are deducted from insured members' accounts and are paid into a dedicated insurance reserve in order to meet claims as they arise. An actuarially determined percentage of defined benefit employer contributions are also paid into the reserves. The Scheme ultimately self-insures this risk as the Board believes it is appropriate in light of the Scheme's present membership and reserve levels. The table below outlines the net results of the Scheme's insurance activities during the year:

Insurance activities	2023 \$000	2022 \$000
Insurance contract revenue	487	459
Insurance contract claims expenses	(678)	(346)
(Increase)/decrease in insurance liabilities	25	10
Net result from insurance activities	(166)	123

(j) Significant estimates made in measuring insurance contract asset and liabilities

The Scheme uses the services of an actuary to determine its insurance contract assets and liabilities. An actuarial valuation involves making various assumptions about the future. Actual events in the future may differ from these assumptions. The most recent actuarial valuation was performed for the triennium ending 30 June 2023. The value of insurance liabilities between actuarial valuation dates is determined by evaluating the expected claims over the next year based on the assumptions adopted at the most recent actuarial valuation.

The key assumptions used in measuring the insurance contract liabilities are:

- mortality and disability rates determined by Super SA based on the experience of a large number of public sector employees in South Australia, adjusted to estimate the Scheme's claim experience,
- the number and amount of insurance claims yet to be reported to the Scheme, relating to the period prior to the reporting year end.

The key factors or uncertainties that impact the key assumptions above are:

- if mortality and/or disability rates increase, it will result in an increase in insurance liabilities as a result of higher claims and will lead to a decline in the net assets of the Scheme,
- higher than expected claims reported to the Scheme will result in an increase in insurance liabilities and will lead to a decline in the net assets of the Scheme, and
- a better than expected claims experience will result in lower liabilities and an increase in net assets of the Scheme.

South Australian Ambulance Service Superannuation Scheme

The impact of uncertainties around the key assumptions is largely met from the insurance reserves in the Scheme. The adequacy of the insurance reserves are considered as part of the actuarial valuation.

(k) Revenue recognition

The specific recognition criteria described below must be met before revenue is recognised:

Changes in fair values

Changes in the fair value of investments invested with Funds SA are calculated as the difference between the fair value at sale, or at balance date, and the fair value at the previous valuation point. All changes are recognised in the income statement.

Interest

Interest revenue on cash and other financial assets carried at fair value is recorded according to the terms of the contract and recognised in the income statement.

(l) Taxation

The Scheme is a complying superannuation fund within the provisions of the *Income Tax Assessment Act 1997* and accordingly the concessional tax rate of 15 per cent has been applied.

Current tax

Current tax is calculated by reference to the amount of income tax payable or recoverable in respect of the taxable benefits accrued for the period. It is calculated using tax rates and tax laws that have been enacted or substantively enacted by reporting date. Current tax for current and prior periods is recognised as a liability (or asset) to the extent that it is unpaid (or refundable).

Deferred tax

Deferred tax is accounted for using the comprehensive balance sheet liability method in respect of temporary differences arising from differences between the carrying amount of assets and liabilities in the financial report and the corresponding tax base of those items.

In principle, deferred tax liabilities are recognised for all taxable temporary differences. Deferred tax assets are recognised to the extent that it is probable that sufficient taxable amounts will be available against which deductible temporary differences or unused tax losses and tax offsets can be utilised. However, deferred tax assets and liabilities are not recognised if the temporary differences giving rise to them arise from the initial recognition of assets and liabilities which affect neither taxable income nor accounting profit.

Deferred tax assets and liabilities are measured at the tax rates that are estimated to apply to the period(s) when the asset and liability giving rise to them are realised or settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by reporting date. The measurement of deferred tax liabilities and assets reflect the tax consequences that would follow from the manner in which the Scheme expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the Scheme intends to settle its current tax assets and liabilities on a net basis.

South Australian Ambulance Service Superannuation Scheme

(m) Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except:

- when the GST incurred on a sale or purchase of assets or services is not payable to or recoverable from the Australian Taxation Office (ATO), in which case the GST is recognised as part of the revenue or the expense item or as part of the cost of acquisition of the asset, as applicable, or
- when receivables and payables are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the ATO is included as part of receivables or payables in the statement of financial position. Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the ATO.

Cash flows are included in the statement of cash flows on a gross basis. The GST component of cash flows arising from investing activities, which is recoverable from, or payable to the ATO are classified as operating cash flows.

(n) Foreign currency

The functional and presentation currency of the Scheme is Australian Dollars, the currency of the primary economic environment in which the Scheme operates. The Scheme's performance is evaluated and its liquidity managed in Australian Dollars. Therefore, the Australian Dollar is considered as the currency that most faithfully represents the economic effects of the underlying transactions, events and conditions.

(o) Investments

Funds SA provides investments measured at fair value. Below is the basis for valuation of these investments.

(i) Inflation Linked Securities Taxable

The Inflation Linked Securities Taxable portfolio invests in discretely managed portfolios and internal inflation linked securities. Discretely managed portfolios are invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at balance date.

Internally managed inflation linked securities, the returns of which are linked to movements in either the Consumer Price Index or Average Weekly Earnings, have been valued using the discounted cash flow method. The valuation as at balance date was performed by an independent valuer.

(ii) Property Taxable

The Property Taxable portfolio comprises two sub sectors:

Listed Property Trusts

These investments comprise arrangements whereby professional fund managers are appointed under an investment management agreement to manage and invest in listed property securities and real estate investment trusts. Investments in this sub-sector are in pooled funds and have been valued in accordance with the valuations supplied by the managers.

Unlisted property vehicles

The unlisted property vehicles portfolio is invested and managed by external managers. Investments in this sub-sector have been valued in accordance with the valuations supplied by the managers.

South Australian Ambulance Service Superannuation Scheme

(iii) Australian Equities Taxable

The Australian Equities Taxable portfolio comprises investments in listed Australian equities, and is invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at balance date.

(iv) International Equities Taxable

The International Equities Taxable portfolio comprises investments in equities listed on international share markets, and is invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at balance date. Investments in pooled international vehicles have been valued in accordance with the valuations supplied by the managers. Where currency conversions are required, these have been made at the spot market mid rates applicable at balance date.

(v) Fixed Interest

Fixed Interest portfolios have exposure to domestic and global debt instruments and are managed by external managers. The custodian appointed to hold the assets has valued the portfolio using market prices applicable at balance date.

(vi) Diversified Strategies Growth Taxable

The Diversified Strategies Growth Taxable asset class incorporates two sub sectors:

Private Markets Taxable

The Private Markets Taxable portfolio comprises investments in Australian and international private equity funds, which are invested and managed by external managers. The valuation of private equity investments is based on the most recent valuation performed by the fund managers plus or minus cash flows between the last valuation date and the reporting date. Both Australian and international private equity valuations are generally in accordance with the International Private Equity and Venture Capital Valuation Guidelines. Investments in the pooled funds have been valued in accordance with the valuations supplied by the managers. Where currency conversions are required, these have been made at the spot market mid rates applicable at balance date.

Core Infrastructure Taxable

The Core Infrastructure Taxable portfolio comprises investments in Australian and international infrastructure pooled funds, which are invested and managed by external managers. The valuation of these investments is based on the most recent valuation performed by the fund managers plus or minus cash flows between the last valuation date and the reporting date. Investments in the pooled funds have been valued in accordance with the valuations supplied by the managers. Where currency conversions are required, these have been made at the spot market mid rates applicable at balance date.

(vii) Diversified Strategies Income

The Diversified Strategies Income asset class incorporates four sub sectors:

Defensive Alternatives

The Defensive Alternatives portfolio comprises investments in Australian and international pooled funds and is invested and managed by external managers. Investments in the pooled funds have been valued in accordance with the valuations supplied by the managers. Where currency conversions are required, these have been made at the spot market mid rates applicable at balance date.

South Australian Ambulance Service Superannuation Scheme

Credit

The Credit portfolio comprises investments in discretely managed investments and Australian and international pooled funds and is invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at the balance date. Investments in the pooled funds have been valued in accordance with the valuations supplied by the managers. Where currency conversions are required, these have been made at the spot market mid rates applicable at balance date.

Investment Grade Credit

The Investment Grade Credit portfolio comprises investments in discretely managed investments and is invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at the balance date. Where currency conversions are required, these have been made at the spot market mid rates applicable at balance date.

Growth Alternatives

The Growth Alternatives portfolio comprises investments in discretely managed investments and Australian and international pooled funds and is invested and managed by external managers. Discretely managed portfolios have been valued by the custodian appointed to hold the assets using market prices applicable at the balance date. Investments in the pooled funds have been valued in accordance with the valuations supplied by the managers. Where currency conversions are required, these have been made at the spot market mid rates applicable at balance date.

(viii) Cash

The Cash portfolio comprises investments in a discretely managed investment which is managed by an external manager and is valued by the custodian appointed to hold the assets using market prices applicable at balance date. Deposits at call have been valued on the basis of principal plus accrued interest.

(p) Operation of investment portfolio

Funds SA is responsible for the investment and management of the Scheme's funds pursuant to strategies formulated by Funds SA (refer Note 1 (c)). Funds SA operates a multi-layered notional unitisation structure to facilitate the administration of different investment strategies applying to the various public sector superannuation funds. For the year ending 30 June 2023, Funds SA managed the Balanced investment for the fund and reference should be made to Funds SA's Annual Report for the strategic asset allocations applying to the investment discussed in the preceding paragraphs.

(q) Member liabilities

Member liabilities are measured at the amount of accrued benefits.

Defined benefit member liabilities are measured as the amount of a portfolio of investments that would be needed, as at the reporting date, to yield future net cash inflows that would be sufficient to meet accrued benefits as at that date when they are expected to fall due.

Defined contribution member liabilities are measured as the amount of member account balances as at the reporting date.

South Australian Ambulance Service Superannuation Scheme

(r) Significant accounting judgements, estimates and assumptions

The preparation of the Scheme's financial statements requires management to make judgments, estimates and assumptions that affect the amounts recognised in the financial statements. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future.

The significant accounting policies have been consistently applied in the current financial year and the comparative period, unless otherwise stated. Where necessary, comparative information has been presented to be consistent with current period disclosures.

Fair value of investments

When the fair values of the investments recorded in the statement of financial position cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including a discounted cash flow model. The inputs in these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required to establish fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility.

Changes in assumptions about these factors could affect the reported fair value of these investments.

It is also important to note that fair values are accepted directly from Funds SA.

Valuation of defined benefits member liabilities

The amount of member liabilities in relation to defined benefits has been determined using actuarial valuation techniques and assumptions. An actuarial valuation involves making various assumptions about the future. Actual developments in the future may differ from these assumptions. The assumptions include member turnover, future investment returns, pension indexation rates, mortality rates and future salary increases. Due to the complexities involved in the valuation and its long term nature, defined benefit member liabilities are highly sensitive to changes in these assumptions. Assumptions are reviewed at each reporting date.

In determining the appropriate discount rate, the actuary considers an investment portfolio that reflects the opportunities reasonably available to the Scheme in the investment markets, and also reflects the Scheme's actual investments and investment strategy in respect of defined benefit member liabilities.

The mortality assumption is based on publicly available mortality tables. Future salary increases are based on the Wage Price Index produced by the Australian Bureau of Statistics and in consultation with the employer-sponsors.

(s) Climate change financial risks

In November 2021, Australian Prudential Regulation Authority (APRA) released Prudential Practice Guide CPG 229 Climate Change Financial Risks. CPG 229 does not impose new requirements in relation to climate risks, rather, it supports compliance with APRA's existing risk management and governance requirements and guidance. The Board and Super SA consider financial risks of climate change, including physical climate risks, transition climate risks, and liability risks as part of the overall Super SA Risk Management Strategy.

South Australian Ambulance Service Superannuation Scheme

Additionally, as identified in note 1 above, the investments of the scheme are managed by Funds SA. Funds SA, in turn, is committed to risk management and maintains a rigorous and proactive approach to identifying and managing investment risk, including the risks associated with climate change. Funds SA has developed a Climate Change Position Statement and Climate Risk Response Plan to support its approach in this area. Please refer to the Funds SA website for further detail.

3) Defined benefit member liabilities

Actuarial valuations to determine the defined benefit members' accrued liabilities are conducted at least every three years. The most recent actuarial valuation was undertaken by Esther Conway, Fellow of the Institute of Actuaries of Australia from Mercer Consulting (Australia) Pty Limited. The actuarial valuation was undertaken as at 30 June 2023 with the next triennial valuation to be undertaken as at 30 June 2026.

The actuarial valuation of member liabilities reflects the actuarial assessment of the benefits accrued up to the reporting date and payable to members on retirement, resignation, death and disability. The accrued liabilities are the present values of expected future benefit payments arising from membership of the Scheme up to 30 June 2023.

The annual update of the defined benefit member liability has been determined by reference to the expected future salary level increases (3.5 per cent; 2022: 2.5 per cent) and by application of the market-based, risk-adjusted discount rate after tax (6.0 per cent; 2022: 4.25 per cent).

	2023	2022
	\$000	\$000
Defined benefit member liabilities	185 889	192 810

The Board uses sensitivity analysis to monitor the potential impact of changes to key variables about which assumptions need to be made. The Scheme has identified two assumptions (being the discount rate and the rate of salary adjustment) for which changes are reasonably possible that would have a material impact on the amount of the defined benefit member liabilities.

- (i) The assumed discount has been determined by reference to the investment returns expected on an investment portfolio that reflects the opportunities reasonably available to the Scheme in the investment markets, and also reflects the Scheme's actual investments and investment strategy in respect of defined benefit member liabilities.
- (ii) The assumed annual salary adjustment has been determined by reference to the Wage Price Index produced by the Australian Bureau of Statistics and in consultation with the employer-sponsor.

The other variables about which assumptions have been made in measuring defined benefit member liabilities and for which changes are not considered reasonably possible, or for which reasonably possible changes would not be expected to have a material effect, include: pension indexation rates, mortality rates and resignations.

South Australian Ambulance Service Superannuation Scheme

The following table outlines the sensitivity estimates of the total member liabilities (both defined benefit (\$186 million) and defined contribution (\$68 million)), provided by the Scheme actuary, on the net earnings and salary growth.

	Member Liability result \$000	Change in member benefit liability \$000	Change in member benefit liability %
Scenario	254 379	-	-
Salary growth less 0.5%	256 215	1 836	0.7
Net earnings less 0.5%	253 318	(1 061)	(0.4)

As advised in Note 1(d), employer contributions for the year have been made at the rate determined by the Scheme actuary.

Vested benefits

Vested benefits are benefits that are not conditional upon continued membership of the Scheme (or any factor other than resignation from the Scheme) and include benefits which members were entitled to receive had they terminated their Scheme membership as at the reporting date.

	2023 \$000	2022 \$000
Defined benefit vested benefits	189 544	190 528

4) Defined contribution member liabilities

The employee funded, defined contribution component for the defined contribution accrued liability is the balance of the employees' contribution accounts as at the end of the financial year. These accounts are valued using unit prices that are determined by the underlying investment movements.

	2023 \$000	2022 \$000
Defined contribution member liabilities	68 491	70 673

Defined contribution members bear the investment risk relating to the underlying assets and unit prices. Unit prices are updated twice weekly.

	2023 \$000	2022 \$000
Defined benefit vested benefits	189 544	190 528
Defined contribution member liabilities	68 491	70 673
Total vested benefits	258 035	261 201

Refer to Note 17 for the Scheme's management of the investment risks.

South Australian Ambulance Service Superannuation Scheme

5) Fair value of financial instruments

Classification of financial Instruments under the fair value hierarchy

AASB 13 requires disclosures relating to fair value measurements using a three-level fair value hierarchy. The level within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement. Assessing the significance of a particular input requires judgement, considering factors specific to the asset or liability. The following table shows financial instruments recognised at fair value, categorised between those whose fair value is based on:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

Valuations are the responsibility of the Board. The valuation of investments is performed daily and are subject to quality assurance procedures.

After the checks above have been performed the Board considers the valuation results, including assumptions used in the valuations.

The Board also considers the appropriateness of the valuation methods and inputs, and may request that alternative valuation methods are applied to support the valuation arising from the method chosen.

Valuation technique

The Scheme's investments are not quoted in an active market. To ensure fair value can be determined, the Scheme's investment manager, Funds SA, applies due diligence and considers valuation techniques and inputs used in valuing the funds, prior to investing. In measuring fair value, consideration is given to the amounts for which financial assets can be sold, excluding transaction costs. The Scheme classifies these funds as Level 2.

There were no changes in valuation techniques during the year.

	2023	2022
	\$000	\$000
Financial assets at fair value through profit or loss – Level 2		
Level 1 and level 3 are not relevant to the Scheme		
Unlisted managed investment schemes	293 313	292 747
Funds SA	293 313	292 747

6) Value and movement of investments by investment option

	2023	2022
	\$000	\$000
Investments at 1 July	292 747	320 722
Change in Balanced Taxable	566	(27 975)
Investments at 30 June	293 313	292 747

South Australian Ambulance Service Superannuation Scheme

7) Receivables

	2023	2022
	\$000	\$000
GST recoup from ATO	4	11
Other receivables	(1)	(1)
Interest receivable	3	-
	6	10

8) Payables

	2023	2022
	\$000	\$000
Audit fees	26	26
Administration expenses	88	-
Unearned revenue	161	177
Provision for PAYG Withholding	9	8
Other payables	-	1
	284	212

9) Investment expenses

	2023	2022
	\$000	\$000
Investment expenses	929	1 053

Direct Investment expenses comprise fees paid to Funds SA. Funds SA advises the amount applicable to the Scheme based on the Scheme's funds under management.

10) Administration expenses

	2023	2022
	\$000	\$000
Administration expenses ⁽ⁱ⁾	391	359
Other expenses ⁽ⁱⁱ⁾	26	32
	417	391

⁽ⁱ⁾ Administration expenses comprises the costs incurred by the Department of Treasury and Finance in administering the Scheme, which are met in the first instance from the Department of Treasury and Finance Operating Account. The Board recovers a share of the administration cost from the Scheme.

⁽ⁱⁱ⁾ Other expenses include Auditors' remuneration. Refer Note 11.

South Australian Ambulance Service Superannuation Scheme

11) Auditors' remuneration

	2023	2022
	\$000	\$000
Audit fees paid or payable	25	25

Audit fees paid (or payable), \$25 200 GST exclusive (2022: \$25 100), relate to the Auditor-General's Department work performed under the PFAA. The Auditor General's Department uses the services of Ernst and Young for the audit. No other services were provided by the Auditor-General's Department.

12) Employer contributions

	2023	2022
	\$000	\$000
Employer contributions	7 278	6 534
Insurance premiums	487	491
Administration charges	487	491
	8 252	7 516

13) Reconciliation of cash and cash equivalents

For the purpose of the Statement of Cash Flows, cash and cash equivalents includes cash and deposits held in a Special Deposit Account with DTF. Cash flows are included in the Statement of Cash Flows on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the ATO is classified as part of operating cash flows. Cash at the end of the reporting period as shown in the Statement of Cash Flows is reconciled to the related item in the Statement of Financial Position as follows:

	2023	2022
	\$000	\$000
Cash and cash equivalents	2 681	665
Reconciliation of net cash from operating activities		
Net operating result	10 470	(15 959)
Adjustments for:		
Change in investments measured at fair value	(27 858)	15 900
Investment expenses	929	1 053
Insurance recognition	166	(123)
Decrease in receivables	4	1
Increase/(Decrease) in payables	1 883	(5 334)
Allocation to members' accounts	13 441	1 232
Net cash flows from operating activities	(965)	(3 230)

South Australian Ambulance Service Superannuation Scheme

14) Income tax

	2023	2022
	\$000	\$000
Major components of income tax (expense)/ benefit		
(a) Current income tax (expense)/ benefit		
Current tax charge	22	(606)
Adjustment to current tax for prior periods	(2)	15
Relating to the originating and reversal of temporary differences	(2 000)	3 508
Adjustment to deferred tax for prior periods	-	-
Income tax (expense)/ benefit	(1 980)	2 917
Reconciliation between income tax expenses and the accounting profit before income tax		
Net operating result before tax	12 450	(18 876)
Tax applicable at the rate of 15% (2022: 15%)	(1 868)	2 831
Tax effect of income that are not assessable/or deductible in determining taxable income:		
Investment revenue	1 073	(1 172)
Tax effect of other adjustments:		
Imputation and foreign tax credits	857	1 428
Self-Insurance deduction	74	76
(Under)/over provision prior period	2	(15)
Net benefit allocated to members	(2 118)	(231)
Income tax (expense)/benefit	(1 980)	2 917
(b) Current tax liabilities		
Current years income tax provision	326	1 017
Current tax liabilities	326	1 017
(c) Deferred tax liabilities		
The amount of deferred tax liability recognised in the Statement of Financial Position at reporting date comprises:		
Accrued expenses	(4)	(4)
Prepaid contributions/contributions receivable	-	-
Realised capital losses carried forward (discounted)	-	-
Unrealised capital gains/(losses) carried forward (discounted)	6 914	4 914
Deferred tax liabilities	6 910	4 910

The Scheme offsets tax assets and liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets.

South Australian Ambulance Service Superannuation Scheme

15) Insurance Reserve

The Scheme self insures and provides to Contributory Members in Service a benefit on death or total and permanent disablement (TPD) equal to the normal retirement benefit that would be payable if the member had continued in service to age 60. An income protection equal to 75 per cent of salary is payable for a maximum period of 24 months where a member becomes temporarily disabled before age 60. A member is also entitled to a benefit on Serious Ill Health equal to the greater of the early retirement benefit plus 5 per cent of salary for each year of service, and three times the member's salary. The Serious Ill Health benefit cannot exceed the benefit payable on TPD. The amount of salary is adjusted, if applicable, by the salary adjustment factor.

Members may purchase voluntary death and TPD insurance by applying for up to four units of insurance. The premium for each unit is \$1.35 per week per unit. The amount of cover for each unit is \$75 000 for ages up to 34 last birthday reducing to \$5 000 at age 64 last birthday.

	2023	2022
	\$000	\$000
Opening balance	1 707	1 675
Investment earnings/(loss) ⁽ⁱ⁾	145	(75)
Premiums and charges	487	459
Benefit payments	(678)	(346)
Consultancy expenses	-	(6)
Operating result	(46)	32
Transfer (from) Reserve ⁽ⁱⁱ⁾	-	-
Closing balance	1 661	1 707

⁽ⁱ⁾ The Insurance Reserve is notionally invested in the Balanced option. The rate of return on earnings was 8.5 per cent (2022: -4.7 per cent).

⁽ⁱⁱ⁾ The amount relates to the Board approved transfer out of accumulated investment earnings to the defined benefit assets.

16) Operational Risk Reserve

The Operational Risk Reserve is to be accumulated to 0.6 per cent of funds under management following a decision of the Board and in line with Prudential Standard SPS114.

	2023	2022
	\$000	\$000
Opening balance	795	830
Investment earnings/(loss) ⁽ⁱ⁾	70	(35)
Operating result	70	(35)
Transfer to/(from) Reserve	-	-
Closing balance	865	795

⁽ⁱ⁾ The Operational Risk Reserve is notionally invested in the Balanced option. The rate of return on earnings was 8.5 per cent (2022: -4.7 per cent).

South Australian Ambulance Service Superannuation Scheme

17) Financial risk management objectives and policies

The Scheme's investments are managed by Funds SA predominantly by the appointment of investment managers as determined by the Funds SA Board. Each investment manager is required to invest the assets in accordance with the terms of a written mandate. The Funds SA Board has determined that the appointment of these managers is appropriate for the Scheme and is in accordance with the Scheme's investment strategy. The Funds SA Board obtains regular reports from each manager on the nature of the investments made on its behalf and the associated risks.

The allocation of assets between the various types of financial instruments is determined by the Funds SA Board. Divergence from target asset allocations and the composition of the portfolio is monitored by the Funds SA Board on a regular basis.

The Scheme's investing activities expose it to the following risks from its use of financial instruments:

- market risk
- credit risk
- liquidity risk

The nature and extent of the financial instruments employed by the Scheme are discussed below. This note presents information about the Scheme's exposure to each of the above risks, the Scheme's objectives, policies and processes for measuring and managing risk.

The Funds SA Board has overall responsibility for the establishment and oversight of the Scheme's investment risk management framework.

The Scheme's investment risk management policies are established to identify and analyse the risks faced by the Scheme, including those risks managed by the Scheme's investment managers, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Scheme's activities.

The Scheme receives regular reports from Funds SA concerning compliance with investment objectives.

a) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Fund's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return on risk.

Funds SA manages the risk of financial market volatility through the adherence to two principles:

- ensuring a diversity of exposures to different financial markets and sub-markets, and
- ensuring asset allocations for different investment options are consistent with the time horizon of each.

(i) Currency risk

Currency risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of a change in foreign exchange rates.

The Fund's currency risk is managed by Funds SA as investments include assets denominated in foreign currencies.

South Australian Ambulance Service Superannuation Scheme

Funds SA strategic policy for the management of its foreign currency exposure is as follows:

- foreign currency exposures in the Private Markets Tax-Exempt, Private Markets Taxable, Core Infrastructure Tax- Exempt, Core Infrastructure Taxable, Credit, Long Term Fixed Interest and Inflation Linked Securities Taxable asset classes are economically hedged to Australian dollars, and
- foreign currency exposures over the developed markets component of the International Equities Tax-Exempt, International Equities Taxable, International Equities Passive Tax Exempt and International Equities Passive Taxable asset classes are economically hedged to Australian dollars.

For the purpose of managing foreign currency risk, within defined constraints, the exposure to foreign currency can be varied from the strategic policy stated above, by Funds SA.

(ii) Interest rate risk

Interest rate risk is the risk that a movement in interest rates will cause the value of fixed interest securities to deviate from expectations.

The Fund's interest rate risk is managed by Funds SA, as investments include fixed interest securities.

Funds SA manages interest rate risk through:

- ensuring asset allocations of different investment products are consistent with the time horizon of each, and
- the use of specialist external investment managers to manage Funds SA's cash and fixed income portfolios.

(iii) Other market price risk

Other market price risk is the risk that the value of the instrument will fluctuate as a result of changes in market prices, whether caused by factors specific to an individual investment, its issuer or all factors affecting all instruments traded in the market.

As the Fund's financial instruments are valued at fair value with changes in fair value recognised in the income statement, all changes in market conditions will directly affect investment revenue.

The Fund's other market price risk is managed by Funds SA, as investments include financial instruments exposed to market prices.

Funds SA manages the risk of financial market volatility through the adherence to two principles:

- ensuring a diversity of exposures to different financial markets and sub markets, and
- ensuring asset allocations for different investment options are consistent with the time horizon of each.

South Australian Ambulance Service Superannuation Scheme

(iv) Investments sensitivity analysis

The Funds SA Board has determined that its forecast risk/return profile provides a reasonable measure of the sensitivity of the expected returns in the investment for the year ahead. The following tables show the standard deviation around expected nominal returns for DB High Growth investment.

The statistics shown below are averages calculated over 10 years, net of investment management fees and gross of tax. These investment statistics have zero per cent tax rate applied and exclude franking credits.

	Expected Average Return	Market Risk	Average Funds Under Management	Potential impact of market risk (+/-) on Income Statement \$000
2023	%	%	\$000	\$000
Investment Option				
Balanced Taxable	7.0	8.4	293 030	24 615
	Expected Average Return	Market Risk	Average Funds Under Management	Potential impact of market risk (+/-) on Income Statement \$000
2022	%	%	\$000	\$000
Investment Option				
Balanced Taxable	5.6	9.0	306 735	27 606

Market risk is a useful historical measure of the variability of returns earned by an investment portfolio. The market risk shown above represents the range at which actual future returns are expected to occur either side of the nominal return approximately two thirds of the time.

The dollar value of the potential impact on the Income Statement arising from the market risk is indicative only. The impacts are not additive across investment asset classes, as each asset class operates in different markets and is subject to different conditions.

Actual movements in returns may be greater or less than anticipated due to a number of factors, including unusually large market shocks resulting from changes in the performance of the economies, markets and securities in which the underlying trusts invest. As a result, historic variations in rates of return are not a definitive indicator of future variations in rates of return.

b) Credit risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Scheme.

The value of financial assets, included in the Statement of Financial Position represents the Scheme's maximum exposure to credit risk in relation to those assets. The Scheme does not have any significant exposure to any individual counterparty or industry. The credit risk is monitored by Funds SA through ongoing reviews of the investment managers.

The Scheme does not have any assets which are past due or impaired and there is no concentration of credit risk.

South Australian Ambulance Service Superannuation Scheme

e) Liquidity risk

Liquidity risk is the risk that the Scheme will not be able to meet its financial obligations as they fall due. The Scheme's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its payment of benefits to members and liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Scheme's reputation.

For the Scheme's investments, Funds SA manages liquidity risk as follows:

- by giving careful consideration to the expected net cash redemption requirements of Funds SA's clients. The allocation to cash in the strategic asset allocation of each investment product is set at a level sufficient to manage expected cash redemptions, and
- a large proportion of each investment product is invested in highly liquid investments such as actively traded equities, unit trusts or securities with short-term maturities.

For the Scheme itself, the liquidity position is monitored on a daily basis. The Scheme's cash and liquidity policy is to have sufficient cash balances to meet anticipated weekly benefit payments, expenses and investing activities.

The following tables summarise the contractual maturity profile of the Scheme's financial liabilities based on the earliest date on which the Scheme can be required to pay. The amounts in the table are the contractual undiscounted cash flows.

	Less than 3 Months \$000	Total Contractual Cash Flows \$000%	Carrying Amount Liabilities \$000
2023			
Benefits payable	380	380	380
Payables ⁽ⁱ⁾	161	161	161
Vested benefits ⁽ⁱⁱ⁾	258 035	258 035	258 035
Total	258 576	258 576	258 576
2022			
Benefits payable	545	545	545
Payables ⁽ⁱ⁾	177	177	177
Vested benefits ⁽ⁱⁱ⁾	261 201	261 201	261 201
Total	261 923	261 923	261 923

⁽ⁱ⁾ Payable amounts disclosed here exclude amounts relating to constructive obligations and statutory payables (e.g. Commonwealth, State and Local Government taxes, fees and charges, Auditor-General's Department audit fees).

⁽ⁱⁱ⁾ Vested benefits have been included in the "Less than 3 Months" column, as this is the amount that members could call upon as at balance date. This is the earliest date on which the Scheme can be required to pay members vested benefits, however, members may not necessarily call upon amounts vested to them during this time.

South Australian Ambulance Service Superannuation Scheme

d) Derivative financial instruments

Derivatives can be defined as financial contracts whose value depends on, or is derived from, assets, liabilities, reference rates or indices. Funds SA uses derivatives to manage portfolio risk and to facilitate the implementation of investment strategies efficiently and cost effectively. Funds SA uses a variety of derivative instruments, such as over the counter swap agreements, forward rate agreements, futures and options.

Derivatives are an authorised investment within certain mandates managed by Funds SA's external investment managers for the purposes described above.

18) Segment information

The Scheme operates in one reportable segment, being the provision of benefits to members. The Scheme also operates from one reportable geographic segment, being Australia, from where its activities are managed. While the Scheme operates from Australia only, the Scheme, through its investment manager Funds SA, has investment exposures in different countries and across different industries. Revenue derived from interest and the realised and unrealised changes from the different segments is reflected in the value of investments.

19) Related parties

a) Key management personnel

The key management personnel of the Scheme includes the Treasurer, Board members, the Chief Executive and the six members of the Executive Leadership Team, State Superannuation Office who have responsibility for the strategic direction and management of the Scheme.

b) Compensation

All key management personnel are compensated by the Department of Treasury and Finance or the Board, therefore their compensation is disclosed in the respective financial reports.

c) Transactions with key management personnel and other related parties

There were no transactions requiring disclosure for key management personnel or related parties.

d) Transactions with other government entities

There were no significant transactions with government entities other than those disclosed elsewhere in the financial statements.

20) Events after the reporting period

There were no significant events after the reporting period.

South Australian Ambulance Service Superannuation Scheme

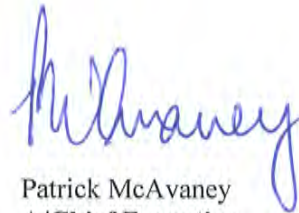

Certification of the financial statement

We certify that the:

- financial statements of the South Australian Ambulance Service Superannuation Scheme:
 - are in accordance with the accounts and records of the Scheme,
 - comply with relevant Treasurer's instructions,
 - comply with relevant accounting standards, and
 - present a true and fair view of the financial position of the Scheme at the end of the financial year and the result of its operations and cash flows for the financial year.
- internal controls employed by the Scheme for the financial year over its financial reporting and its preparation of the financial statements have been effective.
